Current Status:	Judgment was rendered on April 2, 2016 excluding Target from the case as a defendant, in view of its lack of standing to be sued. An interlocutory appeal was filed by the claimant on April 5, 2016. On June 24, 2016, the case was dismissed without prejudice due to lack of conditions of the action (movement obtained from the TJPR site). It further alleges that when delivering the products, the prices applied by the defendant were considered well below the market value, since they were to be closed later. Proceeding no.:	0000459-78.2016.8.16.0047 Civil Court of Assai/SP
Plaintiffs:	Mario Nakamura
Defendants:	Target
Nature:	Indemnification
Purpose:	Action For Declaratory Judgment (the lawyer of Target did not provide detailed information on the purpose of the action).
Start Date:	February 18, 2016
Original amount involved (Plaintiff - claim):	BRL 137.000,00
Updated Amount involved:	BRL 212.752,66
Risk of loss:	Possible
History of the Claim:	The Plaintiff filed a Declaratory Action of Nullity of a Legal Act, claiming to be the legitimate owner of real estate offered as a mortgage guarantee on behalf of the Defendant, as well as, pledged in favor of the Defendant in the Execution moved against Maria Correa Lopes and Others, due to alleged fear of irreparable damage or difficult repair, so that the designated auctions were suspended. The Plaintiffs, who are owners of the areas in question, protested that they had acquired the real properties in 2004, according to public deed, before the constrictions of the real estate, as well as, on a claim that they exercise full possession of resources, even if the alleged acquisition was not registered, they would be the legitimate owners of the property, claiming an exemption from the judicial constrictions. They demanded a suspension of the real estate auctions, as well as a certificate of the entering of the present claim in the proceedings related to the constrictions, to consider that the judgment has with grounds resulting from the requests for cancellation of the mortgages and liens in the registrations of the real estate, in order to be able to transmit them, a summon of the Defendants, as well as, they protest to prove the alleged by all allowed procedures in law, with gathering of documents, personal testimony and testimony of witnesses.

When the guarantee was offered to the Defendant, the property was under the ownership of Mr. Manoel Lopes (debtor), in order to guarantee the opening of the credit. It has been duly demonstrated to the court that the Plaintiffs themselves state in their exordium that they

did not register "by mere negligence", confirming the inexistence of property of the Plaintiffs. Already presented the evidences to be taken, pleading the advanced trial of the proceeding.

Remarks:

(i) We agree with the Risk of loss presented by Target's lawyers.

(ii) This lawsuit is a point of concern since an unfavorable decision might represent a monetary impact of BRL 200,000.00.

1.	
Proceeding no.:	11634.720.340/2015-13
Plaintiff:	Federal Revenue Office
Defendant:	The Target (Head Office)
Nature:	Tax Assessment
Start Date:	September 17, 2015
Original amount involved:	BRL 3,146,333.63
Updated amount involved:	BRL 3,555,317.44 (Updated amount calculated by Demarest. The Target's External Law Firm presented an updated amount of BRL 3,386,070.19)
Summary of the matter:	The tax assessment requires the payment of PIS and COFINS on the period between December 2010 and December 2011, plus punitive fine of 75% and late interest. Tax authorities argue the lack of payment due to the fact that some transactions were incorrectly subject to the suspension of PIS and COFINS. The discussion is related to the enjoyment of the suspension of PIS and COFINS on sales of vegetal inputs to individuals instead of legal entities subject to the non-cumulative regime. Besides, the infraction notice disregarded a supposed irregular offset of PIS and COFINS credits.
Status of the case:	Infraction notice issued on September 17, 2015. Opposition presented on October 16, 2015. Currently, the first level decision is pending.
Chances of defeat:	Possible, according to Target's External Law Firm. External Law Firm opinion related to the chances of defeat seems correct, however, our analysis on the chances of defeat may be different depending on the clarification of facts related to the Target's transactions, which should confirm the exact relation between the facts and the applicable legislation, as the Target and the Brazilian tax authorities considered different legal grounds applicable to the case.

Updated amount involved:	BRL 1,657,355.10 (Updated amount calculated by Demarest. The Target's External Law Firm presented an updated amount of BRL 1,276,166.49)
Summary of the matter:	Target filed an administrative defense requiring the acceptance of PIS and COFINS credits, considering the sale of products effectuated with suspension, exemption or zero rate of social contributions (PIS and COFINS). PIS and COFINS credits of the Target were questioned by the tax authorities, considering the calculation of credits related to inputs, fixed assets, goods received with the purpose of exportation, suspension of payment of PIS and COFINS, acquisition of products with zero rate, acquisition of goods from individuals and others.
Status of the case:	Offset of PIS and COFINS partly denied. Opposition presented. Currently, the first level decision is pending.
Chances of defeat:	Possible, according to Target's External Law Firm. We consider that the administrative court should not accept part of the credits, thus, the chances of defeat of part of the claim may be considered as probable in the administrative sphere. We estimate that at least 70% of the infraction notice could be considered as a probable loss in the administrative sphere. We highlight that the chances of defeat is possible in the Judicial level.
