During the reporting period, the Company sold 1.5 million shares of Guotai Jun'an, and received investment returns of 27,467,019.93 yuan.

Section 3 The Company's Business profile

I. The Company's Main business during the reporting period

The Company, as the largest industrial refrigeration equipment production enterprise in China, is committed to developing Industrial refrigeration and heating business field, commercial refrigeration and refrigeration business field, air-conditioning and environment business field, core parts business field, engineering and service business field have covered the key areas of the refrigeration industrial chain and forged the most complete cold and hot industrial chain in China.

II. Major changes in main assets

1. Major changes in main assets

Main assets	Explain for major changes
Monetary funds	Significantly decreased on a year-on-year basis, mainly because the increase in raised funds investment after non-public offering of shares.
Other current assets	Significantly increased on a year-on-year basis, mainly because the Company used the temporarily idle raised funds to purchase bank financial products.
Fixed assets	Significantly increased on a year-on-year basis, mainly because the buildings in the new factory area transferred to fixed assets.
Construction in progress	Significantly decreased on a year-on-year basis, mainly because the buildings in the new factory area transferred to fixed assets.
Investment property	Significantly increased on a year-on-year basis, mainly because the Company rented out the entire land and buildings of the old factory area to Dalian Bingshan Wisdom Park Co., Ltd.
Short-term loans	Significantly increased on a year-on-year basis, mainly because the credit loans increased.

2. The main overseas assets

☐ Applicable ☒ Not applicable

III. Analysis of core competence

The Company closely focuses on main business of cold and heat; independent R&D and joint venture partnerships are cooperate with each other effectively; capital resources integration and business model innovation are in a positive interaction; the community of business and interest are being created in two ways; the develop mode with Bingshan characteristic are formed.

The Company has the most integrated cold-heat industrial chain for offering kinds of comprehensive solution services, including design, manufacture, installation and maintenance etc., and can satisfy individual requirements preferably.

The Company possesses a mature and solid marketing networks and after-sale service network on/off-line, and can offer high quality and high value-added services more initiative and faster for clients from around the city.

After overall relocation reform, the new factory of intelligence, environment protection, high efficiency and safety are put into used, which produces a strong comparative advantage for creating higher value to the customers.

While move forward with transformation and upgrading for former business, the Company will implement the cultivation for new business, thus the sustainable healthy development will come more and more feasible.

Core-competency of the Company further promoted in the reporting period.

Section 4 Management discussion and analysis

I. Summary

In 2017, by adherence to the theme of "activation, integration and upgrading", the Company managed to accomplish the major operating indicators through maintaining strategic commitment, activating endogenous driving force, integrating system resources, gathering competitive forces and improving operating quality. In 2017, the Company recorded operating income of RMB 2,079,720 million yuan with a year-on-year increase of 9.85%, and recorded total profit of RMB 21,847 million yuan with a year-on-year increase of 12.90%.

During the reporting period, the overall relocation and transformation of the Company was successfully completed, and the intelligent, environmental, efficient and safe new factory was put into use. It has been identified by the Ministry of Industry and Information Technology as one of the first batch of service-based manufacturing model enterprises, the national technological innovation demonstration enterprise, and it has been awarded with the gold medal of quality by the governor of Liaoning Province in 2017.

During the reporting period, Wuxin Refrigeration, one of our subsidiaries, achieved significant progress in the strategic transformation from traditional refrigeration and air conditioner to energy saving, emission reduction, comprehensive energy utilization as well as process gas compressor. The company has almost completed layout of the new products demonstration outlets across the whole nation and recorded a year-on-year increase of over 50% in sales revenue from the new products. Through technical marketing and government marketing, our symbolic new products, such as natural gas pipe network pressure power generation and cold energy recovery system, have become available for commercial use for multiple projects in various regions.

During the reporting period, the Company's subsidiary Bingshan Engineering Company continued to deepen the market segmentation, and achieved satisfying growth in ordering in various fields in which the company enjoyed advantages, such as cold chain logistics and fishing. In particular, the company succeeded to execute over 20 contracts with subject transaction under any of them amounting to RMB 10 million or above. New achievements have been made by the company in the segment of marine engineering since it has successfully entered into the market of high-end ultra-low temperature ocean carriage ships when it realized successful shipping of refrigeration station. The amount of orders placed was nearly RMB 100 million, up by 50% over the same period. Great progress has been made in the development of new energy industry, and distributed energy projects have come to the ground successively. The segment of ice and snow experienced a new breakthrough as it won the bid in the high-end indoor snow field project developed by Guangzhou Wanda Mall, for which, the total contract value amounted to approximately RMB 40 million.

During the reporting period, the Company's subsidiary Bingshan Service Company has flexibly applied Bingshan Internet of things Cloud Platform, the all-in-one button repair mobile APP as firstly developed in the industry and large refrigeration system hosting service model, enabling the company to record a year-on-year increase of over 50% in repair and maintenance income.

During the reporting period, the Company's subsidiary Bingshan Ryosetsu experienced rapid growth in its quick freezing business, recording revenue of over RMB 50 million from quick freezing equipment with an increase of more than 50% as compared to the corresponding period of last year. It has successfully entered the crayfish

processing industry which is prospering, enabling it to further strengthen the future development potential.

During the reporting period, the horizontal scroll compressors applicable for rail transit air conditioning systems newly developed by Panasonic Compressor, an associated company of the Company has made obvious progress in market expansion in metro, light rail and other fields. The "coal to electricity" heat pump compressor for commercial use in north areas has been successfully developed and put into use in batches, which has occupied the market opportunities. Overseas market expansion has achieved new results. In particular, the European market contributed income of RMB 100 million, and the South Korean market also achieved significant increase in income contribution. Impacted by the state's rectification in electric bus market and the reduction of subsidy, the sales volume of the horizontal scroll compressor applicable for electric bus has shrunk in stages, and the net profit has dropped considerably as compared to the corresponding period of previous year.

During the reporting period, Panasonic Cold Chain, an associated company of the Company, conformed to the new trend of consumption and actively expanded the subdivision of the blue sea market. With respect to convenience store business, based on the Internet of things technology and by applying the energy management and store intelligent system to boost the intelligent upgrading of the cold chain equipment applicable for convenience store, the revenue increased by about 30% over the same period. With respect to commercial kitchen business, revenue from Hong Kong market increased by about 40% year on year. With respect to biomedical business, application of medical cryogenic refrigerators, blood refrigerators, thermostat incubators and other new products have achieved breakthroughs in hospitals, blood stations, scientific research and other fields, with revenue increased by over 50% over the corresponding period of previous year.

During the reporting period, Fuji Bingshan, an associated company of the Company, vigorously promoted product development oriented for intelligence, modular and diversification, and formed six major product series, including beverage machine, food machine, liquor machine, dairy machine, coffee machine and box lunch machine, so as to make rapid response to customers' demands. The world's leading intelligent manufacturing plant newly established for manufacturing automatic vending machines has been put into operation and realized double increase of production capacity, which enables the company to better capture business opportunities in new retail market.

During the reporting period, based on the overall positioning of the cold and heat industry investment platform, the Company further intensified capital operation. The acquisition of the first batch of high-quality assets from the controlling shareholder has been completed by the end of April 2017. The Company currently holds the entire equity interest of Bingshan International Trade, and 49% equity interest of Bingshan Metal Technology. The non-public issuance of exchangeable corporate bonds has been launched to seek low-cost bond financing and reduction of holding in high price stock.

During the reporting period, the Company actively promoted incubation of new undertakings while focusing on transformation and upgrading of the original causes. Through the investment platform company, the Company and Tokyo Century Corporation jointly invested in establishment of Dalian Bingshan Group Hua Huida Financial Leasing Co. Ltd to carry out cold and heat industry-chain-based financing. It is surprising that the company recorded profit for the first year in which it was established. Besides, the Company and a subsidiary of Zhejiang Southern Architecture Design Co., Ltd made joint investment in establishing Dalian Bingshan Wisdom Park Co., Ltd to take charge of the comprehensive utilization of the land parcel of the original plant after relocation and

manage to build an industry ecosystem within Bingshan Group. At the current stage, the investment attraction is going well with significant progress and the alteration is processed in an orderly manner. Besides, the Company and a subsidiary of K2DATA Technology (Beijing) Co., Ltd made joint investment in establishing Dalian Kelvins Technology Co., Ltd to actively promote innovation of big data application by Bingshan in its cold and heat industries, construction of the Internet of things and further development of intelligent manufacturing, so as to assist Bingshan to realize smart growth in its core business segments.

	2017	2016	Increase/decrease of gross profit on a year-on-year basis	Explain for major changes
Selling expenses	113,422,315.47	91,678,326.90	23.72%	
Administrative expenses	230,822,141.57	219,270,065.31	5.27%	
Financial expenses	10,855,836.96	2,378,038.61	356.50%	Short-term borrowings increased during the reporting period, and interest expenses increased accordingly

4. R&D expenditure

In the reporting period, the Company had the total R&D expenditure of 93.80 million yuan, accounting for 2.75% of the Company's net assets as of the end of 2017 or 4.51% of the Company's annual operating revenues of 2017. There was no remarkable year-on-year change in related data.

Information on R&D expenditure

	2017	2016	Increase/decrease on a year-on-year basis
The quantity of the person engaged in R&D	268	277	-3.25%
The quantity proportion of the person engaged in R&D	15.52%	14.77%	Increase 0.75 percentage points
The spending amount on R&D (yuan)	93,795,151.25	85,949,812.65	9.13%
R&D spending accounts for the proportion of revenue	4.51%	4.54%	Decrease 0.03 percentage points
The amount of R&D investment capitalization (yuan)	0.00	0.00	0%

5. Cash flows

Item	2017	2016	Year-on-year increase/decrease
Sub-total of cash inflows from operating activities	1,602,754,173.31	1,724,295,026.34	-7.05%
Sub-total of cash outflows from operating activities	1,809,980,024.53	1,730,902,096.31	4.57%
Net amount of cash flow generated in operating activities	-207,225,851.22	-6,607,069.97	-3,036.00%
Sub-total of cash inflows from investing activities	126,820,377.97	111,761,688.96	13.47%
Sub-total of cash outflows from investing activities	475,753,422.49	377,303,814.52	26.09%
Net amount of cash flow generated in investing activities	-348,933,044.52	-265,542,125.56	-31.40%
Sub-total of cash inflows from financing activities	495,706,515.56	977,192,378.02	-49.27%
Sub-total of cash outflows from financing activities	263,709,646.02	270,911,050.69	-2.66%
Net amount of cash flow generated in financing activities	231,996,869.54	706,281,327.33	-67.15%
Net increase in cash and cash equivalents	-326,545,416.67	435,856,981.51	-174.92%

Reason for change in the related data by 30% or higher on a year-on-year basis

√ Applicable □ Not applicable

1. Net cash flow arising from operation activities have a significant decrease on a y-o-y basis, mainly because the cash received from sale goods decreased, and cash paid for purchasing commodities increased during the reporting period.

2. Net cash flow arising from investing activities have a significant decrease on a y-o-y basis, mainly because the Company purchased 49% shares of Dalian Bingshan Metal Technology Co., Ltd. held by Dalian Bingshan Group Co., Ltd. during the reporting period.

3. Net cash flow arising from financing activities have a significant decrease on a y-o-y basis, mainly because the raised funds from non-public offering of shares last year.

Reason for remarkable difference between the cash flows from the Company's operating activities in the reporting period and the net annual profit

√ Applicable □ Not applicable

There was a remarkable difference between the net amount of cash flow generated in operating activities of the Company and the net annual profit in the reporting period, mainly due to that the proportion of returns on investment to the total profit of the Company was higher.

III. Analysis of the non-main business

(2) Derivative investment

□Applicable √ Not applicable

During the reporting period, the Company does not exist derivative investment.

5. The use of funds raised

√ Applicable □ Not applicable

Total commitment investment for raised-fund project in the Period amounting to 580 million Yuan, after adjustment, total investment turns to 561.2814 million Yuan. In reporting period, amount of 407.4699 million Yuan invested, and pre-phase investment 87.6 million Yuan was replaced with the raised-fund. The temporary idle raised-fund 80 million Yuan save as CD in the Period. The temporary idle raised-fund 76 million Yuan was used to purchase the bank financial product in the Period. Till end of the reporting period, raised-fund 156.1732 million Yuan are not used, and balance of the specific raised-fund account amounting to 156.1732 million Yuan.

Actual time for raised-fund in the private placement in place appeared later, in previous phase, the Company has limit in contribution of the raised-fund project with self-raised fund, and process layout and plan in the new plant are continues to improved during the implementation in follow up process, the time for new-type equipment input and debugging progress are later than expected. In consideration of the progress payment and guarantee money for the equipment, being decided by the Company after research in purpose of guarantee a smooth transition of the new-aged plants, and reducing the impact on routine operation of the Company from relocation, the serviceable condition state of the relocation deferred to end of May in 2017 from year-end of 2016. The Report of Deferring Serviceable Condition State of the Raised-Fund Project was deliberated and approved by the 13th session of 7th BOD on 21 April 2017. The production and operation of the Company's new plant is normal till the end of 2017.

By the end of 30 June 2016, the pre-invested money for raised-fund project with self-raised capital amounting to 87,597,055.10 Yuan, the Dahua CPA carried out assurance service on the above mentioned money and issued an Assurance Report of Dalian Refrigerator Co., Ltd. Pre-invested the Raised-fund Project with Self-raised Fund (Da Hua He Zi[2016] No. 0034330). And on 5 July 2016, the 6th session of 7th BOD and 5th session of 7th Supervisory Committee have deliberated and approved the "Report of Replace the Pre-Invested Fund with Raised-Fund", independent directors propose a clear agreement.

Till end of the reporting period, raised-fund 156.1732 million Yuan are not used, mainly for equipment guarantee funds, engineering guarantee funds and the remaining engineering funds, which shall be paid after completion acceptance and settlement audit.

IX. Development prospect of the Company

1. Industry development trend

In recent years, the influence of refrigeration and air conditioning industry in China's national economy is growing, conferring increasing influence upon consumption upgrade, food safety and livelihood improvement. Besides, development model under an entire set of service, modularization, information and intelligence is experiencing rapid growth, with constant entrance of new market players and constant emerging of new hot spots. The field of competition, competitors, products, connotation is constantly changing.

In 2018, industry development division will continue to increase, and competition will continue to intensify. The transformation and upgrading of major players in the industry will further accelerate. New technologies and solutions are being launched to cater for the emerging market demands on energy saving, environmental protection, distributed energy utilization, coal to electricity and data center. Intelligent manufacturing and service-oriented manufacturing are becoming increasingly prominent. With the gradual implementation of the concept of green development, the traditional market pays more attention to energy saving and emission reduction. The advantage of single technology is gradually replaced by the advantages of integrated technology and comprehensive solution.

2. Challenges and opportunities faced by the Company

(1) Opportunities faced by the Company

China government has accelerated the people-oriented new urbanization, accelerated the agricultural supply side structural reform and increased investment in food, sanitary, health, pension and other livelihood areas. In addition, all levels of governments have introduced policies to support the cold chain logistics, which will secure a relatively market growth of refrigeration industry, which in turn increases market demands of our major operations. The energy saving and safety renovation projects for the complete set of engineering and refrigeration stations bring new market demand, which provides a real business opportunity for the Company to vigorously expand the production-oriented services market. With the innovative business model, strong technology bases, backwardness advantages of the intelligent factory and system advantages, the Company is capable of capturing the above opportunities in a good position.

(2) Challenges faced by the Company

Due to the complicated process of transformation and upgrading, there may be significant risk factors that have not yet been identified. The speed of commercialization of new technology and new products needs to be accelerated. We should make full use of financial innovation products and promote the development of the physical industry with finance.

3. Development planning of the Company

The Company will focus on the refrigeration and heating industries under the operation policy of innovation and value creation, promote business integration with the parent company and subsidiaries as the core business, integrate internal and external resources, upgrade the industrial chain, innovate business model, strengthen technological innovation, improve and expand the business scale and development space, improve employees' benefits and realize sustained, healthy and harmonious development, thus to become an enterprise trusted and respected by customers, partners and the society.

4. Capital requirement and fund sourcing plan

In 2018, the capital expected to be required for the Company's production operation and capital operation will be financed by its own funds and appropriate financing.

5. Main risks the company faces and response measures

(1) Increasing market competition risk

Countermeasures: focus on refrigeration and heating industries, deeply plough market segmentation and seek for business blue sea; improve intelligent manufacturing and service-based manufacturing in an orderly manner; accelerate transformation and upgrading of the existing business; accelerate cultivation of new businesses; create the iceberg cause and common interest.

(2) Risk of slow marketing of new products and technologies

Countermeasures: create differentiated competitiveness of new products and technologies; strengthen technology marketing and service marketing, better satisfy individual needs of customers; make effective use of finance leasing, contract energy management, project companies and other innovative modes.

(3) Risk of high level of trade receivables

Countermeasures: effective inventory management and intensified management on trade receivables; enhance quality of contract through intensified customer credit assessment and contract appraisal; effective control of increase in trade receivables by reduction of guarantee deposits, taking bank credit instruments as guarantee deposits and finance leasing; improve contract execution through stricter review on goods delivery, intensified control on project construction and post-sale service; prepare special composition solutions through professional creditor's right management institutions and accelerate settlement of trade receivables with relatively long aging.

6. Business plan in 2018

Sales revenue: 2,300 million yuan, an approximate increase of 10% compared with the sales revenue of 2,079.72 million yuan in 2017.

Total profit: 245 million yuan, an approximate increase of 12% compared with the total profit of 218.47 million yuan in 2017.

In 2018, theme as the "committed to innovation · focus on transformation · share the same load", the Company will insist on new products and technologies development with the need of industry and market unswervingly. Create a new market with new ideas and sub-dividing the market; makes the energy (secondary energy in particular) exploitation and utilization to be a continuous force point in way of transformation and upgrading strategy; under the help of double platform, we work in full cooperation, and to keep improving, sincere cooperation and share the same load, achieved the overall target of operating income and profit for year of 2018.

Key works for 2018:

(1) Deepening of the traditional market. Deeply plough segment market with the industrial refrigeration such as machine engine, extend application of CO₂ high pressure compressor, and the NH₃ extremely low filling system solutions, enhance competitiveness in advantage domain and range of low temperature market; activate the development of commercial freezing market with packaged design, installation and construction for NH₃ and CO₂ refrigeration system, also with the intelligent control, operation study and excellent technical service; solid and promote the implementation of energy-field projects, such as energy-saving, environment protection and high efficiency, and obtain exemplary item project; seize the opportunity of Winter Olympic Games, and provide solutions for the trend industry as ice and snow sports.

(2) New energy industrialization. Based on energy saving products and technology, build a energy saving platform, and integrate resource of social products, markets and capital; provide comprehensive solutions for energy conservation and energy management services in field of chemical industry, natural gas, mine, oil, thermoelectricity and metallurgy etc.; to be an ESCO instead of manufacture of energy-saving products, earn in way of value creation for clients, and achieve a rapid growth in new business.

(3) Service specialization. Create a refrigeration & air conditioning service network under the name of Bingshan group, and exploit offline service network layout; integration resources and mutual share by gathering refrigeration technician of the Group under the Bingshan service network; attract high quality customers by machine room trusteeship and relevant services, expand value-added service and achieve a win-win with clients; further to improve the online service platform building for under line service, remote monitor & control and authoritative release.

Section 5 Important Issues

I Profit distribution and dividend payment

By giving consideration to both the return to shareholders and the Company's long-term development, and in combination of the Company's profit made in the this year, the Company formulated the 2016 annual dividend distribution plan of paying the cash of 1 yuan for every 10 shares, with capital reserve every 10 turn add 4 shares. Reviewed and adopted at the Company's general meeting, the Company's Board of Directors has implemented the plan in June 2017.

Formulation and implementation of the Company's cash dividend distribution policy in the reporting period complied with the Company's Articles of Association and the general meeting's resolution, and the dividend distribution standard and proportion were defined and clear and the applicable decision-making procedure and system were complete. The independent directors agreed on it and the legal rights and interests of minority shareholders were well protected.

Special notes to cash dividend payout policy	
If the regulations of the Articles of Association or the requirements of the shareholders of the company meeting are met:	Yes
If the dividend payout standard and proportion is definite and clear-cut:	Yes
If relevant decision-making procedure and mechanism is complete:	Yes
If the independent directors have performed their duties and played their due role:	Yes
If small and medium shareholders have the opportunity to sufficiently express their opinions and appeals and if their legal rights and interests are sufficiently protected:	Yes
If the condition and procedure for adjusting or changing the cash dividend payout policy is compliant and transparent:	Yes

Table of profit distribution plan, plan of share-granting with capital accumulation fund of the Company in recent three years

Dividend year	Profit distribution plan	Plan of share-granting with capital accumulation fund
2017	RMB 0.5 yuan (cash) for every 10 shares (including tax)	none
2016	RMB 1 yuan (cash) for every 10 shares (including tax)	with capital reserve every 10 transfer 4 shares.
2015	RMB 1 yuan (cash) for every 10 shares (including tax)	with capital reserve every 10 transfer 5 shares.

year	Cash dividend amount (tax included)	Dividends in the annual consolidated net income attributable to common shareholders of the Company	Accounted for in the consolidated net income attributable to common shareholders of the Company
2017	42,795,449.05	200,759,820.17	21.32%
2016	61,177,655.80	182,234,151.73	33.57%
2015	36,016,497.50	134,174,674.88	26.84%

The Company made profit in the reporting period and the undistributed profit of the parent company was positive but no cash dividend distribution plan was proposed.

☐ Applicable ☒ Not applicable

II Profit distribution preplan, and preplan of share-granting with capital accumulation fund of the Company

Bonus shares to be presented for every 10 shares (shares)	0
Dividend to be distributed for every 10 shares (RMB yuan) (including tax)	0.5
Transferred shares to be presented for every 10 shares (shares)	0
Equity base for distribution preplan (shares)	855,908,981

Total amount of cash dividend distribution (RMB yuan) (including tax)	42,795,449.05
Profit distributable to the shareholders in the current year	165,269,682.79
Proportion of cash dividend distribution accounting for total profit distribution	100%
Cash dividend distribution policy:	
When the development stage of the company belongs to a growth period with important fund disbursement arrangement(s), the proportion of cash dividend distribution accounting for this profit distribution should reach 20% at minimum when conducting profit distribution.	
Notes to details about preplan for profit distribution or capital stock increase with capital reserve	
According to the audit by ShineWing CPAs (Special General Partnership), the net profit made by the parent company of the Company in 2017 was RMB 183.633 million and 10% of the net profit (RMB 18.363 million) was drawn as the legal surplus reserve. Therefore, the profit distributable to the shareholders in the current year was RMB 165.27 million. Plus the initial undistributed profit of RMB 498.963 million and minus the dividend of RMB 61.178 million of common shares paid in 2016 and the drawn free surplus reserve of RMB 29.208 million (20%), the accumulated profit distributable to the shareholders was RMB 573.847 million.	
The Company's profit distribution preplan for 2017:	
Based on the net profit made by the parent company of the Company in 2017 (183.633 million), 20% of the net profit (RMB 36.727 million) will be drawn as the free surplus reserve;	
Based on the total capital stock of 855,908,981 shares, the dividend of RMB 0.5 in cash (including tax) will be distributed for every 10 shares, the total cash dividend is RMB 42.795 million, and the cash dividend for B share is converted and paid in Hong Kong dollars.	

III Implementation of commitments

1. Commitments of the Company or its shareholders holding 5% or higher of the shares in the reporting period or carried to the reporting period

The implementation for management equity incentive plan is being performed currently.

The new stock increased from private placement under the name of Daleng were listed on 20 June 2016, the follow seven investors including Zhejiang Caitong Capital Investment Co., Ltd., Xingzheng Security Asset Management Co., Ltd., Penghua Fund Management Co., Ltd., First State Cinda Fund Co., Ltd., Shenzhen B&D Capital Co., Ltd., Bosera Funds Management Co., Ltd. and Caitong Fund Management Co., Ltd. committed that: the stock of Daleng subscribes in private placement process will lock-up for trading with 12 months since the first trading date of the new shares increased in the placement.

IV. Non-operation capital occupation by holding shareholders and their related parties in the listed company

The company had no capital occupation by the holding shareholders and their related parties in the listed company within this reporting period.

V. Explain to the “non standard audit report” from the board of directors, board of supervisors of the Company

☐Applicable ☒Not applicable

VI. Change in accounting policies, accounting estimates and accounting methods compared with the financial statements of the previous year

☒Applicable ☐Not applicable

In 2017, the Ministry of Finance announced or amended and implemented “Accounting Standards for Business Enterprises No.42-Held for Sale non-current assets, disposal group and discontinued operation”. Since May 28th, 2017, any held for sale non-current assets, disposal group and discontinued operation existing on the implementation date shall be applied to prospective application. When preparing the financial statements for 2017FY, the policy has been adopted and the accounting has been done in accordance with this standard.

Updated standard shall be applied since June 12th, 2017. Any government existing on January 1st, 2017 shall be

applied to prospective application. Any new government grant obtained between January 1st, 2017 and implementation date shall be adjusted in line with this standard too. When preparing the financial statements for 2017FY, the policy has been adopted and the accounting has been done in accordance with this standard.

In 2017, the Ministry of Finance announced or amended and implemented “Financial Statements Format”(Caikuai[2017]No.30)

Section 9 Corporate Governance

I. Basic situation of corporate governance

Within the reporting period, the company centered around the operation subject as “Leading innovation, Creating value” with the theme “activation, integration and upgrading”, relying on the opportunity of overall relocation and transformation of the Company, to further deepen and perfect the normative internal control system and upgrade the governing level of the company continuously.

There were no problems with the Company concerning horizontal competition caused by restructures and other reasons. The main normal associated transactions between the Company and the associated companies included purchasing the supporting products for package projects from the associated companies, and selling the supporting parts and components to the associated companies and providing them with the labor service. Associated transactions between the Company and the associated companies are necessary for normal production and operation and helpful for the Company’s healthy development, and therefore will continue. The Company will strictly follow the related decision-making procedures and fulfill the obligation in information disclosure in order to further regulate associated transactions.

Was there any deviation of the Company's corporate governance from the requirements in the Company Law and China Securities Regulatory Commission's regulations?

☐ Yes ☒ No

There was no deviation of the Company's corporate governance from the requirements in the Company Law and China Securities Regulatory Commission's regulations.

II. Status of the Company's business, staff, asset, organization and finance separations from the holding shareholder

The Company was separated from the holding shareholder in business, staff, asset, organization and finance, and has the independent and complete business and operation capability.

III. Horizontal competitions

V. Independent directors’ execution of duties in the reporting period

1. Attendance of independent directors to the meetings of the Board of Directors and general meetings

Attendance of independent directors to the meetings of the Board of Directors						
Name of independent director	Number of due board meetings in the reporting period	Number of attendances on the spot	Number of attendance by communication	Number of attendance by proxy	Number of absences	Failure to attend in person for successive two times or not
Dai Dashuang	7	1	6	0	0	No
Liu Jiwei	7	1	6	0	0	No
Wang Yan	7	1	6	0	0	No
Number of attendances as a non-voting delegate		4				

2. Objections to the related matters of the Company raised by independent directors

The independent directors have raised no objections to the related matters of the Company in the reporting period.

3. Other description of independent directors' execution of duties

For details of the Company's independent directors' execution of duties, see the 2017 annual work report of the independent directors of the Company.

VI.. Execution of duties of the special committees under the Board of Directors in the reporting period**1. Execution of duties of the audit committee under the Board of Directors**

With performance of its duty according to the Implementation Rules for the Audit Commission under the Board of Directors and the Annual Reporting Work Rules for the Audit Commission, the Audit Commission under the Board of Directors supervised the Company's internal audit system and its implementation, audited the Company's accounting information and its disclosure and assessed the work of the external audit institution.

In the work of evaluation of a normative internal control system of the company, the Auditing Commission brought into play actively the duty of organization, leadership and supervision. According to the company internal control defect recognition standard, it examined and recognized the internal control defect recognition summary table developed by the internal control evaluation work group of the company, and had an examination reading of the internal control evaluation report of the company for 2017, believing that the status quo of the internal control system of the company complies with related requirements and with the actual situation of the company and it is being carried out satisfactorily. The internal control evaluation report of the company for 2017 reflects the above facts accurately.

In the Company's 2017 annual audit work, the Audit Commission conducted positive communication and effective coordination with the audit institution ShineWing CPAs. The Audit Commission conducted communication with the person in charge of the project of the audit institution on the audit work plan, schedule, matters that should be noticed in audit and other matters and reached an agreement with them. In the process of audit, they kept close information on the progress of audit work and urged the audit institution many times to ensure the quality and schedule in the audit work. Through serious review of the Company's annual finance report and annual report after completion of the audit work, the Audit Commission believed that the Company's finance report was comprehensive and authentic, and the finance report and other information disclosed by the Company were objective and true, having reflected the true annual financial status of the Company.

The Audit Commission believed that in the 2017 annual audit service for the Company, ShineWing CPAs implemented the audit for the Company on the practicing basis of independency, objectivity and fairness and strictly abided by the new accounting standards. They worked out a well-considered plan, allocated all necessary personnel, positively contacted our Audit Commission and independent directors, and completed the 2017 annual audit service for the Company through its industrious and conscientious working. It is suggested that ShineWing CPAs should be reengaged as the auditing agency for the Company in 2018.

2. Execution of duties of the remuneration and evaluation committee under the Board of Directors

With performance of its duty according to the Implementation Rules for the Remuneration and Evaluation Commission under the Board of Directors, the Remuneration and Evaluation Commission under the Board of Directors examined the annual salary and remuneration level of the Company's directors, supervisors and senior executives, and believed that the decision-making procedure for salary and remuneration of the above persons and the paying standard complied with the laws and regulations and the Company's regulations, and the salary and remuneration information disclosed in the Company's Annual Report for 2017 was authentic and exact.

VII. Work of the Board of Supervisors

Was there any risk with the Company found by the Board of Supervisors in their supervision activities in the reporting period?

☐ Applicable ☒ Not applicable

The Board of Supervisors had no objections to the matters under supervision in the reporting period.

VIII. Performance evaluation and incentive system for senior management

Combined with the 2015 restricted stock incentive plan and 2016 restricted stock incentive plan, the Company evaluated and rewarded senior management through the Company's examination procedure for assets operation performance in the reporting period.

IX. The internal control system

1. Details of material weakness in the internal control found in the reporting period described in the report on self-evaluation of internal control.

☐ Applicable ☒ Not applicable

There was no material weakness in the internal control found in the reporting period.

2. Report on self-evaluation of internal control

Details of material weakness in the internal control found in the reporting period described in the report on self-evaluation of internal control	
There was no material weakness in the internal control found in the reporting period.

Section 11 Financial Report

I. Auditor's Report

XYZH/2018DLA10187

To the shareholders of Dalian Refrigeration Company Limited

1. Opinion

We have audited the financial statements of Dalian Refrigeration Company Limited ("Dalian Refrigeration Company"), which comprise the Company's balance sheet as at 31 December 2017, the Company's income statement, the Company's cash flow statement and the Company's statement of changes in shareholders' equity for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements of Dalian Refrigeration Company present fairly, in all material respects, the Company's financial position as at 31 December 2017, the Company's results of operations and cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

2. Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing for Chinese Certified Public Accountants. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of Dalian Refrigeration Company in accordance with the Code of Ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities of the code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit.

3. Key Audit Matters

Key audit matters are those matters that we consider, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our audit opinion thereon, and we do not express a separate opinion on these matters.

Revenue recognition	
Key Audit Matter	How the matter was addressed in the audit
Revenue of Dalian Refrigeration Company and its subsidiaries mainly come from sales of products and installation. The key concern about the sales revenue is due to the large sales quantities and any potential misstatements existing in the revenue recognition within the appropriate accounting period. Key concern about installation income is because the accounting involved by significant accounting estimate and judgment. Having considered these matters, we recognized revenue recognition as key audit matters.	The main audit procedures carried out for addressing the key audit matters are as follows: Understand and evaluate effectiveness of design and operation of the management's internal control over revenue Carried out analytical review and evaluate the reasonableness of sales income and gross profit margin by segmenting the business and sales in conjunction with industry development and actual situation of Dalian Refrigeration Company. Sampling test the sales contracts, identify the clause and terms in respect to the risk and reward transfer of the ownership. Evaluate the recognition timing of revenue whether is in line with the accounting standards. Sampling select product sales revenue record, reconcile to sales invoice, contracts, dispatch note, acceptance note; Sampling select installation sales revenue record, reconcile to invoice, installation contracts and completion report and Evaluate the recognition of revenue whether is in line with the accounting standards

	Obtain the system data and reconcile to the data from accounting system so to ensure the consistence. Sampling select the transactions before and after the balance sheet date, test the dispatch note and other supporting documents so to ensure whether the transaction is recorded into the appropriate accounting period.
4. Other Information The management of Dalian Refrigeration Company (hereinafter referred to as the “Management”) is responsible for the other information. The other information comprises the information included in the Dalian Refrigeration Company 2017 annual report, but does not include the financial statements and our auditor’s report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard. 5. Responsibilities of the Management and Those Charged with Governance for the Financial Statements The Management is responsible for the preparation of the financial statements in accordance with Accounting Standards for Business Enterprises to achieve fair presentation; and designing, implementing and maintaining internal control which is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the Management is responsible for assessing Dalian Refrigeration Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate Dalian Refrigeration Company or to cease operations, or have no realistic alternative but to do so. Those charged with governance are responsible to overseeing Dalian Refrigeration Company’s financial reporting process. 6. Auditor’s Responsibilities for the Audit of the Financial Statements Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are generally considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. During the course of audit in accordance with auditing standards, we exercise professional judgment and maintain professional skepticism. We also carry out the following works: Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of its internal control (this sentence would be deleted in circumstance when we are also responsible to issue an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements).	

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Dalian Refrigeration Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements in accordance with the auditing standards or, if such disclosures are inadequate, we shall modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Dalian Refrigeration Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and also whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient and appropriate audit evidence of financial information from Dalian Refrigeration Company and express our opinion. We are responsible for directing, monitoring and implementing the group audit and take full responsibility for audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings etc., including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with those relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and related safeguards, where applicable.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation prohibited public disclosure about the matter or when, in rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

III. Notes to the accounting statement

(All amounts in RMB Yuan unless otherwise stated)

I. General Information

Dalian Refrigeration Company Limited (the “Company”) was reorganized and reformed from main part of former Dalian Refrigeration Factory. On December 8, 1993, the company went to the public as a listed company at Shenzhen Stock Exchange Market. On March 20, 1998, the company successfully went to the public at B share market and listed at Shenzhen Stock Exchange Market with total share capital of RMB350,014,975Yuan.

According to the 13th meeting of the 6th generation of board, extraordinary general meeting for 2015 fiscal year and 'Restricted share incentive plan (draft)', the Company planned to introduce A ordinary shares to incentive objectives, which was 10,150,000 number of shares would be granted to 41 share incentive objectives at granted price of RMB5.56Yuan per share. Up to March 12th, 2015, the Company received new added share capital of RMB10,150,000Yuan and the share capital had been verified by DaHua Certified Public Accountants, and had been issued the capital verification report Dahuayanzi [2015]000086 on March 12th, 2015.

The general meeting for 2015 fiscal year held on 21st April 2016 approved the profit distribution policy for the year of 2015, which agrees the profit distribution based on the total 360,164,975 number of shares as share capital, paid share dividend of 5 common shares for every 10 shares through capital reserve. The policy stated above was fully implemented on 5th May 2016, and the registered capital was altered to 540,247,462.00Yuan.

The 17th meeting of the 6th generation of board was held on 4th June 2015 and the 2nd interim shareholders' meeting was held on 24th June 2015, meeting deliberated and passed the proposal of non-public offering of 'A shares'. China's Securities Regulatory Commission issued SFC license [2015]3137 on 30th December, 2015, approving that new non-public offering cannot exceeded 38,821,954 number of shares. The company implemented the post meeting procedures for China's Securities Regulatory Commission, which is regarding adjustment of bottom price and the number of the shares issued after the implementation of profit distribution policy of 2015 in May, 2016, and accordingly revised the upper limit of non-public offering of share to 58,645,096 number of new 'A shares'. The company issued the non-public offering of 58,645,096 number of 'A shares' to 7 investors, and as a result, the total number of shares of the company is changed to 598,892,558 shares, and the par value is 1yuan per share and the total share capital is 598,892,558.00Yuan. The share capital stated above has been verified by DaHua Certified Public Accountants, and has been issued the capital verification report Dahuayanzi [2016]000457 on 31st May 2016.

According to the 'Restricted Share Incentive Plan(draft) of Dalian Refrigeration Company Limited for the year of 2016' and the 'Proposal regarding the shareholders' meeting authorized the board of directors to implement the Restricted Share Incentive Plan' approved on the 3rd provisional general meeting held on 13th September 2016, the 9th meeting of the 7th generation of board deliberated and passed the 'Proposal about granting the restricted shares to incentive

targets' on September 20th, 2016 and set 20th September 2016 as share granted date, and granted 12,884,000 number of restricted shares to 188 incentive targets at granted price of 5.62Yuan per share. By 22nd November, 2016, the company has actually received the newly subscribed registered share capital of 12,884,000Yuan subscribed by incentive targets. The share capital stated above has been verified by DaHua Certified Public Accountants, and has been issued the capital verification report Dahuayanzi [2016]001138 on 23rd November, 2016.

On May 20th, 2017, the general meeting for 2016 fiscal year was held and profit appropriation scheme for 2016 FY was approved, which was every 10 shares will be increased by 4 shares through capital reserve based on the total 611,776,558 number of shares. After the profit appropriation scheme, the registered capital was changed to RMB856,478,181.00Yuan.

The old address of the Company's registered office as same as head office is No.888 Xinan Road, Shahekou District, Dalian, China. In 2017, the Company relocated to new factory and changed its address to No.16 East of Liao River RD, DDA, Dalian China as same as HQ's address. The parent company of the Company is Dalian Bingshan Group Co., Ltd., and there is no ultimate controller regulated by the relevant law, regulations and rules.

The company falls into industrial manufacturing sector, mainly engaged in industrial refrigeration, refrigerated and frozen food storage, and manufacture and installation of central air-conditioning and refrigeration equipment. The scope of business includes refrigeration equipment, valve, fixings refrigeration equipment, supported products processing and system design of air-conditioning. The company also offers technical consultation, technical services, commercial trade and material supply and marketing.

II. The scope of consolidation

There are 15 entities included in the current consolidated financial statements, including:

Names of subsidiaries	Types	Level	Proportion of shareholding (%)	Proportion of votes (%)
Dalian Bingshan Group Engineering Co., Ltd.	Subsidiary	2	100	100
Dalian Bingshan Group Sales Co., Ltd.	Subsidiary	2	100	100
Dalian Bingshan Air-conditioning Equipment Co., Ltd.	Subsidiary	2	70	70
Dalian Bingshan JiaDe Automation Co., Ltd.	Subsidiary	2	100	100
Dalian Bingshan Lingshe Quick Freezing Equipment Co., Ltd.	Subsidiary	2	100	100
Wuhan New World Refrigeration Industrial Co., Ltd.	Subsidiary	2	100	100

Names of subsidiaries	Types	Level	Proportion of shareholding (%)	Proportion of votes (%)
Bingshan Technical Service (Dalian) Co.,Ltd.	Subsidiary	2	100	100
Dalian Niweisi LengNuan Techonology Co., Ltd.	Subsidiary	2	55	55
Dalian Xinminghua Electrical Technology Co., Ltd	Subsidiary	2	100	100
Dalian Bingshan International Trading Co.,Ltd	Subsidiary	2	100	100
Wuhan New World Air-conditioning Refrigeration Engineering Co., Ltd	Sub-subsidiary	3	100	100
Dalian Bingshan Security Leisure Industrial Engineering Co., Ltd	Sub-subsidiary	3	100	100
Ningbo Bingshan Air-conditioning Refrigeration Engineering Co., Ltd	Sub-subsidiary	3	51	51
Shanghai Bingshan Technical Service Co., Ltd	Sub-subsidiary	3	51	51
Chengdu Bingshan Refrigeration Engineering Co., Ltd.	Sub-subsidiary	3	51	51

This year, entities within the consolidation scope are changed comparing to last year. Because two more entities are added into the group, Chengdu Bingshan Refrigeration Engineering Co., Ltd was newly invested and Dalian Bingshan International Trading Co.,Ltd was newly acquired.

For the specific information of entity change in the consolidation scope, see the notes of VII. The Change of Scope of Consolidation and VIII. The Equity in Other Entities.

III. Financial Statements Preparation Basis

(1) Preparing basis

The Company's financial statements are prepared on the basis of going concern assumption, according to the actual occurred transactions and events and in accordance with 'Accounting Standards for Business Enterprises' and relevant regulations, and also based on the note IV "Significant Accounting Policies, Accounting Estimates".

(2) Going concern

The company has the capacity to continually operate within 12 months at least since the end of report period, and hasn't the major issues impacting on the sustainable operation ability.

IV. Significant Accounting Policies and Accounting Estimates

1. Declaration for compliance with accounting standards for business enterprises

The financial statements are prepared by the Group according to the requirements of Accounting Standard for Business Enterprise, and reflect the relative information for the financial position, operating performance, cash flow of the Group truly and fully.

2. Accounting period

The Group adopts the Gregorian calendar year as accounting period from Jan 1 to Dec 31.

3. Operating cycle

Normal operating cycle refers to the duration starting from purchasing the assets for manufacturing up to cash or cash equivalent realization. The group sets twelve months for one operating cycle and as the liquidity criterion for assets and liability.

4. Functional currency

The Group adopts RMB as functional currency.

5. Accounting for business combination under same control and not under same control

As an acquirer, the assets and liabilities that The Group obtained in a business combination under the same control should be measured on the basis of their carrying amount in the consolidated financial statements on the combining date. As for the balance between the carrying amount of the net assets obtained by the combining party and the carrying amount of the consideration paid by it, the capital surplus shall be adjusted. If the capital surplus is not sufficient to be offset, the retained earnings shall be adjusted.

For a business combination not under same control, the asset, liability and contingent liability obtained from the acquirer shall be measured at the fair value on the acquisition date. The combination cost shall be the fair value, on the acquisition date, of the assets paid, the liabilities incurred or assumed and equity securities issued by the acquirer in exchange for the control of the acquire, and sum of all direct expenses(if the combination is achieved in stages, the combination cost shall be the sum of individual transaction). The difference when combination cost exceeds proportionate share of the fair value of identifiable net assets of acquire should be recognized as goodwill. If the combination cost is less than proportionate share of the fair value of identifiable net assets of acquiree, firstly, fair value of identifiable asset, liability or contingent liability shall be reviewed, and so the fair value of non-monetary assets or equity instruments issued in the combination consideration , after review, still the combination cost is less than proportionate share of the fair value of identifiable net assets of acquire, the difference should be recognized as non-operating income.

6. Method of preparation of consolidated financial statements

All subsidiaries controlled by the Group and structured entities are within the consolidation scope.

If subsidiaries adopt different accounting policy or have different accounting period from the parent company, appropriated adjustments shall be made in accordance with the Group policy in preparation of the consolidated financial statements.

All significant intergroup transactions, outstanding balances and unrealized profit shall be eliminated in full when preparing the consolidated financial statements. Portion of the subsidiary's equity not belonging to the parent, profit, loss for the current period, portion of other comprehensive income and total comprehensive belonging to minority interest, shall be presented separately in the consolidated financial statements under "minority interest of equity", "minority interest of profit and loss", "other comprehensive income attributed to minority interest" and "total comprehensive income attributed to minority interest" title.

If a subsidiary is acquired under common control, its operation results and cash flow shall be consolidated since the beginning of the consolidation period. When preparing the comparative consolidated financial statements, adjustments shall be made to relevant items of comparative figures as regarded that reporting entity established through consolidation has been always there since the point when the ultimate controlling party starts to have the control.

If a business consolidation under common control is finally achieved in stages, consolidation accounting method shall be disclosed additionally for the period in which the control is obtained. For example, if a business consolidation under common control is finally achieved in stages, when preparing the consolidated financial statements, adjustments shall be made for the current consolidation status as if consolidation has always been there since the point when the ultimate controlling party starts to control. In preparation of comparative figures, asset and liability of the acquiree shall be consolidated into the Group's comparative financial statements, but to the extent no earlier than the point when the Group and acquiree are both under ultimate control and relevant items under equity in comparative financial statements shall be adjusted for net asset increased in combination. To avoid the duplicated computation of net asset of acquiree, for long-term equity investment held by the Group before the consolidation, relevant profit and loss, other comprehensive income and movement in other net asset, recognized for the period between the combination date and later date when original shareholding is obtained and when the Group and the acquiree are under common control of same ultimate controlling party, shall be respectively used for writing down the opening balance of retained earnings of comparative financial statements and profit and loss for the current period.

If a subsidiary is acquired not under common control, its operation results and cash flow shall be consolidated since the beginning of the consolidation period. In preparation of the consolidated financial statements, adjustments shall be made to subsidiary's financial statements based on the fair value of its all identifiable assets, liability or contingent liability on the acquisition date.

If a business consolidation under non-common control is finally achieved in stages, consolidation accounting method shall be disclosed additionally for the period in which the control is obtained. For example, if a business consolidation not under common control is finally achieved in stages, when preparing the consolidated financial statements, the acquirer shall remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss as investment income for the current period. Other comprehensive income, under equity method accounting rising from the interest held in acquiree in relation to the period before the acquisition, and changes in the value of its other equity other than net profit or loss, other

comprehensive income and profit appropriation shall be transferred to investment gain or loss for the period in which the acquisition incurs, excluding the other comprehensive income from the movement on the remeasurement of net asset or liability of defined benefit plan.

When the Group partially disposes of the long-term equity investment in subsidiary without losing the control over it, in the consolidated financial statements, the difference, between disposals price and respective disposed value of share of net assets in the subsidiary since the acquisition date or combination date, shall be adjusted for capital surplus or share premium, no enough capital surplus, then adjusted for retained earnings.

When the Group partially disposes of the long-term equity investment in subsidiary and lose the control over it, in preparation of consolidated financial statements, remaining share of interest in the subsidiary shall be remeasured on the date of losing control. Sum of the share disposal consideration and fair value of remaining portion of shareholding minus the share of the net assets in the subsidiary held based on the previous shareholding percentage since the acquisition date or combination date, the balance of above is recognized as investment gain/loss for the period and goodwill shall be written off accordingly. Other comprehensive income relevant to share investment in subsidiary shall be transferred to investment gain /loss for the period on the date of losing control.

When the Group partially disposes of the long-term equity investment in subsidiary and lose the control over it by stages, if all disposing transactions are bundled, each individual transaction shall be seen as a transaction of disposal of a subsidiary by losing control. The difference between the disposal price and the share of the net assets in the subsidiary held before the date of losing control, shall be recognize as other comprehensive income until the date of losing control where it is transferred into investment gain/ loss for the current period.

7. Joint arrangement classification and joint operation accounting

The Group's joint arrangement includes joint operation and joint venture. For joint operation, the Group as a joint operator shall recognize its own assets and its share of any assets held jointly, its liabilities and its share of any liabilities incurred jointly, its revenue from the sale of its share of the output arising from the joint operation, its share of the revenue from the sale of the output by the joint operation; and its expenses, including its share of any expenses incurred jointly. When an entity enters into a transaction with a joint operation in which it is a joint operator, such as a sale or contribution of assets, it is conducting the transaction with the other parties to the joint operation and, as such, the joint operator shall recognize gains and losses resulting from such a transaction only to the extent of the other parties' interests in the joint operation.

8. Cash and cash equivalent

The cash listed on the cash flow statements of the Group refers to cash on hand and bank deposit. The cash equivalents refer to short-term (normally with original maturities of three months or less) and liquid investments which are readily convertible to known amounts of cash and subject to an insignificant risk of changes in value.

9. Translation of foreign currency

(1) Foreign currency transaction

Foreign currency transactions are translated at the spot exchange rate issued by People's Bank of China ("PBOC") on the 1st day of the month when the transactions incurred. Monetary assets and liabilities in foreign currencies are translated into RMB at the exchange rate prevailing at the balance sheet day. Exchange differences arising from the settlement of monetary items are charged as in profit or loss for the period. Exchange differences of specific borrowings related to the acquisition or construction of a fixed asset should be capitalized as occurred, before the relevant fixed asset being acquired or constructed is ready for its intended uses.

(2) Translation of foreign currency financial statements

The asset and liability items in the foreign currency balance sheet should be translated at a spot exchange rate at the balance sheet date. Among the owner's equity items except "undistributed profit", others should be translated at the spot exchange rate when they are incurred. The income and expense should be translated at spot exchange rate when the transaction incurs. Translation difference of foreign currency financial statements should be presented separately under the other comprehensive income title. Foreign currency cash flows are translated at the spot exchange rate on the day when the cash flows incur. The amounts resulted from change of exchange rate are presented separately in the cash flow statement.

10. Financial assets and financial liabilities

A financial asset or liability shall be recognized when the entity becomes a party to the contractual provisions of a financial instrument.

(1) Financial assets

1) Classification, recognition and measurement

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, held-to-maturity financial assets and available-for-sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Financial assets at fair value through profit and loss include trading financial assets and those financial assets initially designated as fair value through profit and loss. When meeting one of the following conditions, the company shall classify the assets into trading financial asset: it is acquired principally for the purpose of selling in the near term and is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; it is a derivative(except for a derivative that is a designated and effective hedging instrument or a financial guarantee contract, or linked to the investments in equity instruments that do not have a quoted price in an active market, no fair value can be reliably measured and must be settled by delivery of such an equity instrument. When meeting one of the following conditions, the financial assets can be classified as the assets initially designated as fair value through profit and loss: it eliminates or significantly reduces a

measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases; or the financial instrument portfolio is managed and its performance is evaluated and provided internally on that basis to the entity's key management personnel on a fair value basis, in accordance with a documented risk management or investment strategy; or it is a hybrid instrument embedded by one or more instruments except for an embedded derivative that does not significantly modify the cash flows or it is clear that separation of the embedded derivative(s) is prohibited; it is a hybrid instrument that is required to be separated but unable to be measured separately either at acquisition or at the end of a subsequent financial reporting period. They are measured at fair value subsequently. Change on fair value shall be recognized in the profit and loss. Interest or cash dividends received during the period in which such financial assets are held, are recognized as 'Investment income'. On disposal, the difference between fair value of disposal and initial recorded amount are recognized as 'Gain or loss on Investment' and adjust the gain or loss from changes in fair value accordingly.

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are subsequently measured at amortized cost using the effective interest method. The amortization, impairment and any gain or loss from derecognition shall be recognized in the profit and loss for the current year.

Available-for-sale financial assets are non-derivative financial assets that are either designated in this category or not classified as financial assets of any other class at initial recognition. This category includes the derivative financial assets that linked to the investments in equity instruments without a quoted price in an active market, no fair value can be reliably measured and must be settled by delivery of such an equity instrument, and shall be measured at cost subsequently. Others have a quoted price in an active market or fair value can be measured reliably although no quoted price available, they shall be measured at fair value. Any change on fair value shall be recognized in other comprehensive income and subsequently be measured at fair value. Except impairment loss and exchange gain or loss arising from foreign currency monetary financial assets, changes in fair value of available-for-sale financial assets are directly recorded in shareholders' equity until such financial assets is derecognized and the accumulated fair value adjustments previously recorded in equity are charged to profit or loss for the period. Interests for the period in which the assets are held as investment in debt instrument is calculated using the effective interest method and is charged to profit or loss for the period as 'Investment income'. Cash dividends declared by the investee company relating to available-for-sale equity instruments are charged to profit or loss for the period as 'Investment income'. Equity instruments that a quoted price is not applicable in an active market and no fair value can be reliably measured, shall be measured at cost.

2) Recognition and measurement of transfer of financial assets

A financial asset is derecognised when any one of the following conditions is satisfied: i) the rights to receive cash flows from the asset expire, ii) the financial asset has been transferred and the entity transfers substantially all risks and rewards relating to the financial assets to the transferee,

iii) the financial asset has been transferred to the transferee, the entity has given up its control of the financial asset although the entity neither transfers nor retains all risks and rewards of the financial asset.

Where an entity neither transfers nor retains substantially all risks and rewards of financial asset and does not give up the control over such financial asset, then the entity recognizes such financial asset to the extent of its continuous involvement and recognizes the corresponding liabilities.

In the case where the financial asset as a whole qualifies for the derecognition conditions, the difference between the carrying value of transferred financial asset and the sum of the consideration received for transfer and the accumulated amount of changes in fair value that was previously recorded under other comprehensive income is charged into profit or loss for the period.

In the case where only part of the financial asset qualifies for derecognition, the carrying amount of financial asset being transferred is allocated between the portions that to be derecognized and the portion that continued to be recognized according to their relative fair value. The difference between the amount of consideration received for the transfer and the accumulated amount of changes in fair value that was previously recorded in other comprehensive income of the part qualifies for derecognition and the above-mentioned allocated carrying amount is charged to profit or loss for the period.

3) Impairment of financial assets

The Group assesses the carrying amount of financial assets other than financial assets at fair value through profit or loss at each balance sheet date. If there is objective evidence that the financial asset is impaired, the Group shall determine the amount of any impairment loss accounts.

The specific impairment provision methods of financial assets were as follows:

1) Provision for impairment of available-for-sale financial assets:

On balance sheet date, the Company executes individually inspection on each available-for-sale financial statement, if the fair value of the equity instruments which is invested on the balance sheet date is lower than its initial investment cost for more than 50% (including 50%) or lower than its initial investment cost for the duration time for more than 1 year (including 1 year), which indicates that it had occurred impairment; if the fair value of the equity instruments which invests on the balance sheet date is lower than its initial investment cost for more than 20% (including 20%) but not reaches at 50%, the Company will comprehensively considerate the other relevant factors such as the price volatility etc. and will judge the equity investment whether had occurred impairment.

The aforesaid "cost" recognized in line with the initial investment cost of available for sale financial instrument deducting principal recovered, amount amortized and the impairment losses recorded into profits or losses. "fair value" recognized through the closing price of Securities Exchange at period end unless the investment of available for sale equity instrument was in the

restricted stock trade period. For investment of available for sale equity instrument was in the restricted stock trade period, recognized in line with the closing price of Securities Exchange at period end deducting the risk of market player cannot sell the equity instrument, thus, require compensation.

If objective evidence shows that impairment for available-for-sale financial assets will occur, the cumulative loss arising from the decline in fair value that had been recognized directly in equity is removed from equity and recognized as impairment loss, although the financial assets are not derecognized. The accumulative losses that are transferred out shall be the balance obtained from the initially obtained costs of the financial asset after deducting the principals taken back and amortized amount, the current fair value and the impairment losses originally recorded into the profits and losses account.

For an available for sale debt instrument, if there is objective evidence that the value of the financial asset recovered and the recovery can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed and the amount of reversal is recognized in income statement. For an available for sale equity instrument, if there is objective evidence that the value recovered and the recovery can be objectively related to an event occurring after the impairment loss recognized, the previously recognized impairment loss is reversed and directly recognized in equity. However, the impairment losses incurred to an equity instrument investment for which there is no quoted price in the active market and whose fair value cannot be reliably measured, or incurred to a derivative financial asset which is linked to the equity instrument and which shall be settled through the equity instrument, can not be reversed.

2) Provision for impairment of held-to-maturity financial assets

If there is objective evidence that the value of a financial asset carried at amortized cost has impaired, the amount of loss is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows. If there is objective evidence that the value of the financial asset recovered and the recovery can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed and the amount of reversal is recognized in income statement, but to the extent where the reversed amount can not exceed the amortized cost on the reversing day if no impairment provided before.

(2) Financial liabilities

1) Classification, basis for recognition and measurement

Financial liabilities of an entity are classified at initial recognition as “financial liabilities at fair value through profit or loss” and “other financial liabilities” on initial recognition

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and those designated as fair value through profit or loss on initial recognition (relevant basis for classification shall be disclosed by reference to financial assets) . They are subsequently measured at fair value. The net gain or loss arising from changes in fair

value, dividends and interest paid related to such financial liabilities are recorded in profit or loss for the period in which they are incurred.

Other financial liability is measured at amortized cost by adopting the effective rate method.

2) Financial liability derecognition

A financial liability is derecognized when the underlying present obligations or part of it are discharged. Existing financial liability shall be derecognized and new financial liability shall be recognized when the entity sign the agreement with creditor to undertake the new financial liability in replacement of existing financial liability, and the terms of agreement are different in substance. Any significant amendment to the agreement as a whole or part of it is made, then the existing liabilities or part of it shall be derecognized and financial liability after terms amendment shall be recognized as a new financial liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in profit or loss for the period.

3) Fair value measurement of financial asset and financial liability

If there is an active market for the financial assets and liability measured at fair value, the fair value is measured at the quoted price in the active market; originally obtained or derived financial assets or liability is measured at market trade price. If no active market exists for the financial asset or liability, applicable valuation techniques is used for fair value measurement. When valuating, the price in the most advantageous market shall be used for fair value measurement and applicable valuation techniques which enough data is available for and supported by other information shall be adopted, and the group chooses the input with same characters of asset or liability as considered by market participant and try to give priority in use of observable input. Unobservable input shall be used when observable input can not be obtained or it is infeasible to be obtained.

11. Provision for bad debts of receivables

The Group shall review the carrying amount of receivables fully at the balance sheet date. The Group shall calculate the full provision for bad debts for the following receivables: debtor has been log-out, bankruptcy, minus net asset, significant poor cash flow and significant nature disaster leads to discontinue production and the debtors could not pay for the debts within the foreseeable time. Other solid evidences indicates that the receivables could not be paid or be of a slim chance.

The allowance method is applied to the potential loss of bad debt. The Group should make the impairment test individually or group and accrue the bad debt provisions which shall be recorded into current profit or loss at the end of the period. If there is defined evidence for the receivables not to or not likely to be received, which shall be recognized as the loss of bad debt and write off the accrued bad debts provisions after going through the approval procedure of the Group.

(1) Individually significant amounts of accounts receivable accrued bad debt provision as per

portfolio

Judgment basis or amount standards of individually significant amounts	Top 5 of account receivables at year end
The accruing method of the receivables with individually significant amounts	The bad debt provisions shall be accrued based on the difference between current value of future cash flow and the carrying amounts.

(2) Accounts receivable accrued bad debt provision by credit risk portfolio

The basis of portfolio	
Inter-company	Accounts receivable due from subsidiaries included in consolidated scope
Accounting aging	Other than accounts receivable due from subsidiaries included in consolidated scope and individual receivable with significant amount without impairment, use the accounting aging of the receivables
The basis of bad debt provision	
Inter-company	Individual identified method
Accounting aging	Age analysis method

The percentage of provision for bad debts based on the age of receivables as followings:

Accounting aging	Accrual percentage of the receivables (%)	Accrual percentage of other receivables (%)
Within 1 year	5	5
1-2 years	10	10
2-3 years	30	30
3-4 years	50	50
4-5 years	80	80
Over 5 years	100	100

(3) Individually insignificant amount accounts receivable but accrued bad debt provision as per portfolio

Accrual reason	The individual amount is not significant, but the accrued bad debt provision on the basis of portfolio can not reflect its risk characteristic
Accrual method	The bad debt provisions should be accrued based on the difference between current value of future cash flow and the carrying amount.

12. Inventories

Inventories are materials purchasing, raw material, variance of cost materials, low-valuable consumable, materials processed on commission, working-in-progress, semi-finished goods, variance of semi-finished goods, and finished goods, engineering construction etc.

The inventories are processed on perpetual inventory system, and are measured at their actual cost on acquisition. Weighted average cost method is taken for measuring the inventory dispatched or used. Low value consumables and packaging materials is recognized in the income statement by one-off method.

After yearend thorough inventory check, at the balance sheet date inventory impairment should be provided or adjusted according to inventory category. For the finished goods, raw material held for sale etc which shall be sold directly, the net realizable value should be confirmed at the estimated selling price less estimated selling expenses and related tax and expenses. The raw material held for production, its realizable value should be confirmed at the estimated selling price of finished goods less estimated cost of completion, estimated selling expenses and related tax. The net realizable value of inventories held for execution of sale contracts or labor contracts shall be calculated based on the contract price. If the quantities of inventories in the Group are more than quantities if inventories subscribed in the sales contracts, the net realizable value of the excessive part of the inventories should be calculated based on the general selling price. When the impairment indicators disappear, impairment provision shall be reversed and

13. Long-term equity investment

Long term equity investments are the investment in subsidiary, in associated company and in joint venture.

Joint control is the contractual agreement sharing of control over an economic activity by all participants or participants' combination and decisions or policies relating to the operating activity of the entity require the unanimous consent of the parties sharing the control.

Significant influence exists when the entity directly or indirectly owned 20% or more but less than 50% shares with voting rights in the investee company. If holding less than 20% voting rights, the entity shall also take other facts or circumstances into accounts when judging any significant influences. Factors and circumstances include: representation on the board of directors or equivalent governing body of the investee, participation in financial or operating activities policy-making processes, material transactions between the investor and the investee, interchange of managerial personnel or provision of essential technical information.

When control exists over an investee, the investee is a subsidiary of an entity. The initial investment cost for long-term equity investment acquired through business combination under common control, is the carrying amount presented in the consolidated financial statements of the share of net assets at the combination date in the acquired company. If the carrying amount of net assets at the combination date in the acquired company is negative, investment shall be recognized at zero.

If the equity of investee under common control is acquired by stages and business combination incurs in the end, an entity shall disclose the accounting method for long-term equity investment in the parent financial statement as a supplemental. For example, if the equity of investee under common control is acquired by stages and business combination incurs in the end, and it's a bundled transaction, the entity shall regard all transactions as a one for accounting. If it's not a

bundled transaction, the carrying amount presented in the consolidated financial statements of the share of net assets at the combination date in the acquired company since acquisition is determined as for the initial cost of long-term equity investment. The difference between the cost initially recognized and carrying amount of long-term equity investment prior to the business combination plus the newly paid consideration for further share acquired, and capital reserve shall be adjusted accordingly. If no enough capital reserve is available for adjustment, retain earnings shall be adjusted.

If long-term equity investment is acquired through business combination not under common control, initial investment cost shall be the combination cost.

If the equity of investee not under common control is acquired by stages and business combination incursion the end, an entity shall disclose the accounting method for long-term equity investment in the parent financial statement as a supplemental. If the equity investment of investee not under common control is acquired by stages and business combination incursion the end, and it's a bundled transaction, the entity shall regard all transactions as a one for accounting. If it's not a bundled transaction, the carrying amount of the equity investment held previously plus newly increased investment cost are taken as the initial investment cost under cost model. If equity investment is held under equity method before the acquisition date, other comprehensive income under equity method previously shall not be adjusted accordingly. When disposing of the investment, the entity shall adopt the same basis as the investee directly disposing of related assets or liability for accounting treatment. Equity held prior to acquisition date as available for sale financial assets under fair value model, accumulated change on fair value previously recorded in other comprehensive shall be transferred into investment gain/loss for the period.

Apart from the long-term equity investments acquired through business combination mentioned above, the cost of investment for the long-term equity investments acquired by cash payment is the amount of cash paid. For long-term equity investment acquired by issuing equity instruments, the cost of investment is the fair value of the equity instrument issued. For long-term equity investment injected to the entity by the investor, the investment cost is the consideration as specified in the relevant contract or agreement.

The Group adopts cost method to account for investment in subsidiary and equity method for investment in joint venture and affiliate.

Long-term equity investment subsequently measured under cost model shall increase the carrying amount of investment by adjusting the fair value of additional investment and relevant transaction expenses. Cash dividend or profit declared by investee shall be recognized as investment gain/loss for the period based on the proportion share in the investee.

Long-term equity investment subsequently measured under equity method shall be adjusted for its carrying amount according to the share of equity increase or decrease in the investee. The entity shall recognize its share of the investee's net profits or losses based on the fair value of the investee's individual identifiable assets at the acquisition date, after making appropriate adjustments thereto in conformity with the accounting policies and accounting period, and

offsetting the unrealized profit or loss from internal transactions entered into between the entity and its associates and joint ventures according to the shareholding attributable to the entity and accounted for as investment income and loss based on such basis.

On disposal of a long-term equity investment, the difference between the carrying value and the consideration actually received is recognized as investment income for the period. For long-term investments accounted for under equity method, the movements of shareholder's equity, other than the net profit or loss, of the investee company, previously recorded in the shareholder's equity of the Company are recycled to investment income for the period on disposal.

Where the entity has no longer joint control or significant influence in the investee company as a result of partially disposal of the investment, the remaining investment will be changed to be accounted for as available for sale financial assets, and the difference between the fair value of remaining investment at the date of losing joint control or significant influence and its carrying amount shall be recognized in the profit or loss for the year. Other comprehensive income recognized from previous equity investment under equity model shall be accounted for on the same basis as the investee directly disposing of related assets or liability when stopping using under equity model.

Where the entity has no longer control over the investee company as a result of partially disposal of the investment, the remaining investment will be changed to be accounted for using equity method providing remaining joint control or significant influence over the investee company. The difference between carrying amount of disposed investment and consideration received actually shall be recognized in the profit and loss for the period as investment gain or loss, and investment shall be adjusted accordingly as if it was accounted for under equity model since acquisition. Where the entity has on longer joint control or significant influence in the investee as a result of disposal, the investment shall be changed to be accounted for as available for sale financial assets, and difference between the carrying amount and disposal consideration shall be recognized in profit and loss for the period, and the difference between the fair value of remaining investment at the date of losing control and its carrying amount shall be recognized in the profit or loss for the year as investment gain or loss.

If the entity loses its control through partially disposal of investment by stages and it's not a bundled transaction, the entity shall account for all transactions separately. If it's a bundled transaction, the entity shall regard all transactions as one disposal of subsidiary by losing control, but the difference between disposal consideration and carrying amount of the equity investment disposed prior to losing control, which arises from each individual transaction shall be recognized as other comprehensive income until being transferred into profit and loss for the period by the time of losing control.

14. Investment property

The investment property includes property and building and measured at cost model

Category	Useful life	Estimated net	Annual depreciation rate
----------	-------------	---------------	--------------------------

	(years)	residual value rate (%)	
Housing and Buildings	40	3%	2.43%

15. Fixed assets

Recognition criteria of fixed assets: defined as the tangible assets which are held for the purpose of producing goods, rendering services, leasing or for operation & management, and have more than one year of useful life.

Fixed assets shall be recognized when the economic benefit probably flows into the Group and its cost can be measured reliably. Fixed assets include: building, machinery, transportation equipment, electronic equipment and others.

All fixed assets shall be depreciated unless the fixed assets had been fully depreciated and are still being used and land is separately measured. Straight-line depreciation method is adopted by the Group. Estimated net residual value rate, useful life, depreciation rate as follows:

No	Category	Useful life (years)	Estimated net residual value rate (%)	Annual depreciation rate
1	Housing and Buildings	20-40	3%,5%,10%	2.25-4.85%
2	Machinery equipment	10-22	3%,5%,10%	4.09-9.7%
3	Transportation equipment	4-15	3%,5%,10%	6-24.25%
4	Electronic equipment	5	3%,5%,10%	18-19.4%
5	Others equipment	10-15	3%,5%,10%	6-9.7%

The Group should review the estimated useful life, estimated net residual value and depreciation method at the end of each year. If any change has occurred, it shall be regarded as a change in the accounting estimates.

16. Construction in progress

The criteria and time spot of constructions in progress's being transferred to fixed assets: Constructions in progress are carried down to fixed assets on their actual costs when completing and achieving estimated usable status. The fixed assets that have been completed and reached estimated usable status but have not yet been through completion and settlement procedures are charged to an account according to their estimate values; adjustment will be conducted upon confirmation of their actual values. The Group should withdraw depreciation in the next month after completion.

17. Borrowing costs

The borrowing cost includes the interest expenses of the borrowing, amortization of underflow or overflow from borrowings, additional expenses and the foreign exchange profit and loss because of foreign currency borrowings. The borrowing costs incurred which can be directly attribute to the fixed assets, investments properties, inventories requesting over 1 year purchasing or

manufacturing so to come into the expected condition of use or available for sale shall start to be capitalized when expenditure for the assets is being occurred, borrowing cost has occurred, necessary construction for bringing the assets into expected condition for use is in progress. The borrowing costs shall stop to be capitalized when the assets come into the expected condition of use or available for sale. The borrowing costs subsequently incurred should be recorded into profit and loss when occurred. The borrowing costs should temporarily stop being capitalized when there is an unusual stoppage of over consecutive 3 months during the purchase or produce of the capitalized assets, until the purchase or produce of the asset restart.

The borrowing costs of special borrowings, deducting the interest revenue of unused borrowings kept in the bank or the investment income from transient investment should be capitalized. The capitalized amount of common borrowings should be calculated as follows: average assets expenditure of the accumulated assets expenditure excess the special borrowing, multiplied by the capital rate. The capital rate is the weighted average rate of the common borrowings.

18. Intangible assets

The intangible assets of the Group refer to land use right and software. For acquired intangible assets, the actual cost are measured at actual price paid and relevant other expenses. The cost invested into intangible assets by investors shall be determined according to the stated value in the investment contract or agreement, except for those of unfair value in the contract or agreement.

Land use right shall be amortized evenly within the amortization period since the remised date. ERP system software and other intangible assets are amortized over the shortest of their estimated useful life, contractual beneficial period and useful life specified in the law. Amortization charge is included in the cost of assets or expenses, as appropriate, for the period according to the usage of the assets. At the end of the year, for definite life of intangible assets, their estimated useful life and amortization method shall be assessed. Any change shall be treated as change on accounting estimate.

19. Impairment of long-term assets

The Group assesses at each balance sheet date whether there is any indication that long-term equity investments, investment property, fixed assets, construction in progress and intangible assets with definite useful life may be impaired. If there is any indication that an asset may be impaired, the asset will be tested for impairment. Goodwill arising in a business combination and intangible asset with infinite useful life are tested for impairment annually no matter there is any indication of impairment or not.

Estimate of recoverable amount is the higher of its fair value less costs to sell and the present value of the future cash flows expected to be derived from the asset.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount shall be impaired and the difference is recognised as an impairment loss and charged to profit or loss for the period. Once an impairment loss on the assets is recognised, it is not reversed in a subsequent period.

After assets impairment loss is recognized, depreciation and amortisation of the impaired asset shall be adjusted in the following period so that the adjusted carrying amount(less expected residual value) can be depreciated and amortised systematically within the remaining life.

When assessing goodwill for impairment, the carrying amount of goodwill shall be allocated evenly to the assets group or assets portfolio. When testing the assets group or assets portfolio including goodwill, if there is any indication of impairment, ignoring the goodwill and testing the assets group or assets portfolio alone so to work out the recoverable amount and comparing to its carrying amount and recognize the impairment loss. After that, testing the assets group or assets portfolio with goodwill together, comparing the carrying amount of the assets group or assets portfolio(including goodwill allocation) with recoverable amount, goodwill impairment shall be recognized when the recoverable amount is lower than its carrying amount.

20. Long-term deferred expenses

Long-term deferred expenses of the Group refer to leasing expenses, redecoration expense and others. The expenses should be amortized evenly over the beneficial period. If the deferred expense cannot take benefit for the future accounting period, the unamortized balance of the deferred expenses should be transferred into the current profit or loss. Leasing expenses will be amortized within 10 years and 30years; redecoration expense and others will be amortized within 3 years.

21. Employee benefits

Employee's benefit comprises short-term benefit, post-employment benefit, termination benefit and other long-term employee's benefit.

Short-term benefit includes salary, bonus, allowance, welfare, social insurance, housing funds, labour union expense, staff training expense, during the period in which the service rendered by the employees, the actually incurred short term employee benefits shall be recognized as liability and shall be recognized in P&L or related cost of assets based on benefit objective allocated from the service rendered by employees.

Post-employment benefits include the basic pension scheme and unemployment insurance etc. Based on the risk and obligation borne by the Group, post-employment benefits are classified into defined contribution plan and defined benefit plan. For defined contribution plan, liability shall be recognized based on the contributed amount made by the Group to separate entity at the balance sheet date in exchange of employee service for the period and it shall be recorded into current profit and loss account or relevant cost of assets in accordance with beneficial objective.

Termination benefits are employee's benefit payable as a result of either an entity's decision to terminate an employee's employment before the contract due date or an employee's decision to accept voluntary redundancy in exchange for those benefits. An entity shall recognize the termination benefits as a liability and an expense at the earlier date when the entity cannot unilateral withdraw the termination benefits due to employment termination plan or due to redundancy suggestion, or when the entity can recognize the restructuring cost or expense arising

from paying termination benefits.

Other long-term employee's benefit refers to all other employee benefits other than short-term benefit, post-employment benefit and termination benefit.

If other long-term employee's benefit is qualified as defined contribution plan, contribution made shall be recognized as liabilities accordingly for the period in which the service are rendered by the employee and recognized in the profit or loss for the current period or relevant cost of assets. Except other long-term employee's benefit mentioned above, obligation arising from defined benefit plan shall be recognized in the profit or loss for the current period or relevant cost of assets in accordance with the period when the service are rendered by the employee.

22. Contingent liabilities

When the company has transactions such as commitment to externals, discounting the trade acceptance, unsettled litigation or arbitration which meets the following criterion, provision should be recognized: It is the Company's present obligation; carrying out the obligation will probably cause the Company's economic benefit outflow; the obligation can be reliably measured.

Provision is originally measured on the best estimate of outflow for paying off the present obligations, and to consider the risk, uncertainty, time value of monetary relevant to contingent items. If the time value of monetary is significant, the best estimate will be determined by discounted cash outflow in the future. At each balance sheet date, the book value of provision is reviewed and adjustment will be made on the book value if there is any change, in order to reflect the current best estimate.

When compensation from the 3rd party is expected for full or partial contingent liability settlement, the compensation shall be recognized as an asset separately and measured at no more than the book value of contingent liability.

23. Share based payment

An equity-settled share-based payment in exchange for the employee's services is measured at the fair value at the date when the equity instruments are granted to the employee. Such fair value during the vesting period of service or before the prescribed exercisable conditions are achieved is recognised as relevant cost or expense on a straight-line during the vesting period based on the best estimated quantity of exercisable equity instruments, accordingly increase capital reserve.

A cash-settled share-based payment is measured at the fair value at the date at which the Group incurred liabilities that are determined based on the price of the shares or other equity instruments. If it is immediately vested, the fair value of the liabilities at the date of grant is recognised as relevant cost or expense, and corresponding liabilities. If it is exercisable only when the vesting period of service is expired or the prescribed conditions are achieve, the fair value of liabilities undertaken by the Group are re-measured at each balance sheet date based on the best estimate of exercisable situation.

The fair value of the liabilities is re-measured at each balance sheet date. Any changes are recognised in the profit or loss for the year.

If the granted equity instruments are cancelled within the vesting period, the equity instrument shall be treated as accelerated vesting and the balance linked to the remaining vesting period shall be recognized in the profit or loss account, accordingly be recognized in the capital reserve. If employees or other parties can choose but fail to satisfy non-vesting conditions during the vesting period, the Company sees this as cancellation of granted equity instruments.

24. Principle of recognition of revenue

The revenue of the Group is mainly from selling goods, providing labor services and abalienating the right of use assets and construction contracts. Recognition standards for revenue are as below:

(1) The revenue from selling goods: Company has transferred all the significant risks and rewards of the ownership of the goods to the buyers, and retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. The relative sale proceeds have been reliably measured, respective economic benefit probably inflow to the company, and the incurred or incurring cost can be reliably measured, and then the revenue can be recognized.

In the reporting period, revenue recognition point and principle: goods is dispatched from warehouse, client has no dispute on the quantity and quality of the goods, client collected or authorized the agent to collect the good and sales amount is confirmed, have collected or expected to collect the payment, cost of goods can be reliably measured, risk and reward is transferred so the revenue is recognized.

Complete sets of engineering projects, if selling products and building installation part can be separated and can be measured separately, selling products will be treated as sales of products. Selling products and building installation will not be able to be distinguished, or can be distinguished but can't be separately measured, selling products and building installation will be all treated as building installation.

(2) Income from a alienating the right of use assets is recognized when satisfying requirements related economic benefit flows in very possibly, income can be measured reliably.

- 1) Amount of interest income is calculated according to the time and actual interest rate of the monetary capital used by other party.
- 2) Income of using fee is calculated upon the charge period and calculation provided by the related contract or agreement.

(3) The service revenue should be recognized when the outcome of the services can be estimated reliably.

The outcome of the services can be estimated reliably means the following conditions must be satisfied at the same time:

- 1) Amount can be measured reliably
- 2) Relevant economic benefit probably flow into the company
- 3) The stage of completion of the service can be estimated reliably

4) Cost incurred or expect to incur in the transaction can be measured reliably

Total service income shall be recognized according to the price agreed in the contract or agreement which has been settled or to be settled unless the price is not fair. Service revenue for the current period shall be recognized based on the figure worked out on the total income multiply by the percentage of completion of the service after deducting the service revenue recognized in the prior period at the balance sheet and accordingly recognized the cost based on the figure worked out on the total cost multiply by the percentage of completion of the service after deducting the service cost recognized in the prior period.

At the balance sheet date, if outcome of the service can not be estimated reliably, the treatment shall apply respectively

- 1) Costs incurred may be probably recovered, revenue is recognized only to the extent of costs incurred that are expected to be recoverable, and costs shall be recognized as an expense in the period in which they are incurred
- 2) Costs incurred are not probable of being recovered, then these cost incurred are recognized as an expense immediately, no revenue shall be recognized.

In the case that selling goods and rendering service are both included in the agreements or contracts, when selling products and rendering service part can be separated and can be measured separately, selling products will be treated as sales of products. Selling products and rendering service will not be able to be distinguished, or can be distinguished but can't be separately measured; selling products and rendering service will be all treated as rendering service.

(4) Revenue from construction contract

- 1) When the result of the construction contract is able to be evaluated reliably at the balance sheet date, the income and cost of the contract are recognized on completion percentage basis.

The result of the fixed price of construction contract can be estimated reliably means the following conditions must be satisfied at the same time:

- ① Amount can be measured reliably
- ② Relevant economic benefit probably flow into the company
- ③ Cost actually incurred can be well distinguished and measured reliably
- ④ The stage of completion and the cost expected to incur for the completion of the contract can be estimated reliably

The result of the cost plus of construction contract can be estimated reliably means the following conditions must be satisfied at the same time:

- ① Relevant economic benefit probably flow into the company
- ② Cost actually incurred can be well distinguished and measured reliably

Total construction contract income shall be recognized according to the price agreed in the contract or agreement which has been settled or to be settled unless the price is not fair. Construction contract income for the current period shall be recognized based on the figure worked out on the total contracted income multiply by the percentage of completion of the construction after deducting the revenue recognized in the prior period at the balance sheet and accordingly recognized the cost based on the figure worked out on the total expected cost multiply by the percentage of completion of the construction after deducting the construction cost recognized in the prior period. Construction contract income is recognized to the extent where the change of the contract, claim for compensation and bonus can bring the income and can be measured reliably.

- 2) If the result of the construction contract is not able to be evaluated reliably, the treatment shall apply respectively
 - ① If contract cost maybe recovered, the income is recognized at the cost actually recovered, and the cost of the contract is recognized as contract expenses of the current period when it is occurred.
 - ② If contract cost may not be recovered, the cost of the contract shall be recognized as contract expenses when incurred, and no contract revenue shall be recognized.
- 3) In case the expected total cost is greater than the total income, the expected loss will be recognized as expense of the current period immediately.

.25. Government grants

A government grant shall be recognized when the company complies with the conditions attaching to the grant and when the company is able to receive the grant.

Assets-related government grant is the government fund obtained by the company for the purpose of long-term assets purchase and construction or establishment in the other forms. Income-related grants are the grant given by the government apart from the assets-related grants. If no grant objective indicated clearly in the government documents, the company shall judge it according to the principle mentioned above.

Where a government grant is in the form of a transfer of monetary asset, it is measured at the amount received. Where a government grant is made on the basis of fixed amount or conclusive evidence indicates relevant conditions for financial support are met and expect to probably receive the fund, it is measured at the amount receivable. Where a government grant is in the form of a transfer of non-monetary asset, it is measured at fair value. If fair value cannot be determined reliably, it is measured at a nominal amount of RMB1 Yuan.

Assets-related government grants are recognized as deferred income ore directly offsetting the book value of the asset, and Assets-related government grants recognized as deferred income shall be evenly amortized to profit or loss over the useful life of the related asset.

Any assets are sold, transferred, disposed off or impaired earlier than their useful life expired date, the remaining balance of deferred income which hasn't been allocated shall be carried

forward to the income statement when the assets are disposed off.

Income-related government grants that is a compensation for related expenses or losses to be incurred in subsequent periods are recognized as deferred income and credited to the relevant period when the related expense are incurred. Government grants relating to compensation for related expenses or losses already incurred are charged directly to the profit or loss for the period. Government grants related to daily business, shall be recognized as other income in accordance with business nature, otherwise, shall be recognized as non-operating expenses.

If any government grant already recognized needs to be returned to the government, the accounting shall be differed according to the following circumstances:

- 1) originally recognized as offsetting of related assets' book value, assets book value shall be adjusted
- 2) if any deferred income, book value of deferred income shall be offset, excessive portion shall be accounted into income statement
- 3) Other situation, it shall be accounted into income statement directly.

26. Deferred tax assets and deferred tax liabilities

The deferred income tax assets or the deferred income tax liabilities should be recognized according to the differences (temporary difference) between the carrying amount of the assets or liabilities and its tax base. Deferred tax assets shall be respectively recognized for deductible tax losses that can be carried forward in accordance with tax law requirements for deduction of taxable income in subsequent years. No deferred tax liabilities shall be recognized for any temporary difference arising from goodwill initially recognition. No deferred tax assets or liabilities shall be recognized for any difference arising from assets or liabilities initial recognition on non-business combination with no effect on either accounting profit or taxable profit (or deductible tax loss). At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or liability is settled.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available to offset the deductible temporary difference, deductible loss and tax reduction.

27. Lease

The Company's leasing business is operating lease.

As a lessee, the lease premium shall be recognized in the cost of asset based on straight line method within the the period or directly to income statement.

28. Held for sale

(1) Any non-current assets or disposal group shall be classified as held for sale if the following criteria are met: (1) according to the similar transactions for selling such assets or disposal group in practice, the assets must be available for immediate sale under current condition. (2) The sale is highly probable with decision made on a probable selling proposal and the firm purchase

commitment has been obtained, the sale is expected to be completed within one year. Certain regulations request that approvals must be given by relevant authority or supervision regulator before the assets can be sold. Prior to the assets initially classified as held for sale or disposal group, the carrying amounts of the asset(or all the assets and liabilities in the disposal group) shall be measured in accordance with applicable accounting standards. The Company shall recognize an impairment loss and account it in to income statement for the current period, for any initial or subsequent write- down of the asset(or disposal group) to its fair value less costs to sell if the carrying amount is higher than its fair value less costs to sell. In the meantime, provision for assets impairment shall be made.

(2) The company acquires a non-current asset(or disposal group) exclusively with a view to its subsequent resale, it shall be classified as held for sale at the acquisition date only if the condition of “expected sale can be completed within one year” can be met and also other conditions of classified as held for sale can highly probably be met within a short period following the acquisition(usually with three months). When measuring a newly acquired asset(or disposal group) meeting the criteria to be classified as held for sale, it shall be measured at the lower of its carrying amount had it not been so classified and fair value less costs to sell. Except the non-current assets or disposal group acquired as part of a business combination, the difference between its fair value less costs to sale and initial carrying amount is recognized in the income statement.

(3) The Company that loss of control of a subsidiary due to a sale plan of its investment shall classify its subsidiary planned for sale as a whole as held for sale in the single financial statement of the parent only if the investment in subsidiary meets the criteria of held for sale, regardless of whether the Company will retain a proportion of equity interest in its former subsidiary after sale, and classify all assets and liabilities of the subsidiary as held for sale in the consolidated financial statements

(4) The Company shall recognize a gain for any subsequent increase in fair value less costs to sell of an asset and shall reverse the impairment to the extent that previously recognized when being classified as held for sale, the revisable amount is recognized in the income statement for the period. Any impairment from the period when the assets are not classified as held for sale can not be reversed.

(5) The impairment loss recognised for a disposal group shall reduce the carrying amount of goodwill of disposal group first, and then reduce the carrying amount of the non-current assets based on its proportion on the book.

The Company shall recognize a gain for any subsequent increase in fair value less costs to sell of a disposal group and shall reverse the impairment to the extent that previously recognized when being classified as held for sale, in accordance with applicable measuring standards, the revisable amount is recognized in the income statement for the period. Any impairment from the period when the assets are not classified as held for sale and reduced goodwill can not be reversed.

For any subsequently reversed amount, after the impairment loss is recognized for held for sale

disposal group, the Company shall increase the carrying amount of disposal group based on the proportion of carrying amount of non-current assets excluding goodwill.

(6) Non-current assets classified as held for sale or disposal group shall not be depreciated or amortized, interest and other expenses attributable to the liabilities of a disposal group classified as held for sale shall continue to be recognized.

(7) When held for sale assets or disposal group can not meet the criteria for held for sale classification so that they are not recognized as held for sale or non-current asset will be removed from disposal group, they shall be measured at the lower of the following amounts: (1)carrying amount of assets prior to it classified as held for sale, which is the amount after depreciation, amortization or impairment adjustment as it had not been classified as held for sale ; (2) recoverable amount.

When the Company derecognizes the held for sale assets or disposal group, the remaining unrecognized gain or loss shall be accounted in the income statement.

29. Discontinued operation

When meeting any one of the following criteria and the component can be identified separately and the component has already been disposed off or classified as held for sale: (1)the component represents one independent main business or one single main business area; (2)the component plans to be part of the related plan which represents one independent main business or one single main business area; (3)the component was specially acquired for resale

30. Other significant accounting policies, accounting Estimates

When preparing the financial statements, the management needs to use accounting estimate and assumption, which will have effect on the application of accounting policy and amount of asset, liability, income and expense. The actual circumstance maybe differs from the estimates. The management needs to continuously assess the key assumption involved by estimate and the judgment on uncertainty. Effect on the accounting estimate shall be recognized during the period when estimate is changed and in future.

The following accounting estimate and key assumption will trigger the significant risk of significant adjustment on the book value of asset and liability during the period of future.

(1) Impairment of receivable

Receivable is measured at amortized cost at the balance sheet date and assessed for any impairment indicator and the acutely amount of impairment. Objective evidence for impairment includes judgmental data of indicating significant decline of future cash flow of individual or group of receivable, indicating significant negative financial performance of debtors. Had receivable is recovered with certain proof, and in fact, it is relevant to the the matters subsequent to the the loss recognition, the impairment recognized before shall be reversed.

(2) Provision of inventory impairment

Inventory is periodically evaluated at the net realizable value and any cost higher than NRV shall

be recognized as inventory impairment loss. When evaluating the NRV, net realizable value is determined by deducting the expected selling expense and relative tax from the estimated selling price. When actual selling price or cost differs from the previous estimates, management will make adjustment on NRV. Therefore, the results based on the present experience may differ from the actual results, which caused the adjustment on the carrying amount of inventory in the book. Provision for inventory impairment may vary with the above reasons. Any adjustment on provision for inventory impairment will affect the income statement.

(3) Provision of goodwill impairment

Each year, goodwill shall be assessed for any impairment. Recoverable amount of assets group or asset portfolio including goodwill shall be the present value of future cash flow, which needs estimates for calculation.

If management adjust the gross profit margin adopted by the present value of future cash flow calculation of assets group or asset portfolio, adjusted gross profit margin is lower than the margin applied, the impairment is required.

If management adjust the discounting rate before tax applied by the present value of future cash flow calculation of assets group or asset portfolio, adjusted discounting rate before tax is higher than the rate applied, the impairment is required.

If actual profit margin or discounting rate before tax is higher or lower than management's estimate, any impairment recognized before can not be reversed.

(4) Provision of fixed asset impairment

At the balance sheet date, the management shall implement impairment test on buildings, plant and machinery etc which has any impairment indicator. The recoverable amount of FA is the higher of PV of future cash flow and net value of fair value after disposal cost, the calculation needs accounting estimate.

If management adjust the gross profit margin adopted by the present value of future cash flow calculation of assets group or asset portfolio, adjusted gross profit margin is lower than the margin applied, the impairment is required.

If management adjust the discounting rate before tax applied by the present value of future cash flow calculation of assets group or asset portfolio, adjusted discounting rate before tax is higher than the rate applied, the impairment is required.

If actual profit margin or discounting rate before tax is higher or lower than management's estimate, any impairment recognized before can not be reversed.

(5) Recognition of deferred tax assets

Estimate on deferred tax assets needs making estimation of taxable income and applied tax rate in the following years in future. Whether deferred tax asset can be realized depends on the enough probable taxable profit obtained in future. Tax rate change in future and the timing of temporary

difference reverse may also affect the income tax expense(income)and the balance of deferred tax. Any change of estimate described here will cause the deferred tax adjustment.

(6) Useful life span of fixed assets and intangible assets

At least every year end, the management shall review the useful life of FA and intangible assets. Expected useful life is based on the management's experience on the same class of assets, with reference to the estimate applied in the industry in conjunction with expected technology development. When previous estimate significantly changed, depreciation and amortization in the future shall be adjusted accordingly.

31. Changes in Accounting Policies, Accounting Estimates

(1) Change in significant accounting policies

Changes on accounting policy and reasons	Approval progress	Memo
In 2017, the Ministry of Finance announced or amended and implemented "Accounting Standards for Business Enterprises No.42-Held for Sale non-current assets, disposal group and discontinued operation". Since May 28th, 2017, any held for sale non-current assets, disposal group and discontinued operation existing on the implementation date shall be applied to prospective application. When preparing the financial statements for 2017FY, the policy has been adopted and the accounting has been done in accordance with this standard.	The accounting policy change has been approved by the 20 th meeting of the seventh generation of board.	
. Updated standard shall be applied since June 12th,2017. Any government existing on January 1st,2017 shall be applied to prospective application. Any new government grant obtained between January 1st,2017 and implementation date shall be adjusted in line with this standard too. When preparing the financial statements for 2017FY, the policy has been adopted and the accounting has been done in accordance with this standard.	The accounting policy change has been approved by the 20 th meeting of the seventh generation of board.	

Changes on accounting policy and reasons	Approval progress	Memo
In 2017, the Ministry of Finance announced or amended and implemented “Financial Statements Format”(Caikuai[2017]No.30) Gain/loss on non-current assets disposal and on non-monetary assets exchange presented under “non-operating income/expense” is changed to “Gain on asset disposal”. 2. Tax preference

The company obtained the qualification of high and new technology enterprises on 29th November, 2017 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR201721200306, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

The company's subsidiary, Dalian Bingshan JiaDe Automation Co., Ltd. obtained the qualification of high and new technology enterprises on 21st September, 2015 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR201521200115, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

The company's subsidiary, Wuhan New World Refrigeration Industrial Co., Ltd obtained the qualification of high and new technology enterprises on 28th October, 2015 approved by Hubei Science Technology Bureau, Hubei Finance Bureau, Hubei State Tax Bureau and Hubei Local tax Bureau. The Certificate No is GR201542000772, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years

The company's subsidiary, Dalian Xinminghua Electrical Technology Co., Ltd obtained the qualification of high and new technology enterprises on 29th November, 2017 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR2201721200301, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

The company's subsidiary, Dalian Niweisi LengNuan Techonoligy Co., Ltd. obtained the qualification of high and new technology enterprises on 29th November, 2017 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR2201721200108, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

The company's subsidiary, Bingshan Technical Service (Dalian) Co., Ltd. obtained the qualification of high and new technology enterprises on 29th November, 2017 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR2201721200155, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

The company's subsidiary, Dalian Bingshan Air-conditioning Equipment Co., Ltd. obtained the qualification of high and new technology enterprises on 29th November, 2017 approved by Dalian Science Technology Bureau, Dalian Finance Bureau, Dalian State Tax Bureau and Local tax Bureau. The Certificate No is GR2201721200279, and the validity duration is three years. According to the tax law, the company can be granted for the preferential tax policy of enterprise income tax rate of 15% in three years.

VI. Notes to Consolidated Financial Statements

The following disclosure date on this financial statement without special indication, "opening" refers to January 1, 2017; "closing" refers to December 31, 2017; "current period" refers to the period from January 1, 2017 to December 31, 2017; and "last period" refers to the period from January 1, 2016 to December 31, 2016; with the currency unit RMB.

1. Cash and cash in bank

Item	Closing Balance	Opening Balance
Cash on hand	62,880.11	83,511.72
Cash in bank	364,630,526.20	686,615,661.42
Other cash and cash equivalents	30,116,287.80	28,516,465.40
Total	394,809,694.11	715,215,638.54
Including: sum of deposits overseas		

Note: other monetary funds is restricted, including deposit for bank acceptance notes of 25,559,515.54Yuan, guarantee deposit of 3,556,772.26Yuan, migrant deposit of 1,000,000.00Yuan, total of 30,116,287.80 Yuan.

2. Notes receivable

(1) Category of notes receivable

Items	Closing Balance	Opening Balance
Bank acceptance notes	59,496,684.07	41,906,247.02
Commercial acceptance notes	113,321,492.13	84,502,002.57
Total	172,818,176.20	126,408,249.59

(2) Pledged notes receivable up to December 31, 2016.

Items	Closing pledged amount
Bank acceptance notes	16,110,843.93

Commercial acceptance notes	
Total	16,110,843.93

(3) Notes receivable endorsed or discounted but not mature at the end of year

Item	Closing amount no more recognized	Closing amount still recognized
Bank acceptance notes	251,658,051.71	
Commercial acceptance notes	18,102,321.88	
Total	269,760,373.59	

(4) The closing balance of the notes receivable increased 36.71% compared with the opening balance because of the increasing notes received due to more note payment at the year end

3. Accounts receivable

(1) Category of accounts receivable

Items	Closing Balance				Booking balance

(2) Goodwill impairment provision

Goodwill calculation method:

In the year 2015, the book value of equity investment of Dalian Niweisi LengNuan Technology Co., Ltd exceeds the fair value of the proportion of the acquired company's identifiable net asset. The difference between the book value of equity investment of 48,287,589.78 Yuan and the identifiable net asset's fair value of Dalian Sanyo High-efficient Refrigeration System Co., Ltd of 46,847,241.86 Yuan on the acquisition date of July 31st 2015 is recognized as goodwill of 1,440,347.92 Yuan on the group consolidated financial report at the end of the year.

In the year 2016, the company purchases shares of Dalian BingshanBaoan Leisure Industry Co., Ltd and gains control. The transferred price is based on the net asset of Dalian BingshanBaoan Leisure Industry Co., Ltd on June 30th 2016. Negotiated with Dalian BingshanBaoan Leisure Industry Co., Ltd's shareholder Baoan Water Project (China) Limited Company, the transfer price is the combination cost on the purchasing date which is 5,359,548.42 Yuan, the fair value of proportion of Dalian BingshanBaoan Leisure Industry Company's identifiable net asset is 5,049,096.85 Yuan on the purchasing day, therefore, goodwill is 310,451.57Yuan on the purchasing date.

The book value of goodwill from business combination of Dalian Niweisi LengNuan Technology Co., Ltd and Dalian BingshanBaoan Leisure Industry Co., Ltd which are not under same control shall be allocated into the relevant asset group using the reasonable method since acquisition date and taken impairment test on relevant asset group where the goodwill is included. The obvious impairment indication of the goodwill hasn't been found. Thus no goodwill impairment provision has been made.

17. Long-term repayments

Item	Opening Balance	Increase	Amortization	Other Decrease	Closing Balance
Employee's dormitory use right	2,427,605.34		138,478.32		2,289,127.02

IX. Risk Related to Financial Instruments

The main financial instruments held by the group company are cash and cash in bank, accounts receivable, accounts payable, available-for-sale financial asset and short term loan. The detailed explanation is referred to this notes No.VI. The related risks of these financial instruments and the risk management policy conducted to reduce these risks by the group company are introduced as below. The Group management conducts to manage and monitor these risks exposure and control these risks under certain risk level.

Objectives and policies of each risk management

The objectives of risk management conducted by the group company are to reach the balance between risk and profit return by reducing the negative influence to operating performance to the minimum level as well as maximizing the shareholders' and other investors' profits. Based on these objectives, the basic risk management policy is to recognize and analyze all sorts of risk that the group company faced with, to set up the proper risk tolerance bottom line conducting risk management, as well as to monitor these risks in a timely and effective manner, and to ensure these risks under the limit level.

(1) Market risk

1) Exchange rate risk

Most of the company's business is located in China, and settled with RMB. But the company defined exchange rate risk of assets, liabilities dominated in foreign currency and future

transaction dominated in foreign currency (mainly including USD,JPY,HKD and GBP). The financial department of the company monitors the company's foreign currency transaction and the scale of foreign assets and liabilities, and decreases exchange rate risk. During the current year the company didn't agree any forward foreign exchange contract or currency swap contract .As at 31st December 2017, the company's assets and liabilities dominated in foreign currency are listed in RMB as following:

Items	Closing Balance				
	USD	JPY	GBP	EUR	Total
Cash and cash in bank	1,954.72	410,894.00	98,556.32	511,405.04	
Accounts receivable			79,255.11	79,255.11	
Subtotal	1,954.72	410,894.00	177,811.43	590,660.15	
Accounts Payable			36,399.28	36,399.28	
Subtotal			36,399.28	36,399.28	

Items	Closing Balance	Opening balance
Monetary fund-USD	38,639,808.80	26,363,244.38
Monetary fund-JPY	33,114.00	24,490.05
Monetary fund-EURO	29,063.88	838,655.15
Monetary fund-STERLING	1,920.54	0.29
Receivable- STERLING	760,156.78	674,413.43
Receivable -USD	18,390,991.72	40,126,815.27
Short term borrowing-USD	9,801,300.00	
Payables -USD	3,685,644.26	2,146,568.57
Payables -JPY	733,045.42	2,602,681.45
Payables - STERLING	319,556.56	309,736.03
Payables - EURO		134,415.89
Payables -SF		3,331,222.94

Dalian Refrigeration Company paid close attention to the effect on FX risk.

2) Interest rate risk

The interest risk of the Group incurred from bank loan, risk of a floating interest rate of financial liabilities that lead to the company facing cash flow interest rate risk, financial liabilities with a fixed interest rate lead to the company facing cash flow interest rate risk. The company determined the proportion of fixed interest rate and floating interest rate according the current market circumstance. The company and Dalian Bingshan Group Co.,Ltd borrowed long term loan RMB 160,000,000.00 with fixed interest rate. The subsidiary of the company Wuhan New World Refrigeration Industrial Co., Ltd. borrowed short term loan RMB 80,000,000.00 and Dalian Bingshan International Trading borrowed

short term loan RMB9.8013 million Yuan with fixed interest rate.

The financial department of the company continuously monitors the interest rates level, and the management would make some adjustment to lower the interest rate risk according to the latest market situation. Climbing interest rate will increase the cost of newly increased interest-bearing liability and interest expense for unsettled interest-bearing liability at floating rate and have adverse effect on the business performance.

The sensitive analysis:

As at 31st December 2017, base on the assumption of interest rate change of 50 BP, the company's net profit of year 2017 will increase or decrease RMB1.2646 million Yuan.

3) Price risk

Dalian Refrigeration Company sells steel products according to the market price, so there will be effect on the price variance.

(2) Credit risk

The credit risk of the company comes from monetary fund, notes receivable, accounts receivable, and other accounts receivable etc. The management made credit policies and monitored changes of this credit exposure.

The company's working capital was in bank with higher credit rating, so there was no significant credit risk, nor significant losses due to the default of other entity. Upper limit policy is adopted to avoid any credit risk from financial institution.

The company made relevant policy to control credit risk exposure from receivable, other receivable and notes receivable. The company assesses the client's credit background according to the client's financial performance, possibility of obtaining guarantee from the 3rd party, credit record and other factors such as current market. The company will periodically monitor the credit situation of the client and will take measures such as prompt letter, shorten credit period or cancel the credit to ensure the overall credit risk within the controllable scope.

As at 31st December 2017, the top five customers of receivable accounts balance is 155,341,331.23Yuan.

(3) Liquidity risk

Liquidity risk was referred to the risk of shortage of funds incurred when the enterprise fulfill the obligation of settlement by cash or other financial assets. The way to manage the liquidity risk is to ensure enough fund available to fulfill the liability by due date in prevention from unacceptable loss of or reputation damage to the Company. The Company periodically analyze the liability structure and

expiry date and the financial department of the company continued to monitor the short term or long term capital needs to ensure maintain plenty of cash flow. And the same time they also monitor the condition of bank loan agreements and obtain commitments from banks to provide plenty of funds.

The main fund comes from bank loan. By December 31st,2017, the credit limit still available is 340million Yuan and short term credit limit available is 340million Yuan.

As at 31st December 2017, the company's financial assets and financial liabilities in line with non discount cash flow of the contracts as following: Currency unity:10kYuan

	Closing balance

According to the 16th meeting of the 7th generation of board and the 2nd extraordinary shareholders meeting, the Company approved to issue convertible bond privately. The bond can be converted to A share, ‘GuoTaiJunAn’(#601211) held by Dalian Refrigeration Company

and total face value of the bond is less than 400million Yuan. On February 1st, 2018, the Company has received the “Approval letter of privately listed convertible loan of Dalian Refrigeration Company “(Shangzhenghan[2018]No125) from Shanghai Security and Exchange Market. Up to today, the bond has not been issued yet.

2. Information about profit distribution

Items	Content
Dividend proposed to be distributed	Extract 20% of the free surplus reserves; based on 611,776,558 numbers of share in total, paid out cash dividend of 1Yuan for every 10 shares(before tax),and cash dividend of B shares are paid in Hong Kong dollars; the total, and share dividend of 4 common shares for every 10 shares through capital reserve.
Dividend approved to be distributed by the General Meeting	

The 12th meeting of the 7th generation of board held on 20th April 2018 approved the profit distribution policy for the year of 2017, extracting 20% of the free surplus reserves and based on 855,908,981 numbers of share in total, paying out cash dividend of 0.5Yuan for every 10 shares(before tax) and cash dividend of B shares are paid in Hong Kong dollars.

3. Sales Return

There is no significant sales return after the balance sheet date.

4. Except the subsequent event disclosed above, the Company has no other significant subsequent event.

XVI. Other Significant Events

1. Error correction and effect in previous period.

The Company has no adjustment of prior period accounting error this year.

2. Debt Restructuring

The Company has no events of debt restructuring this year.

3. Asset exchange

(1) The exchange of non-monetary assets

None

(2) The exchange of other assets

None

4. Annuity Plan

None

5. Operation Termination

None

6. Segment Information

The management of the Company divided the Company into 3 segments based on the geographic area: Northeast China, Central China, and East China. The Northeast is the Company's general headquarters and the registered address. The Central is the subsidiary of the Company, Wuhan New World Refrigeration Industrial Co., Ltd, Chengdu Bingshan. The East is the subsidiaries of the Company, and they are Ningbo Bingshan Air-conditioning Refrigeration Engineering Co., Ltd and Shanghai Bingshan Technical Service Co., Ltd.

(1) The basis and accounting policies of reporting segments

The internal organization structure, management requirements and internal report scheme are the determination basis for the Company to set the operating segments. The segments are those satisfied the following requirements.

- 1).The segment can generates revenue and incur expenses.
- 2).The management personnel can regularly evaluate the operation results of segments and allocate resource ,assess its performance .
- 3).The financial situation, operation results, cash flow and other accounting information of segments can be acquired.

The Company confirms the report segments based on the operating segments. The transfer price among segments is set base on the market price. The assets and related expenses in common use are allocated to different segments based on their proportion of revenue.

(2)The financial information of reporting segments
