健康厨电新时代！

美大集成灶以“节能、环保、健康、低碳”为目标，创新设计理念和思路，采用独特下排油烟技术和模块化结构设计，将传统上排风方式变为下排风方式，并集多种厨电功能为一体，在有效解决厨房油烟污染问题和解决油烟对人体健康危害的同时具有较高性价比，节省空间，实现开放式厨房，成为符合现代生活需求的节能、环保、低碳的现代化厨房电器。

Meida integration stove targets "energy-saving, environmental protection, health, low-carbon", using unique downdraft exhaust method and modularization structure design. It integrates many function of kitchen equipment and owns high cost performance about the problem of kitchen lampblack & harmful to people health, so it saves spaces, realize open kitchen and becomes the modernization kitchen people need.

优化空间 Optimizing Space

现代厨房,不再仅仅是做饭的地方,而是家人享受餐饮、休闲、娱乐的生活吧台,美大集成灶,造型美观,优化空间,满足了现代厨房节能、环保、健康、低碳的需求。推倒厨房间一堵墙,带来开阔和健康,使开放式厨房成为现实!

Nowadays, kitchen is not only a place for cooking, but also for enjoy delicious, leisure and amusement. Meida integrated kitchen system, with attractive appearance and space optimizing, satisfies the need of energy-saving & environmental protection & health & low-carbon for modern kitchen, so that the open kitchen to become a reality!

智能操控 Intelligent Control

精致的LED触屏,闪耀着科技的智慧,懂得您内心的想法,让您的意图灵巧的显示在炫彩视屏上,轻轻触碰之间,它已经精确的执行您的指令,让操作变得充满愉悦和轻松!

Sophisticated LED touch screen is the product of S&T, which can understand your inner thoughts, and make your intentions show directly on bright screen. It will precise execute of your command when you gently touch, making operation filled with pleasure and ease.

环保健康 E&P Health

美大集成灶创新于下排风设计,运用微空气动力学原理,形成流体包络面,把油烟与环境双向隔离,并且零距离吸排,使油烟未扩散前就被全部吸走! 气味降低度(油烟净化率)达到99.6%,解决了厨房油烟污染,同时还一氧化碳、氮氧化物等有害气体全部打包带走,保持空气清爽,保护人体健康!

Meida integrated kitchen system, by the created downdraft exhaust design, rise the purification rate up to 99.6% with the theory of micro aerodynamics. The fluid membrane exhaust system will discharge smoke, lampblack in no surrounding diffusion, leaves no exhaust gas such as CO, Nox.

功能集成 Multifunctional Design

美大集成灶将吸油烟系统、炉灶烹饪、烤箱、蒸炉、电磁炉、消毒烘干、贮藏等多种厨房产品与功能合而为一,集成于一机,科学的设计和组合性价比高,使用方便,省心省钱省空间,引领现代厨电发展新潮流!

Meida integrated kitchen system, is designed and combined scientifically with smoke fumes, cooking stoves, disinfecting drying, storage and other functions. It is easy to use and can make you free from worry and help you save money & space and also leading the way to modern kitchen!

全新概念下排风工作方式 Downdraft exhaust

打破传统吸油烟机的上排风工作方式, 创新运用全新概念的深井环吸下排风工作方式, 消除厨房油烟污染问题, 并解决操作碰头、噪音扰人、机坠伤人、漏油滴油等难题。
It can eliminate both soot pollution in the kitchen and the problems from the traditional hood such as bruise your head, noise nuisance, oil spills and so on.

独一无二的集成式设计 Integrated design

集吸油烟系统、炉灶烹饪、烤箱、电蒸炉、消毒、贮藏、人性化智能控制于一体的多功能组合灶具, 适合现代整体厨房装修潮流。
Integrate with absorbing lampblack system, cooking stove, oven, disinfection drying, storage and human intelligent control. Improve the layout of kitchen and it congregates all the virtue of the modern kitchen in the market.

创新微空气动力学原理 Micro-aerodynamic theory

创新于用微空气动力学原理, 气流在锅沿平面上经过精心组织形成流体包围面, 把污染源与环境进行双向隔离, 有效根除有害气体对厨房环境的污染。
In order to get rid of the smoke completely from cooking, using Micro-aerodynamic theory develops the several national patents for the flank suction and air fluid diaphragm technology.

拥有多项自主知识产权 Independent intellectual property rights

产品拥有深井侧吸强排式除油烟灶具、流体包围面式粉尘尘屏蔽分离排出装置等五十多项国内和国际PCT专利, PCT国际专利法覆盖世界上110个国家和地区。
The product has down-draft exhaust filter for the kitchen range with flank suction and lots of Patented Technologies, and have been applied for PCT international Patent which covers more than 110 countries in the world.
