OPERATING RESULTS

In the first half of 2015, China continued to strengthen its efforts in environmental restoration with the 'New Normal' economy in mind, and released various policies to support the environmental protection industry. The newly amended *Environmental Protection Law of the People's Republic of China* took effect on 1 January this year. The General Office of the State Council subsequently released the *Opinions on Promoting the Third-party Treatment of Environmental Pollution*, stating the government's intention to encourage and increase the participation of social capital and take a market-oriented, professional and industrialized approach to facilitate the development of environmental services and improve the country's pollution treatment standards. In addition, the *Implementation Opinions on Promoting Public-Private Partnership in the Water Pollution Prevention and Control Area* jointly released by the Ministry of Finance and the Ministry of Environmental Protection in April 2015 and the *Action Plan for Prevention and Treatment of Water Pollution* released by the State Council brought about tremendous potential for the investment and development of the integrated water restoration market. The 13th Five-year Plan once again emphasized the importance of a green economy and the protection of the ecological environment. The introduction of the new laws and policies has been a significant driving force for the development of the environmental protection industry.

Benefiting from the government's policy support of the environmental protection industry, during the period under review, China Everbright International Limited (the "Company", together with its subsidiaries, collectively the "Group") continued to adhere to its business philosophy of "Development, Reform and Innovation" to implement the development strategy of "Leveraging Talent, Science and Technology to Expand from Coastal Areas to Inland Cities, from Cities to Rural Areas, from Domestic to Overseas Markets" with a strong sense of social responsibility and a commitment to environmental protection, advancing the growth of all of its business segments. Meanwhile, leveraging the advantage of integrated regional management, the Group not only made remarkable achievements in its talent strategy, internal management, technology strengths and industry chain extension, but also achieved outstanding results in its business expansion and in the capital market.

經營業績

二零一五年上半年，國家在經濟「新常態」下，繼續加大對環境污染的治理力度，出臺多項政策大力支持環保產業。新修訂的《中華人民共和國環境保護法》於今年一月一日起開始實施；國務院辦公廳隨後發佈《關於推行環境污染第三方治理的意見》，明確指出要吸引和擴大社會資本投入，以市場化、專業化和產業化為導向，促進環境服務業發展，提升國家污染治理水平。另外，今年四月，國家財政部連同環境保護部頒佈的《關於推進水污染防治領域政府和社會資本合作模式的實施意見》及國務院發佈的《水污染防治行動計劃》，均為水綜合環境治理市場帶來了巨大的投資及發展空間。而「十三·五」規劃的大方向亦把綠色經濟和生態環境保護放在重要的位置。這一系列法律及政策的出臺，對環保產業的發展起到了標誌性的推動作用。

受惠於國家對環保產業的政策支持，回顧期內，中國光大國際有限公司（「本公司」），連同其附屬公司合稱「本集團」繼續圍繞「發展、改革、創新」的整體思路，以高度的社會責任感和對環保的執著追求，進一步貫徹「以人才、科技為引領，從沿海向內陸、從城市向農村、從國內向國外」的發展戰略，全面推進旗下各環境服務板塊的發展。同時，透過整合發揮區域管理優勢，不但在人才戰略、內部管理、科技實力及產業延伸等多方面的工作成效顯著，在業務拓展及資本市場方面亦取得了驕人的成績。

(b) Segment reporting

The Group manages its business by divisions, which are organised by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented five reportable segments. No operating segments have been aggregated to form the following reportable segments.

The Group redefined its business divisions during the current period to align with its organisational structure for the purpose of managing its strategic direction. Accordingly, for the presentation of segment information, industrial solid waste and hazardous waste treatment projects, previously included in "Environmental energy project construction and operation" segment, have been reclassified to "Greentech project construction and operation" segment. The comparative segment information has been reclassified to conform to the current period's presentation.

Debtors represent revenue from environmental energy project, environmental water project and greentech project operation services. There was no recent history of default in respect of the Group’s debtors. Since most of the debtors are local government authorities in the PRC and based on past experience, management believes that no impairment allowance is necessary in respect of the past due balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances. No impairment loss was recognised by the Group at 30 June 2015 (31 December 2014: Nil).

13 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

(a) Financial assets and liabilities measured at fair value

(i) Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

(i) 公允值架構級別

下表列示本集團於報告期末按經常性基準計量之金融工具公允值，有關金融工具歸類為香港財務報告準則第13號「公允值計量」所界定之三個公允值架構級別。公允值計量所歸類之級別乃參照以下估算技術所用數據之可觀察程度及重要程度而釐定：

- 第一級估值：僅用第一級數據（即於計量日期相同資產或負債在活躍市場之未經調整報價）計量之公允值
- 第二級估值：使用第二級數據（即未能符合第一級規定之可以觀察得到之數據，以及不使用不可觀察得到之重要數據）計量之公允值。不可觀察得到之數據指未有相關市場數據之數據
- 第三級估值：使用不可觀察得到之重要數據計量之公允值

Interim Financial Report 中期財務報告

13 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)**(a) Financial assets and liabilities measured at fair value** (continued)*(ii) Valuation techniques and inputs used in Level 2 fair value measurements*

The fair value of available-for-sale equity securities in Level 2 represent an investment in a property investment company, with its investment properties (being significant part of the total assets) stated at fair value. The fair value of such investment is determined based on net asset value of the investee which is approximately the fair value.

The fair value of cross-currency swaps in Level 2 is estimated by the discounted cash flow approach, assuming that the Group entered into an offsetting position in the swap at the valuation date, such that the fair value at the valuation date would be the sum of the present value of the net payoffs from the original position and the offsetting position on the scheduled payment dates. The cash flows associated with the assumed offsetting position on the scheduled payment dates were estimated based on the forward exchange rates with matching maturities at the valuation date. The net payoffs were discounted to present values at the risk-free rates with matching maturities and currencies.

The fair value of warrants at 31 December 2014 in Level 2 is estimated using the Binomial Valuation model.

13 金融工具之公允值計量(續)**(a) 按公允值計量之財務資產及負債(續)***(ii) 第二級公允值計量所使用之估值技術及輸入數據*

第二級之待售股本證券之公允值指於一家物業投資公司之投資，該公司之投資物業（佔其總資產重大部份）按公允值列賬。有關投資之公允值根據被投資公司之資產淨值釐定，有關資產淨值與公允值相若。

第二級之交叉貨幣掉期之公允值乃按現金流貼現法估計，假設本集團於估值日期訂立相抵持倉之掉期合約，則於估值日期之公允值將會是於預定付款日期原來的倉盤與上述相抵持倉淨額結算後之現值。相抵持倉於預定付款日期的現金流乃按合約屆滿時所報之遠期匯率牌價估計。淨額結算所得之數按貨幣合約屆滿時之適用無風險收益率貼現至現值。

於二零一四年十二月三十一日，第二級之認股權證之公允值乃使用二項式估值模式估計。

13 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

(a) Financial assets and liabilities measured at fair value (continued)

(iii) Information about Level 3 fair value measurements

The movements during the period in the balance of these Level 3 fair value measurements are as follows:

Payment for purchases	購買所付款項	-	7,753
At 30 June	於六月三十日	15,503	7,753

(b) Fair values of financial assets and liabilities carried at other than fair value

The fair values of cash and cash equivalents, debtors, bank deposits, current portion of other receivables, deposits and prepayments and creditors, other payables and accrued expenses are not materially different from their carrying amounts because of the immediate or short term maturity of these financial instruments. The carrying amounts of non-current portion of other receivables and deposits, gross amounts due from customers for contract work and interest-bearing borrowings approximate their fair values.

13 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)**(b) Fair values of financial assets and liabilities carried at other than fair value** (continued)

Independent Review Report 獨立審閱報告

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2015 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.
