PRC laws and regulations require PRC companies to provide statutory reserves. General reserve is appropriated at 15% and staff welfare fund at within 10% from net profits after taxation as reported in the financial statements prepared under the Accounting Standards for Business Enterprises of PRC. Provision for the general reserve ceases when the accumulated general reserve amounts to 50% of the issued capital. All statutory reserves, including the general reserve fund and staff welfare fund, are for specific purposes and are not distributed in the form of cash dividends.

The Company declares dividends based on the lower of net profit after appropriation to reserves as reported in the financial statements prepared under the Accounting Standards for Business Enterprises and Accounting Systems for Business Enterprises in PRC and as reported in the financial statements prepared under IFRS. For six months to June 30, 2006, the directors have not declared any dividends to its shareholders.

The notes on pages 5 to 28 form part of these financial statements.

2. BASIS OF PREPARATION

The financial statements of the Group have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board under the historical cost basis except for the revaluation of investment properties. The accounting policies adopted by the Company under IFRS differ from the accounting policies used in the financial statements of the Group which were prepared in accordance with Accounting Standards for Enterprise Business and Accounting Systems for Enterprise Business in the PRC. Adjustments to restate the results of operations and the net assets in compliance with IFRS will not be taken up in the accounting books of the companies in the Group. Details of impacts of such adjustments on the net assets as at 30 June 2006 and net profit for the year then ended are included in note 29 to the financial statements.

3. PRINCIPAL ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 31 December each year. The results of subsidiaries acquired or disposed of during the year, if any, are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate. The results of operations of subsidiaries are included in the consolidated income statement and the share attributable to minority interests is excluded from the consolidated net profit. All significant intercompany transactions and balances within the Group have been eliminated on consolidation.

Goodwill

Positive goodwill arising on consolidation represents the excess of the cost of the acquisition over the Group's share of the fair value of the identifiable assets and liabilities acquired. In respect of subsidiaries:

SHENZHEN SPECIAL ECONOMIC ZONE REAL ESTATE & PROPERTIES (GROUP) CO., LTD

3. PRINCIPAL ACCOUNTING POLICIES - (continued)

Goodwill (continued)

*For acquisitions before January 1, 2001, positive goodwill is eliminated against reserves.

*For acquisitions on or after January 1, 2001, positive goodwill is amortized on a straight-line basis over its estimated useful life. Positive goodwill is stated in Consolidated Balance Sheet at cost less any accumulated amortization and any impairment losses.

*On disposal of a subsidiary, any attributable amount of purchased goodwill not previously amortized through the Consolidated Income Statement or which has previously been dealt with as a movement on group reserves is included in the calculation of the profit or loss on disposal.

Subsidiaries

A subsidiary is an enterprise in which the Company, directly or indirectly, holds more than half of the issued share capital, or controls more than half of the voting power, or where the Company controls the composition of its board of directors or equivalent governing body.

Investments in subsidiaries are included in the Company's balance sheet at cost less provision, if necessary, for impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Subsidiaries not consolidated

In the consolidated balance sheet the unconsolidated subsidiaries are recorded at cost and adjusted thereafter for post acquisition change in the Group's share of net assets of the subsidiaries. The consolidated income statement reflects the Group's share of the results of operations of the subsidiaries.

Investments in subsidiaries excluded from consolidation are stated at cost less provision for any impairment losses and the results of the subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Associates

An associate is a company over which the Group is in a position to exercise significant influence, but not control, through participation in the financial and operating policy decisions of the investee.

The consolidated income statement includes the Group's share of the post-acquisition results of associates for the year, and the consolidated balance sheet includes the Group's share of the net assets of the associates plus the unamortized goodwill less capital reserves on acquisition of the associates.

In the Company's balance sheet the investment in associates are stated at cost less provision, if necessary, for impairment losses.

Contractual joint ventures

A contractual joint venture is a venture which operates under a contractual agreement whereby the Group or Company and at least one other party undertake an economic activity which is subject to control and none of the parties involved unilaterally has control over the economic activity.

SHENZHEN SPECIAL ECONOMIC ZONE REAL ESTATE & PROPERTIES (GROUP) CO., LTD

3 PRINCIPAL ACCOUNTING POLICIES - (continued)

The consolidated income statement includes the Group's share of the post-acquisition results of its contractual joint venture for the year. In the consolidated balance sheet, interests in contractual joint venture are accounted under the equity method and are stated at cost, less goodwill, and adjusted for the post acquisition change in the Group's share of the contractual joint venture's net assets.

Cash and cash equivalents

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value.

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, bank balances and time deposits within three months of maturity when acquired.

Property, plant & equipment

Property, plant & equipment except investment properties is stated at cost less accumulated depreciation and any impairment losses.

The cost of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the asset has been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the profit and loss account in the year in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalized as an additional cost of the asset. When an asset is sold, its cost and accumulated depreciation are removed from the financial statements and any gain or loss resulting from the disposal, being the difference between the net disposal proceeds and the carrying amount of the asset, is included in the profit and loss account.

Depreciation is provided to write off the cost of property, plant & equipment over their estimated useful lives on a straight-line basis. Estimated useful lives are summarized as follows:

Land use rights and buildings in the PRC	25 – 30 years
Plant and machinery	7 years
Motor vehicles	6 years
Furniture, fixtures and office equipment	5 years

Construction-in-progress represents plant and properties under construction and includes the costs of construction plus interest charges arising from borrowings used to finance the construction during the construction period. No depreciation is provided for construction-in-progress until they are completed and put in use.

Investment properties

Investment properties are completed properties which are held for their investment potential, any rental income being negotiated at arm's length.

Investment properties are stated at their fair value based on independent professional valuations or directors' valuations at the balance sheet date. Any gain or loss arising from a change in the fair value of investment property should be included in the income statement. Gains or losses arising from the retirement or disposal of investment property should be determined as the difference between the net disposal proceeds and the carrying amount of the asset and should be recognized as an income or expense in the income statement.

3 PRINCIPAL ACCOUNTING POLICIES - (continued)

Impairment of assets

No depreciation is provided on investment properties except where the unexpired term of the relevant lease is 20 years or less.

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately, unless the relevant asset is land or buildings other than investment property carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Completed properties and properties under development

Completed properties and properties under development held for sale are stated at the lower of cost and net realizable value. Cost includes the cost of land, development expenditure, borrowing costs capitalized in accordance with the Group's accounting policy and other attributable expenses. Net realizable value is determined by the management based on prevailing market conditions.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost, which comprises all costs of purchase and other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the first in first out method. Net realizable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Long-term investments

Long-term investments where the Group is not in a position to exercise significant influence or exert control are stated at cost less provision for impairment losses, where the investment's carrying amount exceeds its estimated recoverable amount.

SHENZHEN SPECIAL ECONOMIC ZONE REAL ESTATE & PROPERTIES (GROUP) CO., LTD

3. PRINCIPAL ACCOUNTING POLICIES - (continued)

Short-term investments

Short-term investments are stated in the balance sheet at fair value. Changes in fair value are recognized in the income statement.

Revenue recognition

Turnover comprises (i) proceeds from sales of properties, (ii) revenue from retail sales of merchandise, (iii) revenue from hotel services, (iv) revenue from sales of goods, (v) billings related to construction, fitting-out, equipment installation and maintenance contracts, and (vi) rental income from investment properties.

Income from sales of properties together with the interest earned on deposits from the installment sales of flats are recognized upon the execution of a binding sales agreement or upon the issuance of an occupation permit completion certificate by the relevant authority, whichever is the later. Deposits received from forward sales of properties are carried in the balance sheet under current liabilities.

Installment sales of developed properties are recognized to the extent that installments are received or become due under the relevant sales contracts.

Revenue from hotel services, property management services and taxi services is recognized when the services are rendered.

Revenue from the sale of goods, other than merchandise, is recognized upon delivery of the goods to customers and entitlement to the sales consideration is obtained.

Profit from construction, fitting-out, equipment installation and maintenance contracts, which are mainly short-term in nature, is recognized under the completed-contract method, whereby billings and costs are accumulated and deferred, together with the related profit, until completion of the work.

Rental income, including rental invoiced in advance from properties under operating leases, is recognized on a straight-line basis over the terms of the relevant leases.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the interest rate applicable.

Retirement benefit costs

In accordance with local government regulations, the Group is required to make contributions to a retirement insurance fund which is administered by the local social security bureau in accordance with government regulations. The amount of contributions is determined at a fixed percentage of the basic salaries of the Group's existing PRC staff.

Retirement benefits are paid directly from the fund and are calculated based upon a retired employee's basic monthly salary and their number of years' service.

The amount charged to the income statement represents the amount of contribution payable to the scheme by the Group.

3 PRINCIPAL ACCOUNTING POLICIES - (continued)

Deferred income tax

Deferred taxation is provided, using the liability method, for temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Currently enacted tax rates are used to determine deferred tax. It is recognized in the financial statements to the extent that it is probable that future taxable income will be available against which the temporary differences can be utilized.

Intangible assets

Intangible assets represent the cost of acquisition of taxi licenses and computer software and are stated at cost less amortization and provision, if any, for impairment losses. Amortization is provided to write off the cost of taxi licenses over the license period granted by relevant authorities, namely 10 years, by equal installments. Amortization is provided to write off the cost of computer software over 5 years.

Foreign currency translation

Foreign currency transactions are converted at exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Exchange differences arising in these transactions are dealt with in the income statement.

On consolidation, the financial statements of overseas subsidiaries maintained in foreign currencies are translated at exchange rates ruling on the balance sheet date. Exchange difference arising on consolidation, if any, are dealt with in reserves.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from borrowing costs eligible for capitalization.

All other borrowing costs are recognized in net profit or loss in the period in which they are incurred.

Provisions, contingent liabilities and contingent assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognized because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognized but is disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognized as a provision.

SHENZHEN SPECIAL ECONOMIC ZONE REAL ESTATE & PROPERTIES (GROUP) CO., LTD

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group.

Contingent assets are not recognized but are disclosed in the notes to the accounts when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognized.

4. BUSINESS AND GEOGRAPHICAL SEGMENTS
