关于长安汽车 About changan automobile

管理者致辞

Manager's speech

欢迎阅读长安汽车2018年社会责任报告。愿我们一路同行、相伴成长,心怀使命、回馈社会。

多年来,长安汽车始终坚守“引领汽车文明,造福人类生活”的使命,持续为客户、员工、合作伙伴、股东及社会的发展创造价值,为打造世界一流汽车企业而不懈努力。

我们坚持科技创新,研发实力连续5届10年居中国汽车行业第一。我们坚持客户至上,为客户带来高品质的出行生活,2018年推出第二代逸动XT、CS35Plus、科尚、CS75PHEV等9个全新产品。我们坚信员工是企业的价值财富,鼓励并支持员工能力提升,近8万名员工中有研发人员1.2万余人,来自全球18个国家。我们坚持建立“诚信、平等、共赢”的合作伙伴关系,携手腾讯、华为、蔚来、百度、一汽、东风共谋转型发展,与供应商朋友深化合作、携手并进。我们坚持为股东提供长期、稳定和良好的回报,在迈入证券市场22年间,共实施现金分红19次,累计金额120亿元,派送红股和转增股本5次。2018年,长安汽车入选“2017年度最受投资者尊重的百强上市公司”、“上市公司丰厚回报榜单”前100家。我们坚决做负责任的企业楷模,围绕“科技教育、绿色环保、爱心捐赠”积极履行社会责任,开展“益起爱河”等公益活动,精准扶贫云南省泸西、砚山等地,三年来累计捐赠近亿元。

在全球新一轮经济发展的大潮中,所有产业正在经历前所未有的变革,新能源、智能化将为汽车产业带来颠覆性的变化。党的十九大明确提出,“中国特色社会主义进入新时

代”,要“加快建设制造强国”“坚持人与自然和谐共生”,要推动“人工智能和实体经济深度融合”“推进绿色发展”等。这一系列的重要精神,为汽车产业、为长安汽车的发展指出明确的方向、提出更高的要求。

使命在心,担当在行。我们积极投身“第三次创业——创新创业计划”,致力于成为智能出行科技公司。新能源“香格里拉计划”深入推进,2018年销售新能源汽车8.7万辆,同比增长42.9%;智能化“北斗天枢计划”有效实施,L2、L3级智能技术领先行业;长安出行、新营销等业务稳步开展。我们不断满足人民日益增长的美好生活需要,携手政府与投资者,共同打造绿色智慧出行城市。

推动绿色发展、打造智能出行科技公司,这是时代的呼唤,是贯彻落实高质量发展的需要。长安汽车将以创新为驱动,勇于变革,开放合作,主动肩负起对国家、对民族、对社会的神圣使命,为实现中国汽车强国梦贡献力量。

长安行天下·明天更美好!

长安汽车董事长

张宝林

Welcome to Changan Auto's 2018 Social Responsibility Report. I hope that we will grow together, grow up with our mission, and give back to the community.

Over the years, Changan Automobile has always adhered to the mission of “To Lead Auto Culture and Build a Better Life”, and continues to create value for the development of customers, employees, partners, shareholders and society, and make unremitting efforts to build a world-class automobile company.

We adhere to scientific and technological innovation, and our research and development strength ranks first in China's auto industry for 5 consecutive years. We insist on customer first and bring high-quality travel life to our customers. In 2018, we launched 9 new products such as the second generation EADO XT, CS35Plus, COSMOS and CS75PHEV. We firmly believe that employees are the value wealth of the company, encourage and support the improvement of employees' ability. Among the nearly 80,000 employees, there are more than 12,000 R&D personnel from 18 countries around the world. We have established a "good faith, equality, and win-win" partnership, and work together with Tencent, Huawei, Weilai, Ali, Suning, Baidu, FAW, and Dongfeng to achieve transformation and development, and go hand in hand with partners. We insist on providing shareholders with long-term, stable and good returns. In the 22 years of entering the securities market, we implemented a total of 19 cash dividends, with a total amount of 12 billion yuan, and distributed bonus shares and increased share capital five times. In 2018, Changan Automobile was selected as one of the top 100 listed companies in the “Top 100 Listed Companies Respected by Investors” in 2017. We resolutely act as a responsible corporate model, actively fulfilling our social responsibilities around “scientific and technological education, green environmental protection, and charitable donation”, and carry out public welfare activities such as “Love and Love” to accurately help the poor in Yunnan Province, Shaanxi and Laoshan, and accumulated in three years. Donated nearly 100 million yuan.

In the new wave of economic development in the world, all industries are undergoing unprecedented changes. New energy and intelligence will bring subversive changes to the automobile industry. The 19th National Congress of the Communist Party of China clearly stated that "socialism with Chinese characteristics will enter a new era", "accelerate construction and manufacturing of a strong country", "adhere to the harmonious

coexistence of man and nature", promote "integration of artificial intelligence and the real economy" and "promote green development". Wait. This series of important spirits points out clear directions and higher requirements for the automotive industry and for the development of Changan Automobile.

The mission is in the heart, and it is in the line. We are actively involved in the “The Third Breakthrough-Innovation and Business Venture Program” and are committed to becoming a global leading automobile company. The new energy “Shangri-la” was further promoted, and 87,000 new energy vehicles were sold in 2018, a year-on-year increase of 42.9%; The intelligent “Dubhe Plan” is effectively implemented, and the L2 and L3 level intelligent technologies are leading the industry; Changan's travel, new marketing and other businesses are developing steadily. We continue to meet the people's growing needs for a better life, and work together with the government and investors to create a green and smart travel city. Promoting green development and building intelligent travel technology company is the call of the times and the need to implement high-quality development. Changan Automobile will be driven by innovation, be brave in change, open to cooperation, and take the initiative to shoulder the sacred mission of the country, the nation, and the society, and contribute to the realization of China's automobile power.

Changan Drives the World • For A Better Tomorrow!

Zhang Baolin,
Chairman of Changan Automobile

改革发展 Reform and development

高管团队 Top management team

兵器装备集团党组对长安汽车经营班子进行调整、充实、加强，新一届领导班子成员都是从技术研发、生产制造、营销服务一线中多年摸爬滚打成长起来的，在中国汽车行业是非常专业化、年轻化的团体，班子整体活力和战斗力进一步增强。

The leading party group of Weapons and Equipment Group has enriched and strengthened Chang 'an Auto's management team. The members of the new leadership team have all grown up from the frontline of technology research and development, production and manufacturing, and marketing services for many years. It is a very professional and younger team in China's auto industry. The overall vitality and fighting capacity of the team have been further enhanced.

组织效率 Organizational efficiency

启动组织顶层架构设计，致力构建与战略相匹配的组织体系，坚持“小总部+事业群+共享平台+孵化创新”模式，打造了人力、财务、IT、行政、党群五大共享服务平台，强化矩阵协同，推动公司战略性业务落地。

We started the top-level organizational structure design, committed ourselves to building an organizational system that matches our strategy, adhered to the model of "small headquarters+business groups+shared platform+incubation innovation", and built five shared service platforms of human resources, finance, IT, administration, and the party and the masses, strengthened matrix coordination, and pushed the company's strategic business to the ground.

激励约束 Incentive constraint

构建全面薪酬激励体系，牵引价值创造、价值共享，提升员工感知。坚持效益决定分配，实施人岗匹配，推进项目激励约束。

We have built a comprehensive salary incentive system to promote value creation, value sharing and employee perception. We adhere to the principle that benefits determine distribution, implement personnel-post matching, and promote project incentives and constraints.

结构调整 Structural adjustment

三年累计淘汰21款低竞争力产品，关停并转整车产能140万辆、发动机产能126万台，严格控制库销比。
Over the past three years, a total of 21 low-competitive products have been eliminated, 1.4 million complete vehicles and 1.26 million engines have been shut down and converted, and the ratio of stock to sales has been strictly controlled.

管理提升 Management improvement

高价值车型销售结构占比达
Sales Structure of
High-Value Vehicles

55.4%

Rate Reaches

96.6%

将效率打造为组织核心竞争力

Make efficiency be core competence of organization

开展流程“5/7/10”工程。优化流程120余个，流程月均执行时长大幅度缩短，审批效率提高72%，流程移动化率达96.6%。

完善大数据管理系统。整合内外部系统，实现核心系统全覆盖；完成多个板块指标上线运行，整合E化报表，全面提升数据共享效率。

提升数据运营水平。从“看数据”“信数据”向“用数据”转型，定期发布运营报告。CA-DDM大数据管理系统逐步向合资企业推广，长安福特、长安马自达、江铃控股等已启动运用。

关注员工“软效率”，提高员工的工作积极性、主动性和创造力，激发员工活力和士气，让员工更具拼劲、闯劲，更有成就感。

Carry out the process "5/7/10" project. More than 120 processes were optimized, the average monthly execution time of the processes was greatly shortened, the approval efficiency was increased by 72%, and the process mobility rate reached 96.6%. Perfect the big data management system. Integrate internal and external systems to achieve full coverage of core systems; Complete the online operation of multiple plate indicators, integrate E-statements, and comprehensively improve the efficiency of data sharing. Improve the data operation level. From "looking at data", "believing in data" to "using data", operating reports will be issued regularly. Big Data Management System is gradually being promoted to joint ventures, and Chang' an Ford, Chang' an Mazda, Jiangling Holdings and others have been put into operation. Pay attention to the "soft efficiency" of employees, improve their working enthusiasm, initiative and creativity, stimulate their vitality and morale, and make employees more energetic, aggressive and more fulfilling.

合规经营

Compliance management

党建领先

Party building takes the lead

长安汽车党委以习近平新时代中国特色社会主义思想为指导,全面贯彻党的十九大精神,认真落实新时代党的建设总要求,纵深推进全面从严治党向基层延伸,党建领先战略深入实施,党的建设质量不断提升,为第三次创业和高质量发展提供了坚强保障。

聚焦政治建设,全力配合集团公司政治巡视,进一步增强“四个意识”;聚焦思想文化建设,坚定理想信念,打造突显狼性特征的领先文化;聚焦组织建设,打造坚强战斗堡垒,造就高素质干部人才队伍;聚焦作风纪律建设,强化监督执纪问责,廉洁从业生态持续营造;加强党对群团工作的领导,发挥好桥梁纽带作用,建设幸福美好长安。

Under the guidance of Xi Jinping's socialism with Chinese characteristics in the new era, the party Committee of Chang 'an automobile fully implements the spirits of the 19th National Congress of the Communist Party of China, earnestly implements the general requirements of the party's construction in the new era, promotes in depth the extension of all-round and strict party management to the grassroots level, implements in depth the leading strategy of the party construction, continuously improves the quality of the party's construction, and provides a strong guarantee for the third start-up and high-quality development.

Focus on political construction, fully cooperate with the group company's political tour, and further enhance the "four consciousness"; Focus on ideological and cultural construction, strengthen ideals and beliefs, and create a leading culture that highlights wolf characteristics; Focus on organizational construction, build a strong battleground and train high-quality cadres and talents. Focus on the construction of work style and discipline, strengthen supervision, discipline and accountability, and continuously create a clean working environment. We will strengthen the Party's leadership over the work of mass organizations, play a good role as a bridge and link, and build a happy and beautiful Chang 'an.

廉洁从业

Honest employment

长安汽车认真落实管党治党政治责任,深入学习贯彻党的十九大精神和上级工作要求,压实党风廉政建设工作责任,加强全面从严治党 and 党内政治生活监督;加强作风建设,严肃查处违反中央八项规定精神问题,持续纠治“四风”,建立作风建设长效机制;加强纪律教育,强化警示教育与日常提醒,开展党风廉政教育月活动,推动全员全价值链廉洁从业;严格监督执纪问责,不断深化廉洁审查,紧盯重点领域开展监察监督,保持惩治腐败高压态势,党风廉政建设和反腐败工作不断向前推进。

Chang 'an Automobile earnestly implements the political responsibility of monitoring the Party, thoroughly studies and implements the spirit of the 19th Congress and the work requirements of higher authorities, compacts the responsibility of building a clean and honest government, and strengthens the supervision of the overall and strict governance of the Party and the political life within the Party. Strengthen the construction of style of work, seriously investigate and deal with spiritual problems violating the eight central regulations, continuously rectify "four ethos" and establish a long-term mechanism for the construction of style of work; Strengthen discipline education, strengthen warning education and daily reminders, carry out the party conduct and clean government

education month activities, and promote the integrity of all employees in the whole value chain. We will strictly supervise and enforce discipline and accountability, continuously deepen integrity checks, strictly enforce discipline and accountability, closely monitor and supervise key areas, maintain a high-pressure situation of punishing corruption, and continuously push forward the construction of a clean and honest government and anti-corruption work.

合规守法

Compliance

长安汽车坚持“建设法治长安、打造法治央企”,持续建设和完善全面法律风险防控体系,为全球化发展战略提供专业法律支持。推行企业总法律顾问制度,重要决策的法律审核把关率达到100%;完善内控评价和全面风险管理体系,搭建风险分级管理机制、风险信息收集联络机制和风险定期报告机制,公司经营管理进一步规范、科学化、程序化。

Chang 'an Automobile insists on "building Chang 'an under the rule of law and building central enterprises under the rule of law" and continuously builds and improves a comprehensive legal risk prevention and control system to provide professional legal support for the globalization development strategy. The implementation of the enterprise's general legal adviser system, the legal audit check rate of important decisions reached 100%; We will improve the internal control evaluation and comprehensive risk management system, set up a risk classification management mechanism, a risk information collection and liaison mechanism and a risk regular reporting mechanism, and further standardize, scientifically and procedurally manage the company.

Eco
Development

绿色发展

绿色采购 Green procurement
绿色生产 Green production
绿色产品 Green product

长安汽车坚决贯彻绿色发展理念,积极探索经济效益与环境效益的双赢发展,始终坚持提高资源利用率,采用环保工艺及设备,实施清洁生产和智能制造,减少污染物排放,致力打造资源节约型、环境友好型企业。

Chang'an Automobile resolutely implements the concept of green development, actively explores win-win development of economic benefits and environmental benefits, always insists on improving the utilization rate of resources, adopts environmental protection technologies and equipment, implements clean production and intelligent manufacturing, reduces pollutant emissions, and devotes itself to building a resource-saving and environment-friendly enterprise.

绿色采购

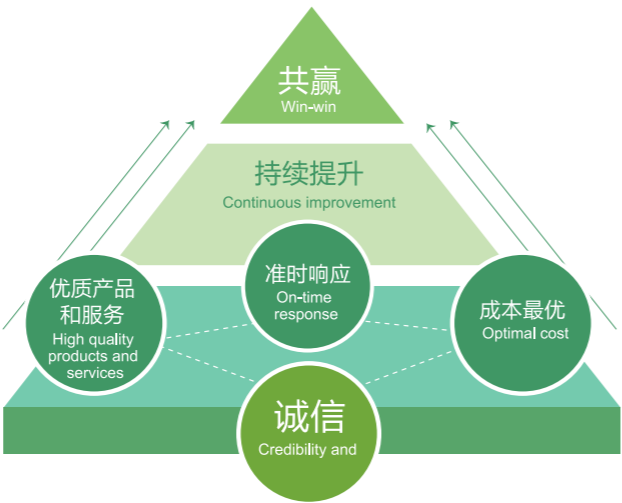

Green purchasing

采购政策方针

Procurement policy guidelines

长安汽车的采购理念以诚信为基石、共赢为目标，重点围绕质量、成本、交付三大核心，以最短时间响应客户需求，为客户提供全生命周期质量最优、成本最低的产品和服务，持续提升供应链管理能力和打造合作共赢的绿色供应链。

Chang 'an Automobile's procurement philosophy is taking honesty as its cornerstone and win-win as its goal. It focuses on the three cores of quality, cost and delivery. It responds to customers' needs in the shortest possible time, provides customers with the best quality and lowest cost products and good services in the whole life cycle, continuously improves the supply chain management capability, and creates a green supply chain with win-win cooperation.

采购管理体系

Procurement management system

长安汽车从与供应商建立战略合作、督促供应商体系认证、加强供应商环境管理、维护改善合作关系以及降低零部件采购成本等六大方面搭建采购管理体系，保障满足企业所需要的货物和服务。

Chang 'an Automobile has set up a purchasing management system from six aspects, including establishing strategic cooperation with suppliers, urging supplier system certification, strengthening supplier environmental management, maintaining and improving cooperation relations, and reducing parts purchasing costs to ensure that goods and services needed by enterprises are met.

供应商战略合作

Supplier strategic cooperation

为促进与供应商的共赢发展，长安汽车与爱信、博世、宝钢、科大讯飞等企业建立了战略合作关系；通过与战略供应商共同开发新技术、共建实验室和技术标准，提升公司核心技术能力。

In order to promote the win-win development with suppliers, Chang 'an Automobile has established strategic cooperation relations with AISIN, Bosch, Baosteel, iFLYTEK and other enterprises. Through joint development of new technologies, joint construction of laboratories and technical standards with strategic suppliers, the company's core technical capabilities will be improved.

供应商体系认证 (QCA)

Supplier system certification (QCA)

长安汽车结合自身特点，建立自主品牌汽车企业供应商能力认证体系 (QCA)，从质量、研发、物流等六个方面对供应商的能力进行认证和提升，确保供应商提供的零部件符合国家环保规定和要求。

Chang 'an Automobile has established a supplier competency certification system (QCA) for its own brand automobile enterprises in combination with its own characteristics, which certifies and improves the supplier's capability from six aspects, including quality, research and development, and logistics, to ensure that the parts provided by the supplier meet the national environmental protection regulations and requirements.

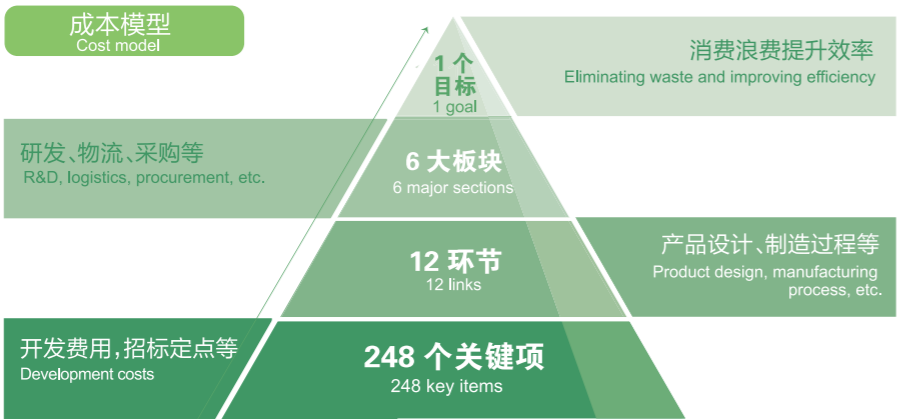

零部件成本管理

Cost management of spare parts

以全价值链成本最低为原则，建立了供应商的成本诊断模型，并成立了供应商成本帮扶专家团队，提升一级和关键二级供应商成本管理能力，实现全价值链的的成本最优。

Based on the principle of the lowest cost in the whole value chain, a cost diagnosis model for suppliers is established, and an expert team for supplier cost assistance is set up to enhance the cost management capability of primary and key secondary suppliers so as to achieve the best cost in the whole value chain.

供应商环境管理

Environmental management of suppliers

为提高企业的环保意识，鼓励企业改善环境绩效，树立节约能源、可持续发展的思想，长安汽车仅与通过ISO14001环境管理体系认证的供应商实施合作。

In order to improve the environmental awareness of enterprises, encourage enterprises to improve their environmental performance, and establish the idea of energy conservation and sustainable development, Chang 'an Automobile only cooperates with suppliers that have passed ISO14001 environmental management system certification.

类别 Category	管理要求 Management requirements
准入前商谈 Pre-admission talks	1.获得ISO14001认证, 且在有效期内 1. Obtain ISO14001 certification, and within the validity period 2.获得排污许可证, 且在有效期内 2. Obtain a pollution discharge permit, and within the validity period
新准入供应商 Newly admitted suppliers	ISO14001体系认证作为供应商准入标准中否决项条款 SO14001 System Certification as Denial Clause in Supplier Access Standard
体系内供应商 In-system suppliers	1.已通过ISO14001认证的供应商, 确保证书处于有效期内 1. Suppliers who have Passed ISO14001 certification shall ensure that the certificate is within the validity period 2. 2019年12月1日起长安汽车将对未通过认证或认证失效的供应商, 停止其新品开发资格 2. From December 1, 2019, Chang 'an Automobile will stop the development qualification of new products for suppliers who fail the certification or whose certification is invalid

供应商合作关系管理

Supplier cooperation relationship management

为提升合作效率、改善合作关系，长安汽车在传统的单向管理的基础上，建立了自主品牌第一个反向评价体系，提升供应商关系管理能力。

In order to enhance cooperation efficiency and improve cooperation relations, Chang 'an Automobile has established the first reverse evaluation system of its own brand on the basis of traditional one-way management to enhance supplier relationship management capability.

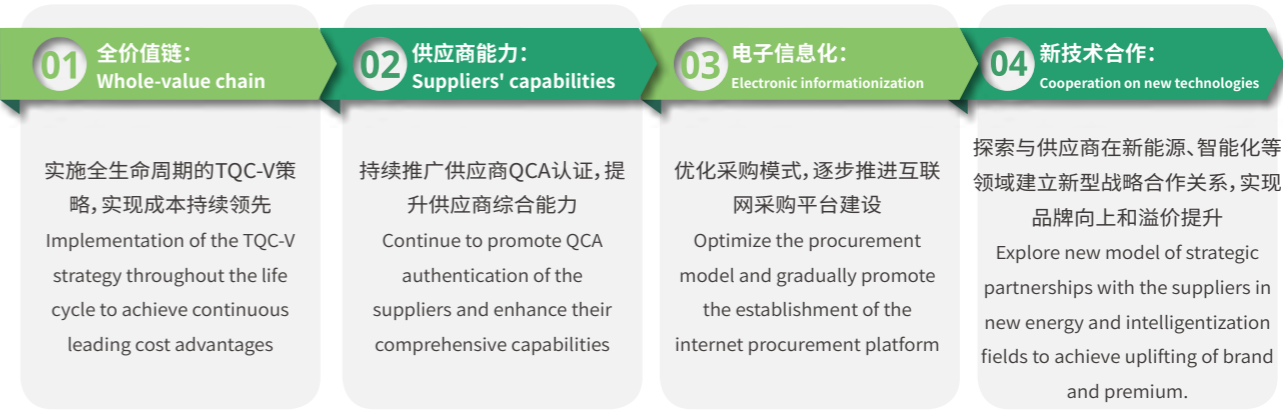

未来发展规划

Future development planning

未来，长安将从全价值链、供应商能力、电子化、新技术合作四个方面持续优化采购管理，实现全面绿色采购。

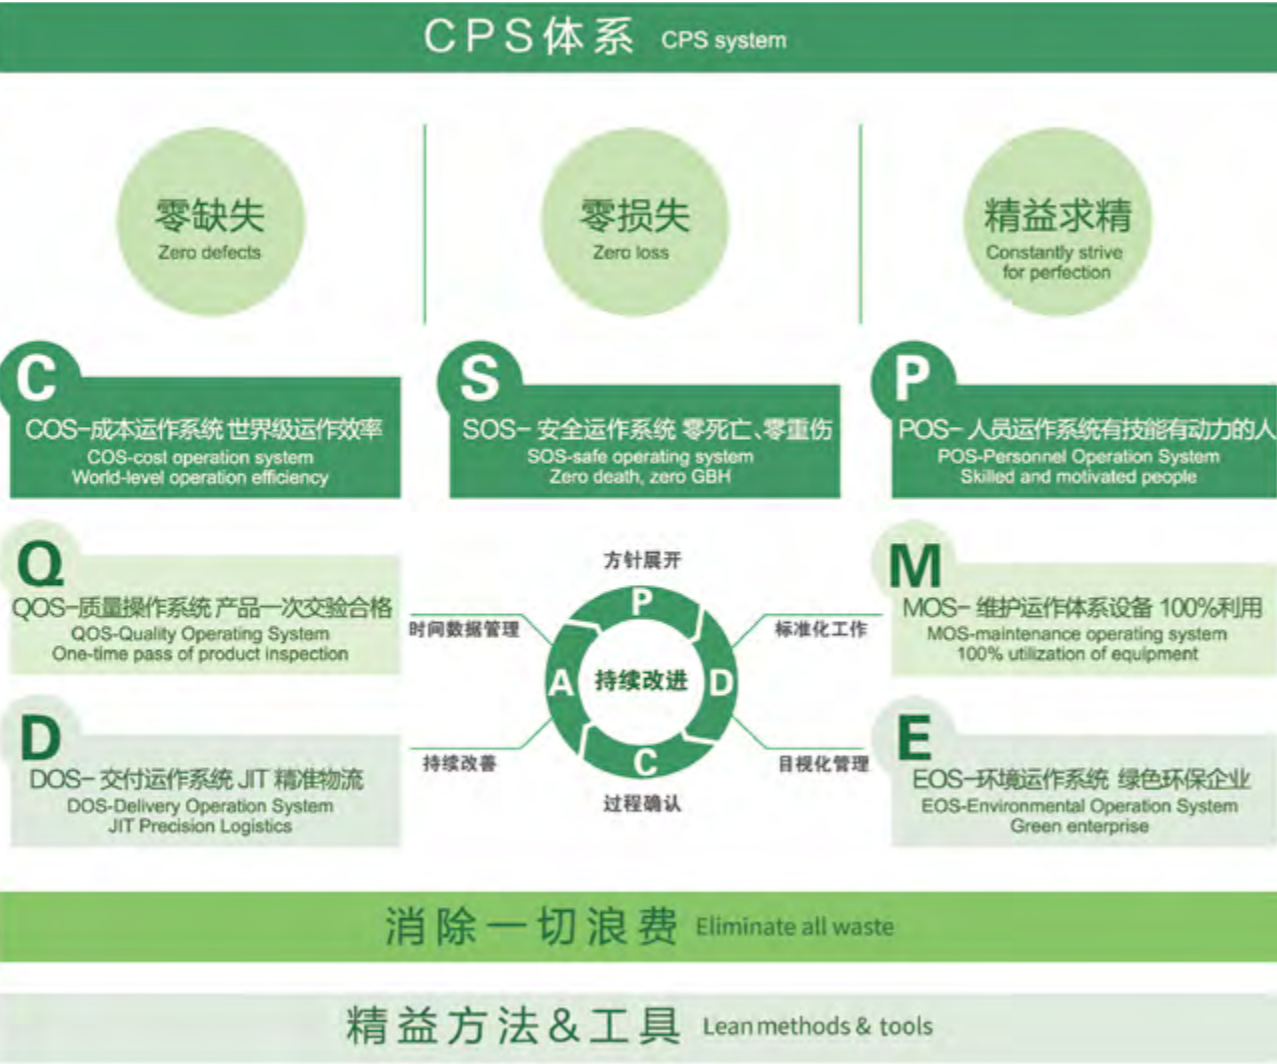

In the future, Chang 'an will continue to optimize procurement management from four aspects: full value chain, supplier capability, electronic informatization and new technology cooperation to realize full green procurement.

绿色生产 Green production

我们以打造绿色精益制造标杆工厂为目标，建立方针展开、标准化工作、目视化管理、过程确认、持续改进、时间数据管理六大一致性流程以及QOS、DOS、COS、POS、MOS、EOS、SOS七大操作系统，提升精益制造体系的有效性，实现制造全过程高效化、节能化、环保化，建立全球一体化精益制造体系，达到行业先进水平。

With the goal of building a green manufacturing benchmarking factory, we have established six consistent processes of policy deployment, standardization, visual management, process confirmation, continuous improvement, and time data management as well as seven operating systems of QOS, DOS, COS, POS, MOS, EOS, and SOS to enhance the effectiveness of manufacturing system, realize high efficiency, energy conservation, and environmental protection in the whole manufacturing process, and establish a global integrated manufacturing system to reach the advanced level of the industry.

案例 Case

乘用车鱼嘴基地是长安汽车高起点规划、高标准设计、以精益制造标杆工厂为目标而打造的全新生产基地，其四大生产工艺在国内自主品牌中首屈一指。

Yuzui Base for Passenger Cars is a brand-new production base built by Chang'an Automobile with high starting point planning, high standard design and the goal of lean manufacturing benchmarking factory. Its four major production processes are second to none among domestic independent brands.

冲压车间 Stamping workshop

采用国内自主研发、制造的压机，拥有2条5序“多连杆机械压机+双臂横杆传输方式”的封闭式高速冲压生产线，智能化程度达到国内一流水平。

It adopts domestic independently developed and manufactured presses, and has 2 closed high-speed stamping production lines with 5 sequences of "multi-link mechanical presses+double-arm crossbar transmission mode", with the intelligence reaching the first-class level in China.

焊接车间 Welding workshop

采用同平台、多车型柔性共线生产，拥有机器人535台，自动化率达92%，属国内一流。

It adopts the same platform and multi-model flexible collinear production, with 535 robots, with an automation rate of 92%, belonging to the first class in China.

涂装车间 Painting workshop

采用的水性漆工艺涂装线、全自动机器人喷涂线、双组份清漆工艺线，均处于国际领先地位。

The water-based coating line, automatic robot coating line and two-component varnish process line adopted are all in the leading position in the world.

总装车间 General assembly workshop

采用国际先进设施设备，运用先进工艺技术，实现了高自动化、高柔性化及深度的人际工程。

With international advanced facilities and equipment and advanced technology, high automation, flexibility and depth of interpersonal engineering have been realized.

案例 Case

长安汽车渝北工厂自2017年入选国家绿色工厂示范名单以来,始终坚持以用地集约化、生产洁净化、废物资源化、能源低碳化为目标,成为汽车行业的绿色标杆。

Since its inclusion in the national green factory demonstration list in 2017, Chang'an Auto Yubei Factory has always adhered to the objectives of intensive land use, cleaner production, waste recycling and low-carbon energy, and has become a green benchmark for the auto industry.

用地集约化 Intensive use of land

渝北工厂占地面积约750亩,容积率满足《工业项目建设用地控制指标》。根据《重庆市工业用地规划导则》都市区内的特色工业园区工业用地产出强度数据应不低于60亿元/km²的要求,渝北工厂单位用地面积产值连续三年满足要求并且远超其数倍之多。

Yubei factory covers an area of 750 mu, and the floor area ratio meets the "Control Index of Construction Land for Industrial Projects". According to the "Guidelines for Planning Industrial Land in Chongqing", the output intensity data of industrial land in characteristic industrial parks in metropolitan areas should not be lower than the requirement of 6 billion yuan /km², and the output value of unit land area of Yubei factory has met the requirement for three consecutive years and far exceeded several times.

生产洁净化 Cleaner production

渝北工厂水资源来自市政供水,2018年水资源消耗总量为1682543吨,单车消耗为4.614吨/辆。

The water resources of Yubei factory come from municipal water supply. In 2018, the total consumption of water resources was 1,682,543 tons and that of bicycles was 4.614 tons/vehicle.

废水主要为涂装工艺的生产废水,即脱脂废水、磷化废水、电泳废水以及喷漆处理废水。基地将各类废水分别经污水处理系统进行处理,在废水总排口安装废水流量计及在线监测系统,并与当地环保部门联网,实现总磷、CODcr 等的在线监测,监测达标后排放。

The waste water is mainly the production waste water of painting process, namely degreasing waste water, phosphating waste water, electrophoresis waste water and painting treatment waste water.

The base will treat all kinds of waste water by sewage treatment system respectively, install waste water flowmeter and online monitoring system at the waste water main discharge port, and connect with local environmental protection department to realize online monitoring of total phosphorus, CODcr, etc., and discharge after the monitoring reaches the standard.

废物资源化 Waste recycling

渝北工厂针对废水、废气和废渣三大主要污染物进行处理回收利用,取得了显著成效。

Yubei factory has made remarkable achievements in the treatment and recycling of wastewater, waste gas and waste residue.

废水 Waste water

生产、生活产生的各类废水经污水处理系统进行处理回收利用。

All kinds of waste water from production and living are treated and recycled by the sewage treatment system.

废气 Exhaust gas

通过源头+末端控制方式,应用水性喷涂+70%大比例循环风工艺,再通过沸石转轮+TAR等设备处理实现VOC降低,并进行余热回收。

Through the source+end control mode, water-based spraying+70% large proportion circulating air process is applied, and then VOC is reduced and waste heat is recovered through zeolite wheel+TAR and other equipment processing.

固废 Solid waste

针对危险固废建立了危废暂存库房,按种类进行分类分区存放,交由有资质的公司进行集中处理。针对一般固废进行最大化的资源再循环利用,废钢料、焊料出售给相关企业进行再利用。

For hazardous solid wastes, a temporary storage warehouse for hazardous wastes has been established, which is classified and stored in different areas according to types and handed over to qualified companies for centralized treatment. To maximize the recycling of resources for General solid waste, scrap steel and solder are sold to relevant enterprises for recycling.

工业废水处置率

100%

100% of wastewater treatment reuse rate

VOC排放为

25g/m²

VOC emission is 25g/m²

工业固体废弃物综合利用率

66.84%

The comprehensive utilization of industrial solid waste reaches 66.84%

能源低碳化 Energy low carbonization

渝北工厂通过实施工艺技改、节能措施,来降低工厂运行能耗,减少碳排放量。

Yubei factory has implemented technological innovation and energy saving measures to reduce energy consumption and carbon emissions in the operation of the factory.

能源节能管理 Energy conservation management

搭建能源管理系统,分车间级、生产级、区域级布置600余块智能仪表,采集分析能耗、环境排放等异常耗能,通过人员实现能源精益化管控;同时减少抄表人数2人,节约费用16万/年。

Build an energy management system with more than 600 intelligent instruments at workshop level, production level and regional level, collect and analyze abnormal energy consumption such as energy consumption and environmental emission, and realize lean energy management and control through personnel. At the same time, reduce the number of meter readers by 2, saving 160,000/year.

节能措施 Energy saving measures

采用中频一体化焊机较传统工频焊机,功率减少20%,焊接时间缩短15%,单点节能32%。

Compared with the traditional power frequency welder, the intermediate frequency integrated welder has the advantages of 20% power reduction, 15% welding time reduction and 32% single-point energy saving.

2018年,渝北工厂单位产品综合能耗

132kgce/辆

In 2018, Yubei Factory's Unit Product Comprehensive Energy Consumption 132kgce/ vehicle

2018年,渝北工厂单位产品碳排放量

484kgCO₂e/辆

In 2018, Yubei Factory's Carbon Emission Per Unit Product 484kgCO₂e/ vehicle

绿色产品 Green product

新能源汽车

New energy vehicles

目前已设立重庆、北京两大研发基地及重庆电池系统集成生产基地,形成了重庆、北京、保定、合肥、南京、南昌、深圳等七地新能源汽车整车生产能力,累计推出CS75PHEV、CS15EV、逸动EV460、逸动PHEV、新奔奔EV等26款新能源车型。2018年,长安新能源汽车销售8.68万辆,同比增长42.9%。

At present, Chongqing and Beijing have set up two research and development bases and Chongqing battery system integrated production bases, forming the vehicle production capacity of new energy vehicles in Chongqing, Beijing, Baoding, Hefei, Nanjing, Nanchang, Shenzhen and other seven places. A total of 26 new energy vehicles, including the CS75PHEV, CS15EV, EADO EV460, EADO PHEV, and New Benni EV, have been launched. In 2018, Chang 'an sold 86,800 new energy vehicles, up 42.9% year on year.

逸动EV460

EADO EV460

补贴后售价:¥11.99-12.99万元

电池容量 (kwh) :52.56

电机功率 (kW) :100

综合续航里程 (km) :405

充电时间快/慢充:33min/8h

Price after subsidy:¥ RMB 119,900-129,900

Battery capacity (kwh):52.56

Motor power (kW):100

Comprehensive cruising range (km):405

Fast/slow charging time: 33min/8h

CS15EV

CS15EV

补贴后售价:¥8.98-9.88万元

电池容量 (kwh) :49.14

电机功率 (kW) :55

综合续航里程 (km) :351

充电时间快/慢充:0.5h/8.5h

Price after subsidy:¥ RMB 89,800-98,800 yuan

Battery capacity (kwh):49.14

Motor power (kW):55

Comprehensive cruising range (km):351

Fast/slow charging time: 0.5h/8.5h

新奔奔EV360

New Benni EV360

补贴后售价:¥6.48-7.68万元

电池容量 (kwh) :34

电机功率 (kW) :55

综合续航里程 (km) :301

充电时间快/慢充:45min/11h

Price after subsidy:¥ RMB 64,800-76,800 yuan

Motor power (kW):55

Comprehensive cruising range (km):301

Fast/slow charging time: 45min/11h

CS75PHEV

CS75PHEV

补贴后售价:¥16.58-19.68万元

最大功率 (kw) :255

最大扭矩 (N·m) :605

纯电续航里程 (km) :60

充电时间慢充:4h

Price after subsidy:¥ RMB 165,800-196,800

Maximum power (kw):255

Maximum torque (n.m): 605

Pure electric range (km):60

Charging time slow charging: 4h

CS55蓝动版

CS55 Blue Motion Edition

售价:¥8.49-13.39万元

发动机:Blue Core 1.5T VVT DOHC

变速器:爱信6速手自一体变速箱

最大扭矩 (N·m) :225

Price:¥ RMB 84,900-133,900

Engine: Blue Core 1.5T VVT DOHC

Transmission: Aixin 6-speed manual self-integration gearbox

Maximum torque (n.m): 225

智能汽车

Intelligent automobile

长安汽车以国家智能汽车创新发展战略为牵引, 审视技术发展、市场趋势、用户消费习惯, 以智能驾驶、智能网联、智能交互三大领域技术为支撑, 分阶段打造智能汽车平台。

Chang 'an Automobile, guided by the national strategy for the innovation and development of intelligent automobiles, surveys technological development, market trends and consumer habits, and builds an intelligent automobile platform in stages supported by technologies in three major fields: intelligent driving, intelligent Internet connection and intelligent interaction.

智能网联

Intelligent internet connection

率先在国内实现智能人-车-生活功能量产, 以云端为中心, 打通长安、京东、科大讯飞后台建立三端互联, 通过三个语音入口(手机、车机、智能家居)实现人、车、智能家居为一体的智能人车生活体验。

It is the first to realize mass production of smart people-car-life functions in China. It takes the cloud as the center and connects Changan, Jingdong and HKUST's back offices to establish a three-terminal connection. It realizes the life experience of smart people-car and smart home through three voice portals (mobile phone, car machine and smart home).

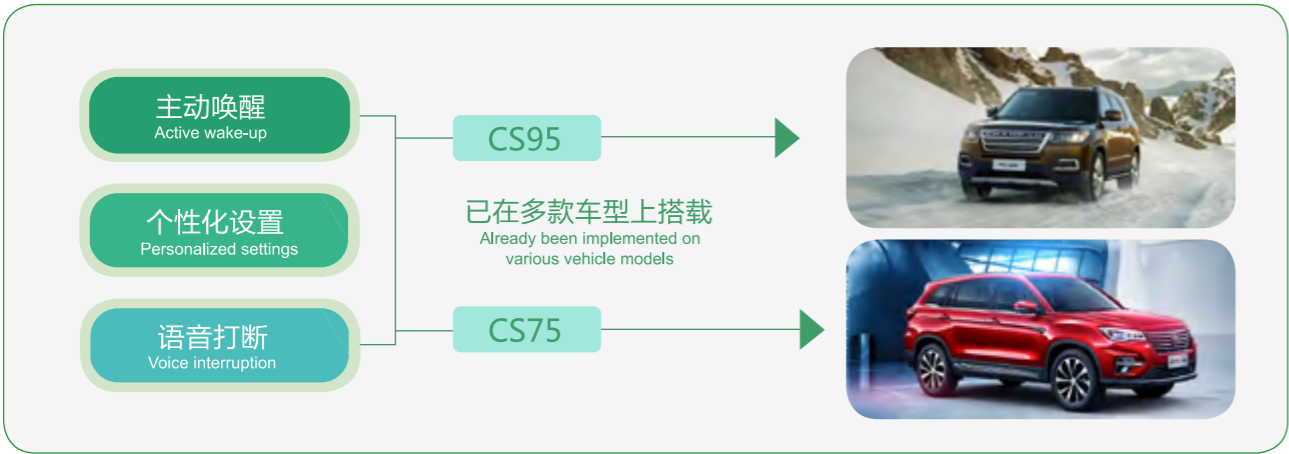

智能交互

Intelligent interaction

国内首发智能语音3.0——“小安”智能语音秘书, 实现主动唤醒、个性化设置、语音打断、天窗控制等功能, 已在CS95、新CS75等车型上搭载。

China's first intelligent voice 3.0-"Xiao' an" intelligent voice secretary, which realizes functions of active wake-up, personalized setting, voice interruption, skylight control, etc., has been installed on CS95, new CS75 and other models.

智能驾驶

Intelligent driving

L1级驾驶辅助技术已普及应用

已完成全速自适应巡航ACC-SG、自动紧急刹车AEB-C/I/P、前碰撞预警FCW等14项技术首次量产开发, 其中并线辅助LCDA、追尾预警RCW、限速标识识别TSR、自动远光灯FAB、准高清全景、行人自动紧急制动AEB-P等6项技术做到了中国品牌。

L1 level driving assistance technology has been widely applied

14 technologies such as full speed adaptive cruise ACC-SG, automatic emergency brake AEB-C/I/P, and front collision early warning FCW have been developed for the first time in mass production. Six technologies such as parallel auxiliary LCDA, rear collision early warning RCW, speed limit identification TSR, automatic high beam FAB, quasi-high definition panorama, and pedestrian automatic emergency brake AEB-P have achieved Chinese brand.

中国品牌首发 Initial launch of Chinese brand

L2级自动驾驶技术已实现量产

已完成集成式自适应巡航IACC、全自动泊车APA4.0等PA级自动驾驶关键技术量产开发。其中全自动泊车技术已搭载在新CS75上量产上市、集成式自适应巡航技术已搭载新CS55上量产上市。

L2-level autopilot technology has been mass produced

We have completed the mass production development of key PA automatic driving technologies such as integrated adaptive cruise IACC and fully automatic parking APA4.0. Among them, the fully automatic parking technology has been put on the new CS75 for mass production and the integrated adaptive cruise technology has been put on the new CS55 for mass production.

L3级有限自动驾驶技术正在快速推进

2018年4月, 长安汽车获取重庆自动驾驶道路测试牌照。预计2020年实现L3级量产车型的规模化搭载应用。

L3-level limited automatic driving technology is advancing rapidly.

In April 2018, Chang 'an Automobile obtained Chongqing Autopilot Road Test Licence. It is expected to realize the large-scale carrying application of L3-class mass production vehicles by 2020.

L4级自动驾驶技术完成首次示范体验运营

2018年8月23日, 长安汽车实现国内首家成功面向公众开放L4级自动驾驶商用示范体验, 成功展示手机APP预约自动驾驶车辆、V2X智慧交通、远程全自动泊车、市区道路环境L4级自动驾驶、智能家居互联、无线充电等技术。预计到2025年, 实现L4级量产。

L4-level Autopilot Technology Completed First Demonstration Experience Operation

On August 23, 2018, Chang 'an Auto realized the first commercial demonstration experience of L4-level automatic driving successfully opened to the public in China. It successfully demonstrated technologies such as mobile phone APP reservation automatic driving vehicle, V2X intelligent transportation, long-distance full-automatic parking, L4-level automatic driving in urban road environment, smart home interconnection, wireless charging, etc. It is estimated that L4-level mass production will be realized by 2025.

共享汽车

Car-sharing

长安汽车旗下“长安出行”互联网+智能出行平台现已在重庆、南京、合肥、杭州、厦门、泉州等地投入近万台车辆。目前平台上线运营分时租赁、长短租业务。

截止2019年1月, 平台注册用户超过91万人, 预计2019年一季度突破百万用户量。

Chang 'an Auto's "Chang 'an Travel" internet plus Intelligent Travel Platform has now invested nearly 10000 vehicles in Chongqing, Nanjing, Hefei, Hangzhou, Xiamen, Quanzhou and other places.

At present, the platform goes online to operate time-sharing leasing and long-short leasing services.

As of January 2019, the platform has more than 910,000 registered users and is expected to exceed one million users in the first quarter of 2019.

Win-win development 共赢发展

客户至上 Customer first
关爱员工 Caring for employees
合作共赢 Win-win cooperation
股东权益 Shareholders' equity

长安汽车坚决贯彻共享发展理念,把“价值共创、价值共享”作为企业的基本伦理,努力实现企业和客户、员工、合作方、股东的共同发展。

Chang 'an Automobile resolutely implements the concept of shared development, regards “value creation and value sharing” as the basic ethics of the enterprise, and strives to realize the common development of the enterprise and its customers, employees, partners and shareholders.

客户至上 Customer first

我们坚持“以客户为中心，提供极致体验和服务”，嗅觉敏锐，洞察需求，抢抓机会，情系老客户、开发新客户，以高品质的产品和体验、服务，打动客户，让客户认同、喜爱。

We insist on “taking customers as the center, providing extreme experience and good service”, insight into needs, catching opportunities, loving old customers and developing new customers, moving customers with high-quality products, experiences and services, and making customers identify with and love the products.

提供优质产品

Provide high-quality products

新品投放按期达成。第二代逸动XT、CS35Plus、CS75PHEV等9个新品按时投产上市。

Delivery of new products will be completed on schedule. 9 new products, such as the second-generation EADO XT, CS35Plus and CS75PHEV, were put into production on time.

产品质量稳步提升。我们坚持“面向世界一流，打造质量先导型企业”，通过顾客驱动的质量管理体系，践行“持续提升、客户满意、追求卓越”的质量理念，致力于做“高质量产品的提供者”。

The product quality has been steadily improved. We adhere to the principle of “facing the world first class and creating a quality-oriented enterprise”. Through a customer-driven quality management system, we continue to practice the quality concept of “continuous improvement, customer satisfaction and pursuit of excellence” and are committed to being a “provider of high-quality products”.

质量提升发展历程

Development process of quality improvement

安全与健康

Safety and health

安全管理 Security management

- **围绕安全履职，落实主体责任。**召开5次安委会会议，研究、部署安全生产有关事项，公司总裁/副总裁与各部门总经理签订安全责任状64份，公司所属单位签订安全责任状1000余份，层层分解，责任到人，严格履职，全年未发生安全主体责任事故。
- **围绕体系建设，强化标准落地执行。**新增4项专项应急预案，修订375个现场处置方案，完善体系运行评价标准，建立安全健康体检表，通过OHSAS18001和ISO14001体系国家审核。
- **围绕现场安全，强化基层基础管理。**开展应急演练591场，共计61632人/次参加，提升了全员应急能力。
- **围绕源头管控，强化安全防控能力。**发动全员开展岗位危险源全面辨识，梳理岗位危险源48788条，重要危险源4411条，通过分级管理并落实控制措施，确保安全风险有效控制。
- **围绕风险识别，强化隐患排查与治理。**严格依法合规，推进10余个新、改、扩建设项目安全、环保、职业卫生、消防“三同时”评价；公司所属各单位自查并整改20964项安全风险，持续提升风险识别与控制能力。
- **围绕科技兴安，强化安全创新管理。**长安汽车全国各生产基地共建立13个微型消防站，消防管控能力持续得到提升。
- **围绕培训教育，强化全员安全氛围。**开展“职业病防治月”“应急演练月”“安全生产月”“消防安全宣传日”“交通安全宣传日”等各类安全主题活动，普及全员安全常识，提升应急处置能力，强化安全红线意识，全年共计安全培训6184学时、88406人次。

Carry out the main responsibilities around the safe performance of duties. Five safety committee meetings were held to study and deploy safety production-related matters. The president/vice president of the company signed 64 safety responsibility certificates with the general managers of various departments, and the subordinate units of the company signed more than 1,000 safety responsibility certificates, which were broken down layer by layer. The responsibilities were transferred to the people, and the duties were strictly performed. No safety principal responsibility accidents occurred throughout the year.

Around the system construction, strengthen the implementation of standards. Four special emergency plans were added, 375 on-site disposal plans were revised, system operation evaluation standards were improved, and safety and health examination forms were established, which passed the national review of OHSAS18001 and ISO14001 systems.

Focus on site safety and strengthen basic management at the grassroots level. 591 emergency drills were carried out, with 61,632 participants each time, improving the emergency response capability of all personnel.

Focus on source control and strengthen safety prevention and control capability. To mobilize all staff to carry out comprehensive identification of post hazard sources, comb 48788 post hazard sources and 4411 important hazard sources, and ensure effective control of safety risks through hierarchical management and implementation of control measures.

Focus on risk identification and strengthen investigation and management of hidden dangers. Strictly abide by laws and regulations, and promote the "three simultaneous" evaluation of safety, environmental protection, occupational health and fire protection for more than 10 new, modified and expanded construction projects. All subordinate units of the company have self-checked and rectified 20964 safety risks and continuously improved their risk identification and control capabilities.

Focusing on the prosperity and safe development of science and technology, strengthening safety innovation management. A total of 13 mini fire stations have been set up in all production bases of Chang 'an Auto, and the fire control capability has been continuously improved.

Around the training and education, strengthen the safety atmosphere of all personnel. Carry out various safety theme activities such as "occupational disease prevention month", "emergency drill month", "safety production month", "fire safety publicity day" and "traffic safety publicity day" to popularize the safety knowledge of all employees, enhance the emergency response capability and strengthen the awareness of safety red line. A total of 6184 hours of safety training and 88406 person-times were provided throughout the year.

职业健康

2018年, 长安汽车保持职业病连续“零”发生, 完成2018年度职业病危害因素1271个点位检测; 组织3681名职业病危害岗位接害员工周期性职业健康检查, 覆盖率100%; 投入1176万余元为员工配备和发放劳动防护用品, 切实保障员工身体健康。

职工健康体检覆盖率 Health examination coverage rate of employees	100%	100%	100%

维护员工权益

Safeguarding staff rights and interests

1

民主管理

长安汽车坚持以职工代表大会为基本形式的企业民主管理, 召开5次职工代表大会团(组)长联席暨专委会, 审议通过2018年工资专项集体合同、职工工资制度(试行)、安全生产奖惩管理办法等7项议案, 完成《重庆长安汽车股份有限公司2018工资专项集体合同》《重庆长安股份有限公司集体合同》签订, 职工合法权益切实得到维护, 劳动关系更加和谐稳定。

Democratic management

Chang 'an Automobile insists on democratic management of enterprises in the form of staff and workers' congresses. It has held five joint and special committees of heads of staff and workers' congress groups (groups) to consider and pass seven proposals, including the 2018 special collective wage contract, the staff and workers' wage system (for trial implementation) and the measures for the administration of rewards and punishments for safe production. It has completed the signing of the 2018 special collective wage contract of Chongqing Chang 'an Automobile Co., Ltd. and the Chongqing Chang 'an Co., Ltd. collective contract. The legitimate rights and interests of workers have been effectively safeguarded and the labor relations have become more harmonious and stable.

2

薪酬福利

我们不断建立和完善员工收入与公司业绩、员工个人业绩及能力相匹配的薪酬管理机制, 通过员工正常薪酬增长、年度业绩奖、利润分享奖等, 让员工共享公司发展成果。同时, 不断优化员工福利项目, 2018年共办理11814名员工公积金提取, 465人次生育津贴申报, 44名员工办理特殊疾病的申报工作, 76人异地医保报销等工作, 有效保障了员工权益的实现。

Compensation and benefits

We have continuously established and improved a compensation management mechanism that matches the employee's income with the company's performance, personal performance and ability. Through normal salary growth, annual performance award, profit sharing award, etc., employees can share the company's development results. At the same time, staff welfare programs have been continuously optimized. In 2018, a total of 11,814 employees were allocated provident funds, 465 were declared maternity allowances, 44 were declared for special diseases, and 76 were reimbursed for medical insurance in different places, thus effectively ensuring the realization of staff rights and interests.

合作共赢

Win-win cooperation

我们坚持以诚信、平等、共赢的原则，建立风险共担、价值共创、利益共享的长期合作伙伴关系，实现共赢、协同和高效。

We adhere to the principles of honesty, equality and win-win results, and establish a long-term partnership of risk sharing, value creation and benefit sharing to achieve win-win, synergy and efficiency.

与供应商共同提升

Co-promotion with suppliers

完善供应商及采购供应链管理

着力完善质量管理体系，把提升产品实物质量放在战略层面高度重视，加强对零部件质量的管理工作。积极增进与供应商的互动交流，深化厂商合作关系，有效推动质量管理提升、零部件降本以及资源保障问题。

Perfecting supplier and purchasing supply chain management

Efforts should be made to improve the quality management system, attach great importance to improving the physical quality of products at the strategic level, and strengthen the management of parts quality. Actively promote interaction and communication with suppliers, deepen cooperation between manufacturers, and effectively promote quality management improvement, cost reduction of parts and resources guarantee.

维护供应商合法权益

积极推进“公开、公平、公正”阳光采购体系建设，完善供应商合法权益维护的管理机制。

Safeguarding the legitimate rights and interests of suppliers

We will actively promote the construction of an "open, fair and just" sunshine procurement system and improve the management mechanism for safeguarding the legitimate rights and interests of suppliers.

1

完善采购信息化平台系统，实现对生产零部件、物资类采购业务流程系统的监控与追溯管理。
Improve the procurement information platform system to realize the monitoring and traceability management of the production parts and materials procurement business process system.

2

健全供应商投诉问题处理机制，搭建微信投诉平台（供应商qtm），公开供应商投诉电话及邮箱，广泛收集意见，快速响应，维护供应商合法权益。

Improve the mechanism for handling supplier complaints, set up wechat complaint platform (supplier qtm), open supplier complaint telephone and email, widely collect opinions, quickly respond, and safeguard the legitimate rights and interests of suppliers.

3

实施采购关键业务与廉政内审风险检查机制，实现对生产零部件、物资类采购招标、议价流程风险的季度检查，不断规范采购业务流程。

Implement the risk inspection mechanism for key procurement businesses and clean and honest internal audit, realize the quarterly inspection of the risks in the bidding and negotiation processes for the production of spare parts and materials, and continuously standardize the procurement business process.

提升供应商能力

建立供应商质量认证体系，按照“以顾客为关注焦点”的质量管理原则，从体系、业绩、质量控制、满意度等方面对供应商开展辅导和认证，帮扶供应商提升质量管理能力。

To improve the capability of suppliers

Establish a supplier quality certification system. According to the quality management principle of "focusing on customers", provide guidance and certification to suppliers in terms of system, performance, quality control, satisfaction, etc. To help suppliers improve their quality management capabilities.

与经销商共同发展

Develop with distributor

我们坚持共享为基的准则，通过MQOS助推经销商服务经营能力提升，搭建厂商知识共享、经验交流、比学帮超的沟通交流平台。2018年，组织“技赢未来”营销技能大赛，共计3660人参赛；开展经销商岗位认证培训202期，培训4144人次，认证通过4093人次，认证通过率98.79%，提升经销商单店销售能力、单兵作战能力，实现厂商双赢。

We adhere to the principle of sharing as the basis, and use MQOS to promote the service and operation ability of distributors, and build a communication platform for manufacturers to share knowledge, exchange experiences, and help each other better than others. In 2018, organize the marketing skills competition of "technology wins the future", with a total of 3,660 participants. We conducted 202 training sessions on dealer job certification, with 4,144 training sessions and 4,093 certification passes, with a certification pass rate of 98.79%, Thus improving dealer's single-store sales ability and individual combat ability and achieving win-win results for manufacturers.

与合作伙伴深化合作

Deepening cooperation with partners

我们秉承“优势互补、共赢发展”的理念，坚持“自主创新”和“合资合作”两条腿走路，不断与合作伙伴深化合作，与合作伙伴共同研究产品与技术，开创合资合作新局面。2018年，正式运行长安福特全国营销服务机构，进一步深化了长安与福特的合作；与马自达合作支持长安马自达开发J59E纯电动车，持续深化双方合作。

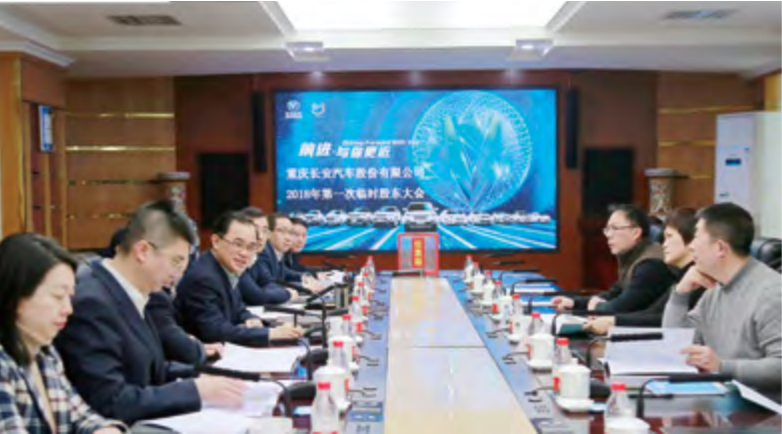

We uphold the concept of "complementary advantages and win-win development", adhere to the two legs of "independent innovation" and "joint venture cooperation", continuously deepen cooperation with our partners, jointly study products and technologies with our partners, and create a new situation of joint venture cooperation. In 2018, Chang'an Ford's national marketing service organization was officially put into operation, further deepening the cooperation between Chang'an and Ford. Cooperate with Mazda to support Chang'an Mazda in developing J59E pure electric vehicles and continuously deepen the cooperation between the two sides.

股东权益 Shareholders' equity

我们持续提高公司信息披露的及时性、准确性、完整性和透明度，增加主动披露的信息内容，切实保证公司股东特别是中小股东的知情权。

We have continuously improved the timeliness, accuracy, completeness and transparency of the company's information disclosure, increased the content of information voluntarily disclosed, and effectively ensured the right to know of the company's shareholders, especially small and medium shareholders.

长安汽车2018年第一次临时股东大会
CChang 'an Automobile's First Extraordinary Shareholders' Meeting in 2018

开展投资者关系管理活动。2018年，接待投资者实地调研33批次，投资者关系平台收到和有效回复投资者提问以及建议1058条。

Carry out investor relations management activities. In 2018, the investor relations platform received and effectively responded to 1,058 questions and suggestions from investors after receiving 33 batches of field research.

现金分红回报投资者。截止目前，共实施现金分红19次，累计金额120亿元，派送红股和转增股本5次。

Cash dividends return investors. Up to now, a total of 19 cash dividends have been paid, with a cumulative amount of 12 billion yuan, and bonus shares have been distributed and increased 5 Times.

近3年，公司以现金方式累计分配的利润达53.11亿元，分配的现金股利占年均可分配利润的29.34%，为股东提供长期、稳定和良的回报。

In the past three years, the company has accumulated 5.311 billion yuan in cash dividends, accounting for 29.34% of the annual distributable profits, providing long-term, stable and good returns to shareholders.
