# **Appotronics Corporation Limited Annual Report 2021**

本报告为深圳光峰科技股份有限公司自愿披露的《2021年年度报告（英文版）》，对本报告的中英文版本理解上发生歧义时，以中文版本为准。

Annual Report 2021 is voluntarily disclosed by Appotronics Corporation Limited, and if the meaning of the translated version is different than the Chinese version, the Chinese version will control.

## **Appotronics: Embarking on a New Journey**

### **Dear Shareholders,**

Appotronics, like many other companies, experienced an extremely challenging year in 2021. We achieved positive growth in operating incomes in this year, but at a slower growth rate.

Despite the astonishing performance growth of Appotronics between 2016 and 2018, especially in 2018 when our operating incomes increased by up to 72% year on year, the growth rate of our performance slowed down after the Company get listed in 2019. After the last three years of growing at a slow pace, we have moved to the 16<sup>th</sup> year from the establishment of Appotronics, encountering another crossroad - it's time for us to start a new journey.

Personally, the year 2022 is a new starting point for me. Coming back to the forefront as the CEO of the Company, I have more responsibilities on my shoulders and more courage for fighting in my heart, as if I were in 2016. Looking back to 2016, Appotronics decided to enter a strange field - cinema projection, and created the unique cinema SAAS mode relying on our enthusiasm. Thanks to our strong technology advantages and the unique business model, Appotronics moved forward with an overwhelming momentum on the cinema market and achieved “explosive” growth with installations of our cinema projections solutions increasing year by year.

The year 2022 is also a new start for Appotronics. To achieve another “explosive” growth of Appotronics, we have established four major measures: 1. To enhance our product capability by keeping sufficiently sensitive to market demands while striving for extreme

cost reduction, hence creating more hot-selling products; 2. To continuously promote the building of a hierarchical team with more young talents and transform the incentive mechanism to help young outstanding management and professional staff distinguish themselves, hence improving the competitiveness of the team; 3. To innovate the cooperation mode for cooperating with leading customers in various fields for rapidly acquiring market; and 4. To keep our keenness as a pioneer by sufficiently staying alerted to emerging market opportunities in pursuit of rapid breakthrough.

Thanks to the great efforts made by the Company on the consumer market, we achieved the growth by nearly 50% in 2021 year on year for our Formovie own-brand business, accompanied with obvious increase in the gross margin. According to a report from IDC, Formovie ranked third in 2021 in terms of shipments on the overall household market. In addition, we are accelerating the pace of business layout in the field of vehicle-mounted displays, and have entered into cooperation with several vehicle manufacturers and tier-1 suppliers. The IATF 16949 certification achieved by the Company recently indicates that we have acquired the admission permit for entering the supply chain of global vehicle manufacturers.

Standing in a world experiencing drastic changes, we encounter the fourth technological revolution consisting of “new display technologies, artificial intelligence, 5G, etc.”, in which laser display is one of the major “racetracks” in the fourth technological revolution. Appotronics is at the front line of this investment hot spot, and therefore should act immediately to seize the opportunities.

Naturally, we should also keep a clear vision of the current conditions. The year 2022 is extremely extraordinary - “black swan” events occurring one after the other, repeated outbreak of the COVID-19 epidemic both in China and overseas, and the combat against the epidemic turning into a “protracted war” - the rising uncertainties lead to in-depth changes in the external environment. The hard external environment requires us to work more diligently and constantly enhance our resilience to move forward. Luckily, being dedicated

to original innovation since its establishment, Appotronics is always making its way into the “unpopulated area” of technologies, and is never lack of the determination and confidence in solve tough problems. The evolution of technologies is leading to more and more new application scenarios, such as vehicle-mounted displays, aerospace projection display, and augmented reality (AR), which will create a trillion-level market. We have taken the lead in making layout for these fields.

In this year, we upgraded the regular CSR report to the ESG report for the first time, which reflected our active efforts in fulfilling social responsibilities under the continuous mission of being an accountable and responsible listed company. Lastly, I’d like to present some of my personal opinions. The changes on the market have drawn much attention recently; however, despite the many factors that may lead to the fluctuation in stock prices within a short period of time, the true value of an enterprise eventually relies on the fundamental aspect of the company in the long run. We may pay back to investors in a better manner only by continuously focusing on the development of the Company, making every effort to improve the operation of the Company, and enhancing the intrinsic value of the Company.

Last but not least, I would like to thank all shareholders and friends who have been caring for Appotronics!

Time tells everything!

LI Yi

April 2022

## Important Note

**I. The Board of Directors, the Board of Supervisors, directors, supervisors and senior officers of the Company hereby warrant that the information contained in this Annual Report is true, accurate and complete and this Annual Report is free from any misrepresentation, misleading statement or material omission, and agree to assume joint and several liability for this Annual Report.**

Explanation about the main accounting data and financial highlights in the past three years

Applicable  N/A

During the reporting period, the net profit attributable to shareholders of the listed company and the net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss increased 104.98% and 208.46%, respectively; the basic earnings per share, diluted earnings per share, and basic earnings per share after deduction of non-recurring profit or loss decreased by 108.00%, 104.00%, and 200.00%, primarily due to the following:

1. During the reporting period, the consolidated gross margin was improved due to the gradual resumption of incomes from the cinema business with a higher gross margin, and the growth in incomes from the core device business, household business, and large venue business.

2. During the reporting period, the non-recurring profit or loss increased year on year, primarily due to the performance compensation recognized in the profit or loss for the current period in the amount of RMB 37.9278 million, the government grants of RMB 87.7165 million recognized in the profit or loss for the current period.

|   | 1 <sup>st</sup> quarter<br>(Jan. - Mar.) | 2 <sup>nd</sup> quarter<br>(Apr. - Jun.) | 3 <sup>rd</sup> quarter<br>(Jul. - Sep.) | 4 <sup>th</sup> quarter<br>(Oct. - Dec.) |
| Operating income  | 524,967,989.26                           | 579,721,254.33                           | 555,932,526.47                           | 837,606,631.72                           |
| Net profit attributable to shareholders of the listed company   | 54,409,294.00                            | 97,004,626.79                            | 59,936,820.19                            | 22,013,603.11                            |
| Net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss | 36,659,661.66                            | 30,302,274.42                            | 41,093,330.65                            | 16,224,564.06                            |
| Net cash flow from operating activities   | 106,223,261.88                           | 64,436,052.02                            | -191,576,197.71                          | 79,254,110.65                            |

The high net profit attributable to shareholders of the listed company in the 2<sup>nd</sup> quarter are caused by the performance compensation from GDC; the less net cash flow from operating activities in the 3<sup>rd</sup> quarter was primarily due to stock building for preparation of peak sales period and payment for due notes; the less net profit attributable to shareholders of the listed company in the 4<sup>th</sup> quarter was primarily due to the change in the product portfolio, decrease in the gross margin, and the increase in marketing expenses and personnel expenses.

#### XI. Explanation about performance indicators not under the Accounting Standards for Business Enterprises

Applicable  N/A

The table below lists relevant indicators about the net profit excluding the effect of share-based payment expenses:

| Item   | In RMB         |                |            |
|--|----------------|----------------|------------|
|  | 2021           | 2020           | Change (%) |
| Net profit excluding the effect of share-based payment expenses  | 276,503,475.36 | 107,381,419.72 | 157.50     |
| Net profit attributable to shareholders of the listed company excluding the effect of share-based payment expenses   | 277,641,613.32 | 132,777,391.31 | 109.10     |
| Net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss excluding the effect of share-based payment expenses | 164,481,340.03 | 59,219,507.05  | 177.75     |

## Section III Discussion and Analysis of the Management

### I. Discussion and Analysis of Business Situations

Given the transformation of the Chinese economy from the stage of high growth to the stage of high-quality development, promoting the development of high-technology industries have been improved to the level of the national strategy, in which laser display is one of the national strategic emerging industries. During the reporting period, closely following the guidelines of the national strategy and under the strategic layout focusing on the main line of “core technologies + core devices + application scenarios”, the Company actively cultivates new growth curves while optimizing the business structure, and achieved stable growth in the operating performance to provide a strong momentum for the development of the Company in the next 3 to 5 years.

#### 1. Rapid growth of the own-brand household business to start a new era of laser smart projection

During the reporting period, the Company made great efforts for the To C business. The subsidiary achieved the growth of 50% year on year for its own-brand business, which accounted for nearly 50% of the total operating income of for the first time with obvious increase the in gross margin. Moreover, enhanced market investment to actively expand offline channels. The first offline experience store was opened in Chongqing in May 2021; and more experience stores opened in the year shortened the distance between consumers and our products.

In terms of market shares, the Company is improving rapidly in the ranking for the household smart projection market. According to the IDC report, the brand ranked third in terms of sales volume on the overall household projection market of 2021.

The subsidiary achieved significant breakthrough in product R&D and brand marketing. During the reporting period, launched R1 Nano, X1, and several other new household laser mini projector products, and cooperated with a globally renowned audio brand Bowers & Wilkins to release T1, the first panchromatic laser TV, which started a new era for laser projection. During the period of November 11, achieved the gross merchandise value (GMV) of over RMB 200 million throughout China as the champion for four consecutive years in both the online sales value and the sales volume of laser TVs.

#### 2. Diversified innovative core device businesses to inject new power for continuous growth

##### 2.1 Business of household core devices

During the reporting period, the Company achieved growth for the business of household core devices, covering all leading domestic projector brands.

With respect to laser mini projectors, the Company cooperated with partners such as Dangbei and Anker to integrated the upstream and downstream for jointly expanding the racetrack of laser mini projectors. During the reporting period, the Company provided laser mini projectors to Dangbei; the long-throw laser projection product X3 launched by Dangbei, positioned as a high-end flagship model, continuously ranked the first among hot products sold in JD.com, hence becoming one of the hot-selling projector products of the year in the industry with warm response from consumers.

With respect to laser TV light generators and complete equipment, the Company provides laser TVs for partners such as XGIMI and Hewlett-Packard, provides laser TV complete equipment for Zebao,

ViewSonic, Haier, and other partners, to assist partners in expanding the market space while accelerating the rapid popularization of our core technologies in the household field. For the overseas market, the Company has projects established for 4 targeted laser TV products with reference to customer demands, so as to show our strength on the overseas market focusing on high-quality projects.

Meanwhile, the Company continuously expands the scope of partners along the ecology chain, hence promoting the overall development of the entire ecology and the positive development of the industry by making use of our core devices and technology advantages.

## **2.2 Business of innovative core devices**

Relying on our technology advantages in the laser display field, the Company has been actively exploring new application scenarios to create new performance growth points for the Company. During the reporting period, the Company took the lead in making layout for vehicle-mounted display, aviation display, cloud display, AR, and other innovative businesses.

(1) For vehicle display, the Company has taken intelligent cockpit as the main coverage scenario to apply laser display in HUD, vehicle window projection, vehicle canopy by virtue of features such as small size, high brightness, low energy consumption and low heat dissipation. During the reporting period, the Company was included in the list of outstanding partners for Huawei Intelligent Automotive Solution, and provided the vehicle-mounted canopy for the demo vehicle with the latest cockpit of Huawei, namely the immersive projection on the vehicle roof. Moreover, the Company has entered into cooperation with several domestic and foreign vehicle manufacturers and tier-1 suppliers to continuously expand the customer base of vehicle-mounted display.

(2) For aviation display, the Company has signed a strategic cooperation agreement with Airbus to explore various possibilities in aviation applications based on the laser light source technology and laser display solutions. In Zhuhai Airshow held in September 2021, the Company exhibited the laser display product prototype intended for civil aviation display applications, which is the first one launched on the world and first one exhibited in China.

(3) In “book in the sky”, one of the innovative application projects of the Company, individual laser devices may reach the ultra high brightness of 100,000 lumens; relying on the extra-long projection technology, they can exceed the distance limit of 500 meters of conventional projection technologies, and can achieve far-distance imaging in the air at the distance of up to 3,000 meters. In the future, this solution may be used in dissemination projects of major events or government activities; we will continue to explore diversified scenarios of laser lighting.

(4) AR display is one of the emerging display fields under active exploration by the Company. The Company makes use of its advantages in original core technologies and devote human and material resources in the exploration for the AR display field, which have achieved stage-specific results. During the reporting period, the Company completed the demonstration of ultra-light, high-efficiency, high-definition AR modules. It's expected to release the progress in the display effects and technology routes for various AR modules step by step in 2022. Given the constant optimization of AR modules, it's expected that the DEMO modes and products of some AR modules may be launched by the end of 2022.

### **3. Sound development of the fundamental business of the Company to make stable contributions for performance**

During the reporting period, the Company kept the overall sound development of its fundamental businesses, i.e. the cinema projector business, the laser large venue business, and business education business.

With respect to cinema projection, given the recovery of China from the COVID-19 epidemic in 2021, we built high-brightness theaters to facilitate differentiated operation by cinemas, and provided content video and audio ecological and other solutions. As a result, this business division achieved the operating income of RMB 360 million, up by about 110% year on year. Relying on the nearly 5,000 new installations of laser cinema light sources throughout China, we maintained the absolute leading position on the market.

With respect to laser large venue projectors, we released the T series products in 2021, the 33,000-lumen laser large venue projector with the smallest size, lightest weight, best color, and lowest noise on the market for domestic independently developed 3DLP solutions. The Company doubled the incomes from the large venue projector business. According to the *Market Survey Report on the Laser Project Market of Chinese Mainland in 2021* of All View Cloud, Appotronics ranked second in terms of sales value and third in terms of product shipment on the Chinese Mainland large venue laser projection market in 2021.

With respect to business education, the continuous achievements of our own brands lead to effective increase in both the market shares and gross margin of this business. According to the *Market Survey Report on the Laser Project Market of Chinese Mainland in 2021* of All View Cloud, Appotronics ranked first in terms of shipment and held leading market shares on the education projector market in 2021.

## **II. Main business, business model, status of industry and R&D activities during the reporting period**

### **(I) Main business and main products or services**

#### **1. Main business**

As a globally leading technology enterprise for laser display, the Company mainly engages in the research, development, production and sales of laser display core devices and complete machines and application of laser display technology to different scenarios based on ALPD® laser display technology and architecture. By now, our businesses have been implemented in the household display, cinema projection, business education, large venue, and other application scenarios, and are expanding to the aviation, vehicle-mounted display, AR, and other fields.

#### **2. Main products**

Our products may be classified into core laser display devices and complete laser display equipment. The core devices can be further classified into laser light source (cinema light source and large venue light source), laser mini projector, vehicle-mounted laser display devices and systems, laser TV light generator and laser projection screen. Complete equipment can be further classified into laser mini projector, laser TV, laser cinema projector, large venue laser projector, laser education projector, etc.

##### **2.1 Products of core devices**

Our core devices, including the laser light source and light generator, reflect various advantages and

characteristics of ALPD® technology, such as high brightness, wide color gamut, high contrast and relatively low cost. The quality and performance of such products have received recognition of downstream customers, which helps us establish our position as a core supplier on the industry chain of laser display.

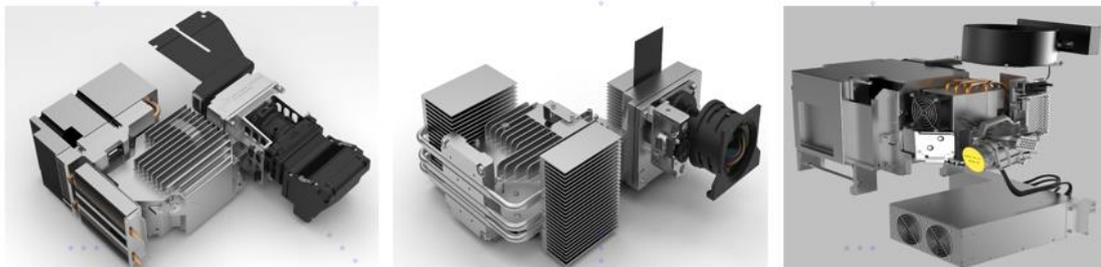

Figure 1: Laser light source and laser light generator

With respect to household mini projector, ALPD® laser light sources, as the mainstream light source for projection and display products, have the advantages of high energy efficiency, health, and environment friendliness; they are better than mini projector products with conventional light sources in terms of brightness, contrast ratio, product shape, etc., and have the comprehensive advantages of being the brightest with the same size, and having the smallest size at the same brightness.

With respect to vehicle-mounted display, the vehicle-mounted laser display device we designed and manufactured have the advantages of high brightness, small size, high stability, and compatibility with long-throw and ultra short throw display. They can project display images on any surface without affecting the permeability, hence creating mobile, large-screen, and immersive interactive experience in a vehicle.

## 2.2 Products of complete equipment

On the basis of laser light sources and light generator, we further developed complete equipment, which has been successfully used in both the household and commercial fields.

### 2.2.1 Household field

In recent years, laser TV, smart mini projector and other household projector products have been developing rapidly, due to the ever increasing acceptance of the new mode of movie watching by the consumers, and rapid decrease of the costs and prices and better performance of products. With leading market shares for household products and rapid growth of our own-brand household business, we will create a new laser mini projector racetrack.

Figure 2: New products of : laser projector R1 Nano and X1

Figure 3: New product of : Panchromatic Laser TV T1

### 2.2.2 Commercial market

In the field of cinema projection, we have created a product portfolio of laser cinema light sources covering multiple ranges of lumens from 5,000 lumens to 55,000 lumens, which are compatible with all projection equipment brands on the market for wide application in large-, medium- and small-sized cinemas. Thanks to the low operating power, the laser cinema light source reduces electricity consumption by 50% compared with the xenon lamp; moreover, since no bulb replacement is required, it helps cinemas to minimize their operating costs. As of the disclosure date of this Report, the installations of our laser cinema light sources have exceeded 26,000 sets in China.

In the large venue display field, Appotronics' large venue projector series covers the range of 5,000-60,000 lumens, hence suitable for outdoor lighting, cultural and tourism lighting, theme exhibition halls, corporate exhibition rooms, theater performance, 4D dining hall, conference control, rail transit, and other scenarios, which have the advantages of no damage to landscape, convenient installation and dismantling, repeated use in multiple places, etc.

In the business education field, our serial products of laser business education projectors have multiple projection throw segments including ultra short throw, short throw, and long throw, and the brightness of 3,300-6,000 lumens; they may be used in multiple scenarios, such as education, commercial exhibition, etc. The Company has developed a series of solutions for smart classrooms and commercial presentation, including laser smart all-in-one teaching device, laser synchronous classroom solution, laser interconnected dual-board solution, high-definition high-brightness conference system, etc.

## 3. Main services

### 3.1 Laser cinema projection services

CINEAPPO, a controlled subsidiary of the Company, provides laser cinema projection services to downstream cinema customers (“laser as a service”), and charges service fees according to the length of use of light source by the cinemas (the fees are charged by the hour or a certain period of time), while the cinemas do not need to purchase light source equipment, thereby effectively easing their capital pressure and reducing their labor and maintenance costs.

### 3.2 Smart large-screen ecology system Feng OS

, a controlled subsidiary of the Company, independently developed Feng OS - a smart large-screen

ecology system, which is compatible with various household display products. The Feng OS system may be used for broadcasting of large-scale events. It has completed a total of 25,000+ film and TV works and 25,000+ in-depth process of film characteristics, hence effectively supporting the effects of large-screen presentation. At present, we are leading in the industry in terms of paid members.

## **(II) Main business model**

The Company builds its core competitiveness closely around technology R&D and patent layout. We have an independent and complete system of R&D, procurement, production, sales, and services to provide customers with products or services of laser display core devices and complete equipment products.

### **1. R&D mode**

We mainly adopt the independent R&D mode, and separate technology development from product development in organization structure and development process.

- Our technology development focuses on creating and mastering core technologies and key technologies. When a kind of technology becomes relatively mature, it will be applied in product development. We value user demands to assist product designing, and develop technologies required for products in the next 1 to 5 years, so as to keep our core competitiveness in technology and leading position in the industry.
- Our product development is driven by product planning, and mainly divided into stages of feasibility, EVT, DVT, PVT and MP. We set up product lines and product development teams by market segment, and develop series products based on product platform, to rapidly respond to market demands.

### **2. Procurement mode**

Our Procurement Management Department is responsible for procurement, of which, the Material Sourcing Branch is responsible for the selection of suppliers, determination of purchasing prices, building of business system and supplier platform and other front-end procurement affairs, while the Procurement Implementation Branch is responsible for preparing and placing purchase orders, delivery, payment, and other back-end affairs.

### **3. Production mode**

We mainly rely on own production, supplemented by OEM, mainly because of the different production capacity required by different manufacturing processes and different products and consideration of cost-effectiveness. Our core devices for light sources and light generators sold or used to provide projection services are manufactured by us. Mini projectors, laser mini projectors, and laser TVs in the To-C business are mainly produced in the OEM mode, while other complete equipment products are produced by the Company.

### **4. Sales mode**

The Company has established a multi-level sales system integrating direct sales, distribution, and commissioned sales for both online and offline sales.

### **(III) Industry in which the Company operates**

#### **1. Development stage, basic characteristics and main technical barriers of the industry**

##### **(1) Development stage of the industry**

As an emerging industry, laser display is at the stage of rapid development. The growth drivers mainly come from four aspects: Firstly, the demand end, especially the household market and the innovative application field. Secondly, new large-scale application scenarios generated on the basis of technology advancement. At present, the laser display technology has been applied to vehicle-mounted display, aviation display, and other fields, creating the new large-scale application scenarios. This is purely new creation from zero with huge potential for market explosion. Thirdly, driver of innovation at the supply end. Manufacturers in the industry constantly upgrade their technologies and products to accelerate the penetration of laser display products. Fourthly, policy support. In 2021, being listed in priorities for the 14<sup>th</sup> Five-year Plan, such as the “New Display and Strategic Electronic Materials” of the Ministry of Science and Technology, laser display has strong support from the state.

##### **(2) Basic characteristics of the industry**

In terms of technology, the ALPD® technology created by Appotronics has become the mainstream technology route. In principle, the ALPD® laser display technology is compatible with various chip and technology routes, and is suitable for the DLP, LCOS, and LCD technologies. In 2007, the ALPD® technology created by Appotronics’ R&D team made a breakthrough in the application of core devices and imaging solutions of laser display, hence becoming the mainstream technical route for the laser projector industry and widely used in household, cinema, large venue, commercial, and education fields.

In terms of market, the overall size of the laser display industry has been expanding continuously. During the reporting period, laser display has been increasing in both shipment and market shares on the household, large venue, business, and cinema markets.

##### **(3) Main technical barriers**

Laser display products involve several fields, including optics, electronics, materials, physics, mechanical designing, precision manufacturing. The improvement in product performance relies on the core device (light source and light generator), while the research, development, and iteration of core devices are subject to high technical barriers and strong patent barriers.

In addition, in terms of specific applications, the technical barriers for To C market and innovative application market are high efficiency, small size and high cost effectiveness, while the technical barriers for To B market are continuous upgrading of performance in brightness, color, dynamic range, etc.

#### **2. Analysis of the position of the Company in the industry and changes therein**

The laser display technology has a broad prospect of application. As a new-general display technology, thanks to the advantages of high brightness, small size, long service life, wide color gamut, environment friendliness, the laser display technology has a broad space for market application. Besides the conventional display field, it can be expanded to the aviation, vehicle-mounted, AR, and other fields. The Laser display technology is becoming more and more important in the display field.

As a leading in the laser display industry, Appotronics has created a strong patent moat around the underlying technical architecture of laser phosphor display technologies, which is hard to be bypassed by companies in the industry entering the route of laser phosphor technologies. In addition, since its establishment, the Company spared no effort in R&D investment, which lead to a strong technology barrier. We have been committed in the breakthroughs, innovations, expansion of application scenarios, and industrialization of laser display technology, and created technology reserves and patent portfolios covering the whole technology chain of laser display from key system architecture, core devices to key algorithm. Relying on the core competitive advantages consisting of “patent moat + technical barriers”, the Company has its voice at the upstream core device stage in the laser display industry, and has become the first choice for many customers.

Appotronics is a pioneer of laser smart mini projectors. In 2021, the Company released the high-lumen laser mini projector light generator and multiple laser smart mini projector products to start a new era of laser projection in all aspects. Therefore, the year 2021 is referred to as the “first year of laser mini projector” in the industry.

According to the *Market Tracking Report of the Chinese Projector Market in 2021 Q4*, a controlled subsidiary of the Company, ranked third in the industry in terms of shipment of household projectors in China.

According to the *Market Survey Report on the Laser Project Market of Chinese Mainland in 2021* of All View Cloud, Appotronics ranked second in terms of sales value and third in terms of product shipment on the Chinese mainland large venue laser projection market in 2021.

According to the *Market Survey Report on the Laser Project Market of Chinese Mainland in 2021* of All View Cloud, Appotronics ranked first in terms of shipment and second in terms of sales value on the education projector market in 2021.

### **3. Development of new technologies, new industries, new types of operation and new modes during the reporting period and future trend**

#### **(1) Accelerated technology upgrade of smart projection leads to new products**

Given the technology advancement and diversified demands of various applications for diversified displays, smart projection is in the trend of rapid development for more applications and more modes. Smart projector devices have become the largest market segment for projector devices in China on the basis of the rapid increase in sales thanks to their cost effectiveness and portability compared with large-screen TVs, and are increasing in terms of market shares in the projector device field. While keeping the rapid growth of laser TVs and smart mini projectors, we released the first portable laser smart mini projector in 2021, which created a new mode of smart projection.

In the *Guidelines for Myopia Prevention in Children and Adolescents during COVID-19 Epidemic (Updated Version)* released by the National Health Commission, projectors are recommended as the first choice of devices for use during the teaching sessions. Compared with conventional liquid crystal screens, some projectors equipped with advanced laser technologies can protect consumers during long-time online work and study and reduce the harm due to eye fatigue. It's possible that such products may replace tablet

computers, and become a new terminal device for remote classroom, remote companion, and smart tutoring. According to IDC, it is expected that the projector device market of China will grow at the compound growth rate of 14% between 2020 and 2024.

Given the rapid development of new energy vehicles in the past years, there is a trend of vehicle intellectualization for the future vehicle field, creating various display demands. Thanks to the advantages of small size, high efficiency, and capability of transforming any surface into projected images, laser display drew the attention of the vehicle industry after entering the vehicle-mounted display field. By creating various intelligent and diversified innovative applications, projector devices will create a new market.

In the future, on the basis of the development in fundamental hardware technologies such as light sources, lighting technologies, and lens technologies, the optimization of overall device design, and the development of software technologies such as smart sensing capabilities and image quality optimization technologies, the smart projector market and vehicle-mounted display will further expand thanks to the greatly improved display performance and use experience of projector devices, technical upgrade, and reduced costs.

#### (2) Laser display is integrated with new technologies for expansion into new display fields

Given the compatibility between the laser display technology and cutting-edge technologies, including human-machine interaction, smart recognition, Internet of Things, cloud platform, and big data, the wide application of 5G mobile phones will create potential demands for supporting laser display products. Therefore, it's expected there will be huge market demands for supporting mobile products featuring high efficiency, small size and low cost in the future. The development of intelligent vehicles and smart cockpits lead to more demands for vehicle-mounted display. It's expected that there will objective market demands for laser display products meeting vehicle standard with features of high brightness, small size, and high energy efficiency ratio, which can be installed in small spaces in a vehicle. In the short term, the trend remains unchanged in the development priority of the current display market will witness the development of laser display technology towards advantages in cost-performance ratio, high portability, high dynamic range, wide color gamut, and high brightness for integration with ultra short throw and anti-ambient light screen technologies.

### **(IV) Core technologies and progress in R&D of technologies**

#### **1. Core technologies and their advancement, and changes during the reporting period**

We have been committed in the breakthroughs, innovations, expansion of application scenarios, and industrialization of laser display technology, and created technology reserves and patent portfolios covering the whole technology chain of laser display from key system architecture, core devices to key algorithm. With the ALPD®4.0 technology matured and the ALPD® 5.0 and 6.0 technology under development at the same time, we constantly maintain our leading advantages compared with followers and competitors in the industry. As a Leader Level Member of the Laser Illuminated Projector Association (LIPA), we have participated in the preparation of the international laser display standard.

The Company has devoted many R&D resources in the preparation and processing for the

miniaturization of laser display systems, light source architecture, complete equipment structure, machine perception, thin film material. The big data, algorithm and design solutions accumulated by us over the years will enable us to rapidly develop products and solutions meeting the requirements of different application scenarios, such as cinema projection, home entertainment, outdoor exhibition, ultra large-sized display, and immersive display. We have achieved breakthrough in, and started the marketing of, ultra-small portable laser light generators, vehicle-specification laser light generators, and light generators of wide color gamut high dynamic range.

With respect to cutting-edge technology, ALPD® 5.0 makes use of the characteristics of laser, and is combined with content preparation to achieve display within a high dynamic range, so as to improve visual experience. The prototype has been successfully developed. At present, we are performing more in-depth optimization to bring this technology to the stage of product development. The ALPD® 6.0 is planned to make breakthrough in the existing display architecture to further reduce the cost of laser display systems, hence laying the ground for industrialization. In the field of smart vehicle-mounted applications, we have completed the assessment of the prototype in various application scenarios in a vehicle, and have started the R&D efforts for mass production of vehicle-specification light generators. With respect to AR, we have completed the reasoning of ultra-thin high-efficiency AR modules, and achieved preliminary results in the prototype. It's expected that the prototype may be released in 2022.

## 2. R&D achievements during the reporting period

During the reporting period, the Company made the following achievements in technology and product innovation:

### 1. Core devices

During the reporting period, we completed the product development and released for mass production for the full series of products based on the ALPD® 4.0 technology, including the laser cinema light source platform covering 10,000-50,000 lumen, and the laser TV light generator platform compatible with trichromatic, dual colors, and single color, hence providing more abundant and more competitive solutions of core devices for the cinema industry and the laser TV industry. Meanwhile, in the racetrack of smart mini projectors, the Company developed laser mini projectors compatible with various product modes and different performance parameters, which can greatly improve the brightness and energy efficiency while improving color presentation. During the reporting period, the Company provided laser mini projector core devices for several new customers, including Dangbei.

The Company achieved further innovative breakthrough in flexible laser display screens and successfully developed multiple products: (1) ultra short throw diaphragms for speckle reduction used in three-color laser projectors, achieving speckle reduction contrast below 10%, taking the lead in the industry; (2) ultra short throw diaphragms with high contrast, with an opacity of more than 95%, superior to 85% of competitive products in the industry, which can greatly reduce the effect of ambient light; (3)

high-gain direct projection anti-light screens with the smart mini projector, achieving the 2.5x high-gain factor and the ambient light obscuring rate of 80%, which supports the projection effect of the projection device to increase the brightness by 2.5 times, and achieves a viewing angle close to 180 degrees as compared to projecting on a white wall; and (4) flexible foldable ultra short throw anti-ambient light screen, and rising flexible ultra short throw anti-ambient light screen, which are more convenient for transportation and installation.

In terms of innovative applications, the Company engaged in strategic cooperation with Airbus, and jointly released the prototype for aviation laser display applications. In the future, the parties will engage in cooperation in aviation laser display modules. In terms of smart vehicle-mounted devices, during the reporting period, the Company start efforts for the vehicle-specification laser display modules required for the development of smart cockpits, so as to develop vehicle-mounted laser display applications.

## 2. Complete equipment

We developed high-, medium-, and low-end laser TV products to cater for different user demands on the household market. Having the highest brightness of 4,000 lumens, covering the REC.709, DCI, and REC.2020 color gamuts, and with the maximum color gamut area of 158% NTSC, our products are at the highest level in the industry. During the reporting period, as the subsidiary launched a new laser TV product, Cinema 2, which has a 10% increase in screen brightness compared to the previous generation, has a 4K resolution and can project 80-150 inches of super-large screens. also released the first panchromatic Laser TV - T1, which adopted the ALPD® RGB+ panchromatic laser display technology to achieve Bt.2020 ultra-wide color gamut, 4K resolution; it is equipped with the Bowers & Wilkins customized audio to greatly improve the sound and color effects.

During the reporting period, the Company developed multiple laser smart mini projector products. (1) Series of portable ultra short throw smart mini projectors: R1 and R1 nano, which reduced the size of ultra short throw smart mini projectors to the size of a mini projector product. While maintaining high-brightness output, it has the size much smaller than a laser TV. This is a new mode of household smart mini projector, which will create new application scenarios. (2) Series of ultra-portable laser smart mini projectors: X1 and P1, which maintain the same brightness as a common LED mini projector product; it has the size of a mobile phone, and is driven by a battery.

In the business field, the Company newly developed S4 product with less than 10cm of a slim body and a light weight of less than 9.2kg, can produce 5,000-6,000 lumens of brightness and 4K resolution, and also present high-quality projection images in bright environment and project 300 inches of super-large screen at largest. This product is cost-effective. Based on the compact modular body of S4 platform and in conjunction with the one-button automatic stacking system, this product can achieve more brightness, larger screen and more free application.

During the reporting period, as the first Chinese enterprise independently researching and developing 3DLP high-lumen large venue projectors, during the reporting period, the Company launched the T series of high-brightness large venue projectors adopting a high-efficiency liquid cooling system and 3DLP imaging technology to achieve 33,000 lumens of high brightness. At present, this is the world's smallest

and lightest large venue projector with the same brightness range. The multi-picture splicing and fusion system is embedded in it. In addition, it has 120Hz refresh rate to support constant brightness mode, can be configured with more than 6 motorized lenses and support 360-degree installation, easy to use.

During the reporting period, the Company release the 100,000-lumen projector light, which adopted the ALPD4.0 ultra high-brightness compact light source to achieve the lighting distance of over 3km. It is used for the opening ceremony of the Winter Olympics and Lantern Festival activities, hence achieving mass production and market-based application of high-brightness projector lights.

### 3. Software

We have completed 13 version iterations for the Feng OS system. At present, over 20 mass produced household products are equipped with this system. We are leading in terms of paid members in the industry, with the penetration rate up to 26%, which is greater than Xiaomi TV, iQiyi, etc. We have completed a total of 25,000+ film and TV works and 25,000+ in-depth process of film characteristics, hence effectively supporting the effects of large-screen presentation.

During the reporting period, the Company implemented an omnidirectional automatic correction algorithm to provide customers with the intelligent auxiliary functions such as automatic obstacle avoidance and screen alignment. The Feng OS system adds machine recommendation algorithms to more pages, making it easier for users to discover their personalized preferences faster and more accurately. In March 2022, the Feng OS system took the lead in releasing the function of screen matching for taking pictures by a mobile phone, so that keystone correction may be performed by the camera in the mobile phone instead of human eyes, hence providing more intelligent and more convenient functions for uses.

### Remark

The Trichromatic Laser Display Complete Equipment Production Demonstration Line is under the “Strategic Advanced Electronic Materials” in the National Key Research and Development Programs, for which Appotronics is the undertaking unit, while and CINEAPPO are the cooperating units. The expenditure budgets planned by the three companies are RMB 95.18 million, RMB 4.22 million, and RMB 3.44 million, respectively.

### III. Analysis of core competitiveness during the reporting period

#### (I) Analysis of core competitiveness

√ Applicable □ N/A

### 1. Strong patent moat

Appotronics has created a strong patent moat around the underlying technical architecture of laser display technologies, which is hard to be bypassed by companies in the industry entering the route of laser phosphor technologies. By the end of 2021, Appotronics had a total of 2,419 patent applications and 1,434 granted patents worldwide. As the underlying key architecture technology, the ALPD® technology invented by the Company has been cited more than 600 times by industry giants such as Philips of the Netherlands, Osram of Germany, Epson of Japan, and NEC etc.

### 2. Voice in the industry supported by core devices

Since its establishment, the Company spared no effort in R&D investment, which lead to a strong technology barrier. We have been committed in the breakthroughs, innovations, expansion of application scenarios, and industrialization of laser display technology, and created technology reserves and patent portfolios covering the whole technology chain of laser display from key system architecture, core devices to key algorithm. These efforts lead to the strong voice of the Company in the laser display industry, making the Company the first choice for customers. Meanwhile, the stable base of major customers from various industries also contribute to the continuously increasing market shares of Appotronics around the world.

### 3. Forward-looking strategic layout and head start advantages

With reference to our advantages in core devices, the Company made forward-looking layout for new application scenarios, such as vehicle-mounted display, aviation display, AR, etc., to promote innovation application of core devices in new fields. Such forward-looking layout leads to the head start advantages of the Company in the racetrack, hence injecting new power for the medium- and long-term development of Appotronics and expanding more space for growth.

## (II) Events occurred during the reporting period that have a material effect on the Company's core competitiveness, analysis of the effect and countermeasures

Applicable  N/A

### IV. Risk factors

#### (I) Risk of not making a profit

Applicable  N/A

#### (II) Risk of significant decrease in operating performance or loss

Applicable  N/A

#### (III) Risk related to core competitiveness

Applicable  N/A

##### **Risk of the technology R&D and innovation falling short of expectations**

The core of our development is technical innovation. If we fail to effectively judge the direction of technical innovations, or to make continuous technical innovations, or to make effective R&D investments due to limited funds, or to successfully commercialize the technologies developed by us, our core competitiveness in technical innovation may be impaired, and we may encounter technological risks in future development.

#### (IV) Operating risk

Applicable  N/A

### **1. Risks of the COVID-19 epidemic**

The repeated outbreak of the epidemic in China may cause planned product releases, customer visits, on-site technology commissioning, etc. to be postponed or cancelled, delaying or preventing the Company from participating in exhibitions as expected, and additional difficulties in order acquisition. With respect to the supply chain, epidemic control measures lead to blocked logistics, increasing logistics costs, prolonged period for purchase of raw materials, which intensified the difficulties in supply chain management and smooth sales. The cinema projection service business of the Company may also be affected to a certain extent due to closedown of some cinemas and postponed showing of films. Epidemic prevention and control, if no improvement is achieved, may result in uncertainties for the production and operation of the Company.

### **2. Risk related to the supply of important raw materials**

Under the impact of tension in the supply chain, there are risks that core suppliers cannot supply parts promptly at the expected quality and quantity. This may slow down the growth of the Company's To C business, and postponed shipment of some core devices or complete equipment products may result in risks of failing to achieve the expected growth rate in operating performance of the Company.

### **(V) Financial risk**

√ **Applicable** □ N/A

#### **1. Risk of impairment of accounts receivable**

As of the end of the reporting period, the carrying amount of our accounts receivable was RMB 403.1345 million, accounting for 9.84% of our total assets. Our products are generally delivered after receiving the payment therefor. We give certain credit period to some major customers. In case of any material adverse change in the business condition of our customers, we may be unable to recover certain accounts receivable, which may have an adverse effect on our operating performance in the future.

#### **2. Risk of impairment of inventories**

As of the end of the reporting period, the carrying amount of our inventories was RMB 769.6211 million, accounting for 18.78% of our assets. Our inventories mainly comprise raw materials and goods in stock. If any significant change in the competition pattern of the industry, material innovation in laser display technology and products or the impact of COVID-19 results in a large quantity of unsalable products, the recoverable amount of the inventories will be lower than their carrying amount. The impairment of inventories will have a negative effect on our earnings.

#### **3. Risks of impairment of fixed assets**

As of the end of the reporting period, the carrying amount of our fixed asset was RMB 470.4105 million, accounting for 11.48% of our assets. Our fixed assets mainly consist of production equipment and cinema projector light sources for lease, where the cinema projector light sources account for 78.17%. If the COVID-19 epidemic results in prolonged closedown of cinemas, the cinema projector light sources may be idle, causing risks of impairment of fixed assets and adverse effects to the operation of the Company.

#### **4. Risks related to government grants**

During the reporting period, the Company received government grants in accordance with relevant state policies, which are special funds or wards for R&D projects. The decrease in government grants to be received by the Company in the future may result in adverse effects to the profitability and cash flow of the Company.

**(VI) Industrial risk**

Applicable  N/A

**Risk of increasingly fierce market competition**

Laser display is a new and thriving field in the display device industry. A lot of international and domestic companies have entered the field, further heating up the market competition. If we cannot maintain our competitive advantages in technology, product, cost, service and other areas, or the competitors combine their advantages and resources through acquisition and merger, or the top technology companies in the world increase their investment in the field of laser display, we may face the risks of decrease in the profitability and market share.

**(VII) Risk of macro-environment**

Applicable  N/A

The prolonged COVID-19 epidemic, constant trade friction between China and the US, and increasing geopolitical risks lead to variability, uncertainty, complexity, and vagueness for the world. The accelerated restructuring of the global economic pattern will cause constant adjustment in the industrial chain. Although China basically maintained the stable fundamental aspects of the macro economy, this cannot eliminate the potential risks that may be caused by the uncertainties in the macro economy to the development of the Company.

**(VIII) Risk related to depository receipts**

Applicable  N/A

**(IX) Other significant risks**

Applicable  N/A

**1. Risks in intellectual property rights**

In consideration of the strategy of long-lasting development, the Company always emphasizes the independent research and development of intellectual property rights, and has established a scientific R&D system and an intellectual property protection system. However, this still cannot protect the Company from malicious litigation initiated by competitors or third parties, which may hinder market expansion of the Company; and cannot avoid the possibility of other intellectual property disputes between the Company and competitors or third parties. Such disputes over intellectual property rights may cause adverse effects to the normal operating activities of the Company.

**2. Risks in implementing investment projects**

Under the impact of force majeure, such as the COVID-19 epidemic, during the process of implementing investment projects, the Company faces risks of slowing speed for production capacity expansion, delayed construction of the head office building, etc. In March 2022, the Company made postpone adjustment to investment projects according to the actual implementation conditions of investment projects. Despite the efforts of the Company in implementing the investment projects and

constantly monitoring the progress of such investment projects, in the actual implementation, this cannot avoid situation like delayed construction compared with the plan, or adjustment to the implementation plan or solution in response to industry and market development. Upon the occurrence of such circumstances, the Company will make decisions in accordance with relevant provisions and promptly fulfil its obligations for information disclosure.

### **3. Risk related to the management of cinema light source**

In the business of laser cinema projection services, we enter into an agreement with a customer, pursuant to which, we charge a service fee on the customer based on the duration of use of the light source, while the customer uses the light source and pays fees therefor, and is responsible for the day-to-day safekeeping and maintenance of the light source and damages thereto, but we do not collect any deposit or other similar fees for the light source. The cinemas will use their best endeavors to maintain the light source in good condition in order to ensure normal projection of films and continuity of their business operation. However, we still face the risk of impairment of assets due to damage or loss of light source caused by improper safekeeping on the part of the cinemas.

### **4. Risks in the arbitration with relevant parties of the participating company GDC BVI**

At present, the Company is in the process of arbitration and counter arbitration with relevant parties of GDC concerning the rights and interests of the parties. Because GDC Cayman, GDC BVI, Mr. ZHANG Wanneng and his management team violated the provisions of the *Shareholders' Agreement* and *Settlement Agreement*, including but not limited to the appointment of directors in violation of corporate governance regulations, violation of protective provisions for the Company, and failing to purchase the minimum quantity of C5 projectors and core device parts by the end of 2021. As a result, the cooperation on the purchase business for cinema hardware products between the Company and GDC BVI is subject to uncertainty. The trial of this case has not been started, the impact of such case on the profit or loss of the Company cannot be determined at present; the eventual actual impact depends on the award of the arbitration tribunal or the negotiation between the parties.

## **V. Main business activities during the reporting period**

During the reporting period, our operating income was RMB 2.498 billion, increased by 28.19% year on year; the net profits attributable to the shareholders of the listed company was RMB 233 million, up 104.98% year on year; The net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss was RMB 124 million, up by 208.46% year on year. The total assets of the Company as of the end of the reporting period was RMB 4.097 billion, up by 27.00% from the beginning of the reporting period; and the net assets attributable to shareholders of the listed company was RMB 2.438 billion, up by 16.56% from the beginning of the reporting period.

### **(I) Analysis of main business**

#### **1. Analysis of changes in statement of income and statement of cash flows lines**

| Item | In RMB                |                     |          |
|------|-----------------------|---------------------|----------|
|      | Amount of the current | Amount of the prior | % Change |
|      |                       |                     |          |

|   | period           | period           |         |
|---|------------------|------------------|---------|

| Administrative expenses                   | 187,933,417.27   | 135,757,276.26   | 38.43   |
| R&D expenses                              | 236,702,224.29   | 204,443,369.10   | 15.78   |
| Financial expenses                        | 1,300,380.36     | 9,224,974.20     | -85.90  |
| Net cash flow from operating activities   | 58,337,226.84    | 52,390,430.42    | 11.35   |
| Net cash flows from investment activities | -444,906,406.98  | 205,906,256.46   | -316.07 |
| Net cash flows from financing activities  | 295,570,009.05   | -99,126,552.86   | N/A     |

Description of reasons for changes in the operating income: primarily due to the increase in incomes from the cinema service business, core devices, and sales of household and large venue products;

Description of reasons for changes in the operating costs: primarily due to the increase of operating costs corresponding to the increase in operating incomes;

Description of reasons for changes in the selling expenses: primarily due to increased investments in own brands of the Company, which resulted in the increase in selling expenses year on year; meanwhile, the remunerations for the sales staff also increased;

Description of reasons for changes in the administrative expenses: primarily due to the equity incentive plans launched by the Company, which resulted in great increase in the share-based payment expenses; the management team expands along with the business growth of the Company, hence leading to increasing employee benefits year on year;

Description of reasons for changes in the financial expenses: primarily due to the increase in incomes of interests on the Company's deposits, and the decrease in loan costs, which lead to the decrease in interest expenses;

Description of reasons for changes in the R&D expenses: primarily due to increase in the investment of R&D personnel;

Description of reasons for changes in the net cash flows from operating activities: primarily due to collection of sales value and receipt of government grants;

Description of reasons for changes in the net cash flows from investment activities: primarily due to the purchase of structural deposits in the reporting period and expenditures for the construction of the head office building of the Company;

Description of reasons for changes in the net cash flow from financing activities: primarily due to additional bank loans in the current period and receipt of strategic investment by subsidiaries.

Detailed description of major changes in the business types, profit composition or profit sources of the Company

Description of main business by sector, product, region, and sales mode:

1. Our laser display products have been used in cinema projection, household display, education interaction, commercial application, cultural and tourism, security and surveillance, and other fields. Thanks to the high consumption demands on the domestic and overseas market and the temporary relieve of the COVID-19 epidemic, the Company achieved the year-on-year growth of 28.19% in total operating income in 2021.

2. The overall gross margin is 33.91% in 2021, up by 5.39 percentage points compared with 2020, primarily due to the adjustment made by the Company in the product portfolio. Other business mainly covers the patent license fees, development service fees, etc. received in this year.

3. With the business of the Company mainly deployed in the Chinese mainland, incomes from domestic and overseas businesses account for 92.81% and 7.19%, respectively.

4. The Company classifies the business into product sales and projection services, where the product sales are classified into direct sales, distribution, and commissioned sales.

Explanation about cost analysis

1. Sales costs mainly comprise direct materials, direct labor and indirect expenses, of which, the costs of direct materials account for 89.89%.

2. In the business of lease services, the increase in variable costs, such as technology service fees, software use fees, and human costs, are primarily due to the increase in the duration of cinema projection; depreciation of light sources is made by using the straight line method, which is irrelevant to whether they are in use, hence experienced no material change year on year.

3. Costs of other businesses increased by 210.5% year on year, primarily due to the increase in installation and transformation costs.

#### (5). Change in the scope of consolidation due to changes in equity interests held in major subsidiaries during the reporting period

Applicable  N/A

(Chongqing) Innovative Technology Co., Ltd. is a wholly-owned subsidiary established by the Company on December 29, 2020; it was not included in the scope of consolidation in 2020 since it had no substantial operating business. Supplier 3 was newly counted in the top 5 suppliers.

**3. Expenses**

Applicable  N/A

Unit: In RMB

| Item | Amount of the current period | Amount of the prior period | % Change |
|------|------------------------------|----------------------------|----------|
|------|------------------------------|----------------------------|----------|

|                         |                |                |        |
|-------------------------|----------------|----------------|--------|
| Selling expenses        | 252,854,103.31 | 133,588,234.60 | 89.28  |
| Administrative expenses | 187,933,417.27 | 135,757,276.26 | 38.43  |
| R&D expenses            | 236,702,224.29 | 204,443,369.10 | 15.78  |
| Financial expenses      | 1,300,380.36   | 9,224,974.20   | -85.90 |

(1) The total selling expenses in 2021 were RMB 252.8541 million, up by 89.28% year on year, primarily due to increased investments in own brands of the Company, which resulted in the increase in selling expenses year on year; meanwhile, the remunerations for the sales staff also increased;

(2) The total administrative expenses in 2021 were RMB 187.9334 million, up by 38.43% year on year, primarily due to the equity incentive plans launched by the Company, which resulted in great increase in the share-based payment expenses; the management team expands along with the business growth of the Company, hence leading to increasing employee benefits year on year;

(3) The total R&D expenses in 2021 were RMB 236.7022 million, up by 15.78% year on year, primarily due to increase in the investment of R&D personnel;

(4) The total financial expenses in 2021 were RMB 1.3004 million, decreased by 85.90% year on year, primarily due to the increase in incomes of interests on the Company's deposits, and the decrease in loan costs, which lead to the decrease in interest expenses.

#### 4. Cash flow

Applicable  N/A

Unit: In RMB

| Item                                      | Amount of the current period | Amount of the prior period | % Change |
|---|------------------------------|----------------------------|----------|
| Net cash flow from operating activities   | 58,337,226.84                | 52,390,430.42              | 11.35    |
| Net cash flows from investment activities | -444,906,406.98              | 205,906,256.46             | -316.07  |
| Net cash flows from financing activities  | 295,570,009.05               | -99,126,552.86             | N/A      |

Description of reasons for changes in the net cash flows from operating activities: The net cash flows from operating activities were RMB 58.3372 million, increased by RMB 5.9468 million year on year, primarily due to the increase in the sales revenue and government grants received.

Description of reasons for changes in the net cash flows from investment activities: The net cash flows from investment activities were RMB -444.9064 million, decreased by RMB 650.8127 million year on year, primarily due to the purchase of structural deposits in the reporting period and expenditures for the construction of the head office building of the Company;

Description of reasons for changes in the net cash flow from financing activities: The net cash flows from financing activities were RMB 295.5700 million, up by RMB 394.6966 million over the previous year, primarily due to additional bank loans in the current period and receipt of strategic investment by subsidiaries.

## VI. Discussion and analysis of future development of the Company

### (I) Structure and trend of the industry

√ **Applicable** □ N/A

#### 1. Main racetrack: high demands in the household racetrack

Given the obvious trend of large screens on the household display market, smart projection is on the rise for rapid growth. The IDC report shows that the shipment of household projectors in 2021 reached 3.48 million sets, up by 16%, leading to the sales value of over RMB 12.4 billion, up by 18.3%.

As one of the development priorities of China, and one of the mainstream display technologies for the future, laser display is one of the fields with support from the state. In 2021, the Ministry of Industry and Information Technology stated to enhance support for the laser display industry in accordance with the 14<sup>th</sup> Five-year Plan. In addition, there are continuous policies favorable to the smart projection market - the state encourages the “Intelligence+” consumption ecology, and encourages content supply, which will promote the release of consumer’s demands.

In the short term, the year 2022 is a major year of sports - from the Beijing Winter Olympics to the World Cup in Qatar, to the Asian Games in Hangzhou - abundant sports events will lead to high demands of consumers for large-size screens. In the medium term, in the post-economic era featuring repeated outbreaks, projectors are included as one of the products of online classes for study at home recommended by Shenzhen Health Commission; moreover, the “home economy” is also drives the sales of household film and entertainment devices, such as projectors. In the long term, young consumers, including, among others, the Generation Z pursue personalization and immersive experience, and are willing to replace TVs with projectors, or take projectors as one of the alternative options.

In addition, laser mini projectors, as a new product developed by the Company in 2021, has the advantages in brightness and color. Given the continuous expansion of the racetrack, the continuous improvement of the industrial chain, and rapid reduction in product costs, it’s expected to receive explosive growth with a huge market space.

#### 2. Racetrack for future growth:

##### (1) Promising future in the vehicle-mounted display racetrack

The extremely huge vehicle industry contains many trillion-level enterprises. According to the data of China Association of Automobile Manufacturers, China has been ranking the first in the sales volume of vehicles on the world for 13 consecutive years, and has made great progress in the transformation to electric vehicles, Internet-connected vehicles, and intelligent vehicles.

Vehicle-mounted display is one of the core fields for smart cockpits. According to the survey data of Huachuang Securities, it’s predicted that the size of the global vehicle-mounted display market will reach USD 17.7 billion in 2022. Vehicle-mounted display includes vehicle widow projection, HUD, console, and many other display application scenarios in vehicles. In vehicle-mounted applications, laser light sources can output greater brightness at higher efficiency, low heat radiation, and low consumption with a smaller size, hence it is more likely to develop into the mainstream technologies for vehicle-mounted display. The application of laser projection display in vehicles is an emerging blue-sea market; the Company has implemented cooperation for pre-shipment installations.

**(2) Emerging large-sale innovative application scenarios**

Given the compatibility between the laser display technology and cutting-edge technologies, including human-machine interaction, smart recognition, Internet of Things, cloud platform, and big data, the wide application of 5G mobile phones will create potential demands for supporting laser display products. Therefore, it's expected there will be huge market demands for supporting mobile products featuring high efficiency, small size and low cost in the future. In the short term, the trend remains unchanged in the development priority of the current display market will witness the development of laser display technology towards advantages in cost-performance ratio, high portability, high dynamic range, wide color gamut, and high brightness for integration with ultra short throw and anti-ambient light screen technologies.

**(II) Development strategy of the Company**

**Applicable**  **N/A**

Facing the future, Appotronics is dedicated to becoming a pioneer in the display industry; under the mission of “New light, New Life”, the Company insists on the strategic direction of “core technologies + core devices + application scenario” to continuously promote breakthrough innovation of laser display technologies, accelerate the expansion of application scenarios, and enhance the in-depth industrialization of laser display technologies. Focusing on the business of core devices, the Company will work with major customers to expand and strengthen the ecology of the laser display industry.

**(III) Business plan**

**Applicable**  **N/A**

In 2022, under the impact and challenge of repeated local outbreak of the epidemic, global inflation, geopolitical tension, and shortage of chips in the industry, Mr. LI Yi, founder and Chairman of the Company, returned to the first time to take the position of CEO. The Company will start the plan of dual-engine growth - with the mini projector business and core device business as the core direction for breakthrough in 2022, we can take opportunities of the industry and stimulate more growth energy for the Company.

**1. Expanding the new racetrack of laser mini projectors**

Firstly, we will minimize costs to promote popularization of such products. Laser mini projectors have the inherent advantages of “high brightness, wide color gamut, and large screen”; in the future, the Company will reduce costs through technology iteration, through optimization of the supply chain, and through scale effects, so as to reduce the retail prices of terminals, hence promoting the rapid expansion in shipment and population of laser mini projector products.

Secondly, we will implement two strategies to improve the competitive of our own-brand products. On one hand, we will implement the strategy of product matrix to release differentiated products intended for various user demands, so as to explore the smart mini projector market. On the other hand, we will implement the strategy of flagship products to actively build flagship products, take comprehensive measures in product experience, staffing, brand marketing, and channel expansion, so as to achieve

substantial breakthrough in both the brand and sales volume.

## **2. Continuous expansion of the core device business**

The Company has made obvious achievements in the field of household core devices. We have established projects for several new products, have the reservation for high-quality projects intended for overseas markets, and continuously expand the scope of partners along the ecology chain, so as to jointly expand and strengthen the ecology of the laser display industry.

We insist on the route of working with leading customers to promote the early large-scale implementation of the vehicle-mounted display business. In the future, we will work with leading customers on the pre-shipment market and post-shipment market for our vehicle-mounted products, which will be released stage by stage. Meanwhile, we will work for breakthrough in technology route to reduce costs, hence promoting the popularization of vehicle-mounted display products.

We will constantly explore new application scenarios. Besides aviation projection and AR, we will continue to explore new application scenarios to expand our core technologies and core device products to more application fields, such as smart household, 3D industry, and other fields.

Applicable  N/A

### **VII. Information not disclosed according to the standard due to inapplicability of the standard, involving State secrets or trade secrets or other reasons, and explanation about the relevant reasons**

Applicable  N/A

## Section IV Corporate Governance

### I. Corporate governance

√ Applicable □ N/A

We have continuously improved our corporate governance structure and operated in accordance with the requirement of the *Company Law*, the *Securities Law*, the *Rules Governing the Listing of Stocks on the Science and Technology Innovation Board of Shanghai Stock Exchange*, the Articles of Association (“AOA”), and relevant rules and regulations, taking into account our actual business situations, and established a corporate governance structure comprising the general meeting of shareholders, the Board of Directors, the Board of Supervisors and the management, and a mechanism in which the highest authority, the decision-making body, the supervisory body and the management coordinate with and hold up each other. We have established a sound corporate governance system, to effectively protect the interests of investors.

#### (I) Shareholders and the general meeting of shareholders

The general meeting of shareholders is the highest authority of the Company. During the reporting period, we have convened and held general meetings of shareholders in strict accordance with our AOA, the Rules of Procedure of the General Meeting of Shareholders and other applicable laws and regulations. The notices, convening, resolutions, voting, signing and information disclosures in respect of the general meeting of shareholders comply with the relevant provisions of the *Company Law*, the *Securities Law*, the CSRC and the SSE, and the resolutions of the general meeting of shareholders are legal and valid. We have fully protected the rights of all shareholders, especially the minority shareholders, and ensured that each shareholder can enjoy the right to know and participate in the affairs of the Company and exercise his voting rights according to law.

#### (II) Directors and the Board of Directors

The Board of Directors is the standing decision-making and management body of the Company, and has set up four committees, namely the Strategy Committee, the Compensation and Performance Assessment Committee, the Nomination Committee and the Audit Committee. During the reporting period, the Board of Directors has exercised its functions and powers in strict accordance with the requirements of the applicable laws and regulations, the AOA, the Rules of Procedure of the Board of Directors, and the Work Regulations for Independent Directors, and each director has been assiduous in his duties and actively received the relevant training. In order to improve the objectivity and scientificity of the decisions made by the Board of Directors, we have appointed the independent directors to participate in and supervise the decision-making process of the Board of Directors. The independent directors have performed their duties independently, actively safeguarded the interests of the Company and the shareholders, and expressed their opinions on important and material matters of the Company. The committees of the Board of Directors have fully exercised their relevant functions, to ensure that the Board of Directors makes scientific and reasonable decisions for the Company.

#### (III) Supervisors and the Board of Supervisors

The Board of Supervisors is the supervisory body of the Company and comprises three supervisors. The Board of Supervisors has exercised its functions and powers according to the procedures set forth in the AOA and the Rules of Procedure of the Board of Supervisors, effectively supervised the legal and regulatory compliance of the performance of duties by the financial staff, directors and senior officers of the Company, and actively safeguarded the interests of the Company and the shareholders.

(IV) Management of information disclosures

During the reporting period, we have disclosed the relevant information truthfully, accurately, promptly, fairly and completely, and duly performed our obligation of information disclosure in accordance with the Rules Governing the Listing of Stocks on the Sci-tech Innovation Board of the Shanghai Stock Exchange, the Administrative Measures for Information Disclosure by the Listed Companies and other applicable laws and regulations, and our Information Disclosure Policy, to ensure that all shareholders and other stakeholders have equal access to the information of the Company.

(V) Registration of insiders

During the reporting period, we have registered and filed the insiders in connection with the matters disclosed in our regular reports in strict accordance with the applicable laws and regulations and our Insider Management Policy.

During the reporting period, we have defined the respective responsibilities of the general meeting of shareholders, the Board of Directors, the Board of Supervisors and the management. According to the requirements of the Board of Directors, the management has continuously improved the management cycle “led by mechanism, guaranteed by system, guided by culture and supported by capacity”. Our management level and governance capability have been improved remarkably, providing further assurance for our healthy and sustainable development. The directors, supervisors and senior officers have been assiduous in their duties, and seriously exercised the rights and performed the obligations under the Company Law and the AOA, to ensure the safe, steady and sustainable development of the Company and safeguard the interests of the shareholders to the maximum extent practicable.

Is there major deviation in the corporate governance from laws, administrative regulations, and the regulations of CSRC on the governance of listed companies; if yes, specify the reasons.

### (III) Remunerations of directors, supervisors, senior officers and key technical staff

√ Applicable □ N/A

In RMB 0'000

|   |   |
|---|---|
| Decision-making procedure regarding the remunerations of directors, supervisors and senior officers | Pursuant to the Company's Articles of Association, the Compensation and Performance Assessment Committee consider and review the compensation policy and proposal for directors and senior officers; the compensation proposal for senior officers is implemented after being approved by the Board of Directors; the compensation proposal for directors is implemented after being adopted by the Board of Directors and then approved by the general meeting of shareholders; and the compensation proposal for supervisors is implemented after being adopted by the Board of Supervisors and then approved by the general meeting of shareholders. |
| Basis for determining the remunerations of  | The Company's directors and supervisors who hold posts in the Company shall receive remunerations for such  |

|  |  |
|--|--|
| directors, supervisors and senior officers   | posts pursuant to the relevant provisions of the Company, but will not receive remunerations in their capacity as director or supervisor. Each independent director will receive a fixed amount of director's emoluments. Non-independent directors not holding posts in the Company will receive director's emoluments pursuant to the compensation proposal approved by the general meeting of shareholders. Remunerations paid to senior officers comprise salaries and bonuses, where the salaries are paid on a monthly basis according to the ranks and duties of the senior officers, and the bonuses are paid according to the operating results of the Company and their performance in the given year. |
| Remunerations actually paid to directors, supervisors and senior officers                                    | During the reporting period, the remunerations actually paid to directors, supervisors and senior officers are consistent with the relevant information disclosed by the Company.  |
| Total remunerations paid to directors, supervisors and senior officers as of the end of the reporting period | 1,234.62   |
| Total remunerations paid to key technical staff as of the end of the reporting period                        | 800.19   |

Note: Dr. LI Yi, Chairman of the Company, and Dr. HU Fei, former Deputy General Manager of the Company, are key technical staff of the Company, and the remunerations actually paid to key technical staff as of the end of the reporting period contain their remunerations.

#### (IV) Changes in directors, supervisors, senior officers and key technical staff

| Total   | 1,565               |

**(II) Compensation policy**

Applicable  N/A

The Company has designed a comprehensive remuneration system based on posts, competence, and performance according to internationally universal remuneration system designing ideas and approaches with reference to the strategic objectives, talent strategy, market competition, and other factors, of the Company.

The Company has always advocated joint innovation, sharing, and result-orientation, and continuously optimizes its incentive policies to gradually implement differentiated incentives for different businesses and groups, hence motivating employees to make sustainable efforts focusing on the business and customer needs to create value for customers; meanwhile, the Company enhances the management over qualifications to improve employees' professional competence and contributions for performance to enhance the sense of gain by employees along with the development of the Company; the Company cares about employees by providing comprehensive benefits, hence building a better working and living environment for employees.

**(III) Training programs**

Applicable  N/A

The Company achieved outstanding achievements in the development of training and learning products in recent years. The Appotronics "R&D Management Training Camp" in 2021, which

participated for the first time in the 6<sup>th</sup> Learning Design Competition conducted by China Society for Talent Development (CSTD) won the silver award and the most popularity award, continuously assists in the talent building of the Company by providing high-quality “resources” to effectively support the sound development of the Company.

In 2021, Appotronics’ learning system operated smoothly by integrating a series of company-level training programs, center-level general capability training, and department-level professional capability training, hence effectively support both the organizations and individuals to make improvement and achieve performance objectives. We achieved the score of 9 out of 10 in the overall employee satisfaction for training. We organized 574 training sessions lasting for a total of nearly 12,000 hours involving nearly 5,500 participants this year. 90% trainees responded that the learning courses they participated are very helpful for improving their personal performance; the trainees stated that 70-80% knowledge and content are effectively transferred and put into practice, which meet their needs both for personal competence of employees and the competence improvement of the organizations.

In 2021, the Company continued the efforts for building the lecturer system. Nearly 300 internal lecturers went to the stage, including 29 persons participating in the procedure of internal training lecturer review and got promoted to intermediate lecturers. Every one worked actively to share the courses within their departments or crossing teams. The system of internal lecturers provides a stage for backbone employees to share their knowledge and experience, and helps to cultivate the team atmosphere of sharing with and learning from each other.

2022 will be a new stage for us to improve our training system - with the core objective of improving the organization performance and product development intended for solving problems, we will empower key personnel with capabilities to solve actual problems and develop various professional knowledge/skill courses for backbone elites in various fields. By the wide use of a digital platform, we may effectively operate the knowledge assets of Appotronics by explicitly revealing implicit knowledge in a centralized manner, so as to achieve technology sharing and exchange more effectively, promote technological innovation and transformation, build a learning organization, and assist in talent training and development, hence assisting the leap-forward development of the Company by talent reservation.

| Total remunerations paid to outsourced workers | RMB 7,321,162.63 |

## XII. Proposals for profit distribution and capitalization of the capital reserve

### (I) Establishment, implementation or adjustment of the cash dividend policy

Applicable  N/A

#### 1. Cash dividend policy

Pursuant to our Articles of Association and the Statement of Appotronics Corporation Limited Regarding the Initial Public Offering of RMB-denominated Ordinary Shares (A-shares) and the Plan for Distribution of Dividends to Shareholders within Three Years Following the Listing on the STAR Market,

we will focus on long-term and sustainable development, and establish a clear profit distribution policy taking into consideration our strategic development plan, actual business situation, development objectives, future profitability, status of cash flows, shareholder return, cost of social capital, external financing environment and other relevant factors, and the balance between the reasonable returns on investment for shareholders and our sustainable development, to ensure the consistency and stability of the profit distribution policy and ensure that we are able to operate continuously and healthily in the long run.

Subject to the satisfaction of the conditions for distributing cash dividends, we will distribute not less than 10% of the distributable profit made in each year in cash.

The Board of Directors will adopt the following differential cash dividend policy according to the procedures set forth in our Articles of Association, giving comprehensive consideration to the characteristics of the industry in which we operate, our development stage, business model and earnings, material capital expenditure arrangements and other relevant factors:

(1) If the Company is at the mature stage and does not have any material capital expenditure arrangement, at least 80% of the distributable profit will be distributed in cash;

(2) If the Company is at the mature stage and has certain material capital expenditure arrangements, at least 40% of the distributable profit will be distributed in cash; or

(3) If the Company is at the growth stage and has certain material capital expenditure arrangements, at least 20% of the distributable profit will be distributed in cash.

If it is hard to determine the development stage but there are certain material capital expenditure arrangements, the policy set forth above may apply.

We will formulate or adjust the shareholder returns plan subject to the profit distribution policy set forth above, according to our actual situations and the opinions of the shareholders (in particular, the minority shareholders) and the independent directors.

## **2. Preliminary plan on profit distribution for 2021**

According to our 2021 consolidated financial statements as audited by Pan-China Certified Public Accountants (Special General Partnership), Apptronics Corporation Limited (hereinafter referred to as the Company) realized the net profit of RMB 221,534,817.14 in the consolidated financial statements for 2021, of which the net profit attributable to owners of the parent company is RMB 233,364,344.09, and the distributable profit of the parent company is RMB 453,996,135.72.

In accordance with the provision of the *Notice of China Securities Regulatory Commission on Further Implementing Cash Dividend Distribution by Listed Companies*, the *Guidelines of Shanghai Stock Exchange on Cash Dividend Distribution by Listed Companies*, *Regulatory Guidelines for Listed Companies No. 3 - Cash Dividend Distribution by Listed Companies*, and the *Articles of Association*, in consideration of the current overall operation and development stage, the Company proposes to distribute the cash dividend of RMB 1.05 (tax-inclusive) per 10 shares to all shareholders on the basis of the total shares on the record date of interest distribution for 2021, deducted by shares in the special securities account for repurchase by the Company. As of April 25, 2022, the Company has a total of 452,756,901 shares and 0 shares in the special securities account for repurchase, leading to the total cash dividend of

RMB 47,539,474.61 (tax-inclusive). The cash dividends proposed by the Company for this year account for 20.37% of the net profits attributable to the shareholders of the listed company in the current consolidated financial statements of the Company. No capitalization of the capital reserve or bonus shares will be made or distributed in the profit distribution.

In the event of any change in the total shares of the Company after deducting the shares in the special securities account for repurchase by the Company due to relevant events prior to the record date of interest distribution, the Company intends to keep the total amount of distribution unchanged while correspondingly change the distribution proportion for each share. In the event of changes in the total shares, an announcement will be separately released to disclose the specific adjustment.

Reasons for distribution of cash dividends lower than 30% of the distributable profit: Being in the growth stage, the Company needs a large amount of funds. We plan to use the undistributed profit to satisfy the working capital requirements in our R&D and marketing activities and day-to-day management, and support the implementation of our medium-to-long term development strategy and continuous and healthy development.

The profit distribution proposal for the year of 2021 has been approved at the 11<sup>th</sup> meeting of the second Board of Directors and the 10<sup>th</sup> meeting of the second Board of Supervisors of the Company. The independent directors of the Company have reviewed the preliminary plan on profit distribution, expressed their independent opinions on and given explicit consent to the proposal. The preliminary plan for profit distribution is still subject to approval at the general meeting of shareholders of the Company.

### 3. Implementation of the policy on cash dividend distribution

During the reporting period, the Company has strictly complied with the dividend principles and policies. Our dividend distribution criteria and ratio are clear, and the relevant decision-making procedures and mechanism comply with the applicable regulations. Our independent directors have duly performed their duties in the review of the preliminary plan on profit distribution by the Board of Directors, to ensure that the legitimate rights and interests of the minority shareholders are fully protected.

#### (II) Special explanation about the cash dividend policy

#### (III) If the Company made a profit in the reporting period and there's profit distributable by the parent company to the shareholders, but the Company does not propose to distribute profits in cash, the Company shall explain the reason in detail and use of the undistributed profit.

Applicable  N/A

### XIII.Share incentive plan, employee stock ownership plan and other employee incentive measures of the Company and their effect

#### (I) Overview of share incentives

√ Applicable □ N/A

#### 1.Share incentive plan during the reporting period

In RMB

| Name of plan                                | Type of incentive         | Number of target shares | Proportion of target shares (%) | Number of grantees | Proportion of grantees (%) | Price of target shares granted |
|---|---------------------------|-------------------------|---------------------------------|--------------------|----------------------------|--------------------------------|
| 2019 Restricted Share Incentive Plan        | Type II restricted shares | 5,500,000               | 1.21                            | 206                | 17.61                      | 17.37                          |
| 2021 Restricted Share Incentive Plan        | Type II restricted shares | 18,500,000              | 4.09                            | 224                | 19.15                      | 17.445; 18.445; 20.945         |
| 2021 Second Restricted Share Incentive Plan | Type II restricted shares | 10,500,000              | 2.32                            | 55                 | 4.70                       | 20.00; 23.00                   |

Note: (1) The proportion of grantees is calculated with the total number of employees of the Company as of December 31, 2020 described in the 2020 Annual Report as the denominator;

(2) The price at which the target shares are granted under the equity incentive plan above has been adjusted according to the implementation of past profit distributions.

#### 2.Implementation progress of the share incentive during the reporting period

√ Applicable □ N/A

1. On March 26, 2021, the Company held the 30<sup>th</sup> meeting of the first Board of Directors and the 17<sup>th</sup> meeting of the first Board of Supervisors, which reviewed and passed the *Proposal on the “2021 Restricted Share Incentive Plan (Draft)” and Summary Thereof* and the *Proposal on the Management Measures for the Appraisal of the “2021 Restrict Share Incentive Plan”*.

The incentive plan grants 18.5000 million restricted shares, accounting for 4.09% of the total amount share capital 452.7569 million shares of the Company at the time of releasing the draft of the incentive plan, including 17.1000 million shares granted for the first time, accounting for 3.78% of the total share capital of 452.7569 million shares of the Company as of the announcement date of the incentive plan, and 1.4000 million shares reserved, account for 0.31% of the total share capital of 452.7569 million shares of the Company as of the announcement date of the incentive plan. There are a total of 224 new grantees of share incentives under the incentive plan.

2. On April 22, 2021, the Company held the 31<sup>st</sup> meeting of the first Board of Directors and the 18<sup>th</sup> meeting of the first Board of Supervisors, which reviewed and passed the *Proposal on the Adjustment of the 2021 Restricted Share Incentive Plan* and the *Proposal on Initial Grant of Restricted Shares*.

(1) Given that 1 grantee determined in the incentive plan left the company and 3 grantees decided not to participate in the incentive plan due to personal reasons, after the adjustment, the number of grantees

under the incentive plan is changed from 224 persons to 220 persons, while the total 18.5000 million restricted shares granted and 17.1000 million restricted shares granted initially shall remain unchanged.

(2) Since the conditions provided in the incentive plan for granting the restricted shares have been satisfied, it's determined that 17.1000 million restricted shares were granted to 220 grantees who met the grant conditions on the grant date of April 22, 2021.

3. On September 30, 2021, the Company held the 3<sup>rd</sup> meeting of the second Board of Directors and the 3<sup>rd</sup> meeting of the second Board of Supervisors, which reviewed and passed the *Proposal on the "2021 Second Restricted Share Incentive Plan (Draft)" and Summary Thereof* and the *Proposal on the Management Measures for the Appraisal of the "2021 Second Restrict Share Incentive Plan"*.

The 2021 Second Restricted Share Incentive Plan grants 10.5000 million restricted shares, accounting for 2.32% of the total amount share capital 452.7569 million shares of the Company at the time of releasing the draft of the incentive plan, including 8.4000 million shares granted for the first time, accounting for 1.86% of the total share capital of 452.7569 million shares of the Company as of the announcement date of the incentive plan, and 2.1000 million shares reserved, account for 0.46% of the total share capital of 452.7569 million shares of the Company as of the announcement date of the incentive plan. There are a total of 55 new grantees of share incentives under the incentive plan.

4. On October 22, 2021, the Company held the 4<sup>th</sup> meeting of the second Board of Directors and the 4<sup>th</sup> meeting of the second Board of Supervisors, which reviewed and passed the *Proposal on Discarding Certain Restricted Shares Granted but Not Vested*.

(1) Considering that 1 grantee of share incentives in the initial grant under the 2019 Restricted Share Incentive Plan have left the Company, and 1 grantee has become a supervisor of the Company, in accordance with the relevant provisions of the *2019 Restricted Share Incentive Plan (Draft)*, such grantees are no longer qualified as grantees. Therefore, the restricted shares granted but not vested should not be vested, but should be invalidated by the Company.

(2) The *2019 Restricted Share Incentive Plan (Draft)* and the *Management Measures for the Appraisal of the 2019 Restricted Share Incentive Plan*, specified the vesting conditions that "with the operating income of 2018 as the basis, the growth rate of 2020 shall be no less than 50%". According to the audited Annual Report 2020 of the Company, the growth rate in operating income failed to reach this indicator. As a result, the Board of Directors of the Company decided to discard the restricted shares that cannot be vested this time.

5. On December 7, 2021, the Company held the 6<sup>th</sup> meeting of the second Board of Directors and the 6<sup>th</sup> meeting of the second Board of Supervisors, which reviewed and passed the *Proposal on Initial Granting Restricted Shares to Grantees*.

Since the conditions provided in the second restricted share incentive plan for granting the restricted shares have been satisfied, it's determined that 8.4000 million restricted shares were granted to 55 grantees who met the grant conditions on the grant date of December 7, 2021.

**3.Share-based payment recognized due to the share incentive during the reporting period**

In RMB

|   |               |
|---|---------------|
| Total share-based payment recognized for the current period | 63,345,172.32 |
|---|---------------|

**(II) Incentives already disclosed in the interim announcements about which no new information is available**

Whether an auditor's report on internal controls has been disclosed: Yes

Opinions in the audit report on internal controls: Standard unqualified opinion

**XVII. Rectification of issues detected during the self-inspection of governance of the listed company**

Issue existing and reasons thereof: After sorting out the attendance of the general meeting by directors, supervisors, and senior officers, it's detected that some senior officers were absent from the general meeting due to business or other reasons.

Specific rectification: Upon detection of such an issue, the Company has required relevant senior officers to submit a supplementary Request for Absence. In order to further improve the procedures for the attendance of directors, supervisors, and senior officers as voting or non-voting participants, the Company will send an attendance notice to directors, supervisors, and senior officers prior to each general meeting; any director, supervisor, or senior officer who cannot attend the general meeting due to business or other reasons shall submit a statement on request for absence signed in person, which request for

absence shall be retained by the office of the Board of Directors. The Company implemented such rectification measures in May 2021, and the directors, supervisors, and senior officers supported and cooperated in the rectification; the rectification measures were properly implemented in subsequent general meetings of the Company.

## Section V Environment, Social Responsibility, and Other Corporate Governance

### I. Statement of the Board of Directors on ESG

The Company attaches great importance to ESG matters. Since its listing in 2019, the Company has released social responsibility reports for two consecutive years, and incorporated the social value as a corporate citizen into its daily operating activities to build a model for the laser display industry; moreover, the social responsibility report has been upgraded to the more comprehensive strategic management of environment, society, and corporate governance during the reporting period.

In order to effectively implement ESG efforts, the Company has gradually established and improved an integrated ESG management, communication, and coordination mechanism. The Chairman, as the first responsible person, is responsible for reviewing and deciding the strategy and objective of the Company's ESG efforts; and the functional departments, business departments, subsidiaries, and branches are responsible for making corresponding working objectives and plans to implement the Company's strategy, and to keep communication with internal and external stakeholders. This results in an approach featuring review and decision-making, coordination and supervision, and step-by-step implementation.

#### (I) Striving to achieve the carbon peaking and carbon neutrality goals by green technologies

The Company created the ALPD® phosphor laser display technology in 2007. Compared with conventional display technologies, this technology has advantages of high brightness, wide color gamut, high contrast, high reliability, high light effect, energy conservation, and environment friendliness. We develop green products by making use of such green technology to achieve technological industrialization.

As of December 31, 2021, the Company has achieved over 2.5 installations of the laser projection solution in China, creating “win-win” solutions intended for both economic benefits and environment protection benefits for customer. According to incomplete statistics, ALPD® laser projection solutions ran 188 million hours in total, saving a total of 338 million kWh power consumption, and reducing about 148 million cubic meters of carbon dioxide emissions arising from power generation, which established an industry model for energy conservation and emission reduction to achieve the “carbon neutrality” goals.

Moreover, given the great importance attached to environment protection management, we have no environmental violations in 2021, with the total emissions of waste gas and wastewater not exceeding the standards. We implement the green operation philosophy by continuously improving production processes to strive for energy conservation and consumption reduction; improve the rate of resource recycling and utilization by “trade-in” practices; and advocate thrift and green office among employees.

#### (II) Fulfilling responsibilities actively to serve society

The Company attaches great importance to its responsibilities as a corporate citizen. Holding technological innovation as the sole of the Company's development, the Company continuously promotes technological innovation and transformation of achievements by laying out the industrial chain around the innovation chain. During the reporting period, the Company released new applications of laser display in aviation, vehicle display, and other fields, and entered into cooperation with leading enterprises like Airbus,

Huawei, etc. to fulfill its responsibilities in striving for breakthrough for the industry as the leader in the laser display industry.

With emphasis on the protection of intellectual property rights, the Company has won the Gold Award of Guangdong Patent Award for four consecutive years to widen the patent moat.

The Company actively advocates and always implements the value concept of being “people-oriented” and insists on equal opportunity for employment. We establish a series of formal and informal communication methods such as the trade union employee representative conference, quarterly employee communication conference, democratic life meeting, new employee colloquium, performance counseling and evaluation communication, so as to actively encourage our employees to participate in corporate management; moreover, the Company launched two restricted share incentive plans during the reporting period. We establish a learning and exchange platform for employees to cultivate all-round talents required by our business, thus achieving a win-win result of corporate development and personal development.

With adherence to engage in social welfare deeply, the Company continuously promotes the popularization of scientific knowledge. During the reporting period, the Company supported Shenzhen government for the urban strategic construction of a “child-friendly city”, receiving 5 batches of 97 visitors from the Children’s Public Welfare Visit Project of the Children’s Science Alliance in Nanshan District, Shenzhen. We actively convey love and warmth to the society, and make contributions to the establishment of adolescent creative space which acts as a local service site for the young in Qianxi City, Guizhou Province, as to help revitalize rural talents. We strive to realize the integration of corporate business value and social value to gives back to the society with practical actions.

#### (III) Improving governance for long-lasting operation

The Company has established a diversified governance structure to fully mobilize the resources of all parties for coordination and continuously raise the level of corporate governance. The Board of Directors has four special committees established under it, namely, the Strategy Committee, the Compensation and Performance Assessment Committee, the Nomination Committee, and the Audit Committee, which are responsible for monitoring specific tasks of the Company and assisting the Board of Directors in performing its duties, hence ensuring diligent and efficient decision-making of the Company. The Company establishes good investor relations by disclosing corporate information in a true, accurate, complete and timely manner, and establishing a sound mechanism for the protection of shareholders’ rights and interests. We insist on thinking about worst-case scenarios and strengthening red-line awareness, and incorporate risk prevention and control into the whole process of enterprise operation to safeguard the long-lasting operation of the Company.

#### (IV) Striving for innovation in fulfilling responsibilities for safety management

In 2021, the Company continued to improve the safety management mechanism and promote the safety production system construction. We set up a safety management committee with a safety management committee office, and arrange the Company’s R&D center and supply chain center to be responsible for the specific implementation. We promote the Company’s headquarters platform and R&D assessment department to sign the safety responsibility letter with the signing rate reaching 100%. At the

same time, we have completed the safety hazards investigation and remediation and the preparation of emergency plans for production safety accidents, and obtained the “Safety Production Standardization Certificate” issued by the Safety Production Association of Nanshan District, Shenzhen in April 2021, which promoted the Company’s safety production standardization.

The Company has disclosed its 2021 Environmental, Social and Governance (ESG) Report on the website of Shanghai Stock Exchange (www.sse.com.cn) on April 27, 2022. For details, please refer to such report.

## **II. Environment**

### **(I) Whether the Company is a major polluter identified by the environmental protection authority**

Yes  No

The Company mainly engages in the research, development, production and sales of laser display core devices and complete machines and application of laser display technology to different scenarios based on ALPD® laser display technology and architecture, and provides laser cinema projection services. During the reporting period, the Company has no production or operating entity included in the list of major polluters identified by the environmental protection authority.

### **(II) Administrative penalties imposed due to environmental issues during the reporting period**

During the reporting period, the Company experienced no administrative penalty imposed due to environmental issues.

### **(III) Information of resource and energy consumption and emissions**

Applicable  N/A

The Company mainly engages in the research, production, and sales of core devices and terminal products for laser display, which is a low energy consumption industry. During its production and daily operation, the Company mainly consumes electricity, water, and other resources, and mainly emits waste gas and waste water. During the reporting period, the Company has no environmental violations with the total emissions of waste gas and wastewater not exceeding the standards. Moreover, the laser display technology developed by the Company is a green technology, which can help other enterprises in energy conservation and emission reduction.

#### **1. Green-house gas emission**

Applicable  N/A

The Company does not directly emit carbon dioxide, methane, or other green-house gases in its daily production activities. However, the Company consumes electricity and other resources, which are in the scope of equivalent emission of green-house gas. The Company strives to reduce carbon emission by innovating production technologies, advocating green office, etc.

#### **2. Energy and resource consumption**

Applicable  N/A

Focused on innovative production technology, the Company has achieved low-carbon and environmental-friendly production by improving production efficiency and process. In 2021, for the Company’s Shenzhen Bao’an Plant, the average water consumption and the average electricity consumption per product decreased by 33.33% and 28.61% on a year-on-year basis respectively, and the working hours for manufacturing a product decreased by 18%.

During the reporting period, given the great increase in office staff of the Company and the lease of an additional floor of office space, the Company emphasizes the improvement of utilization efficiency in the consumption of water, electricity, and other major resources to minimize energy consumption. The specific environmental performance is as follows:

| Indicator                                 | Unit | 2020    | 2021   | Year-on-year decrease |
|---|------|---------|--------|-----------------------|
| Office water consumption per capita       | Ton  | 8.20    | 8.10   | 1.17%                 |
| Office electricity consumption per capita | kWh  | 1066.35 | 963.24 | 9.67%                 |

### 3. Emission of wastes and pollutants

Applicable  N/A

In 2021, the Company has no environmental violations, with the total emissions of waste gas and wastewater not exceeding the standards, and all discharge indicators achieving 100% compliance rate.

#### Management regulations of the Company for environment protection

Applicable  N/A

In strict compliance with requirements in the *Environmental Protection Law of the People's Republic of China* and other laws and regulations, Apptronics strengthens environmental management in multiple dimensions, such as organization, supervision and assessment, statistical accounting of indicators, education and training, hidden danger investigation and control, and accident emergency response plans, as to minimize the impact of our operations on the environment.

#### (IV) Measures taken to reduce carbon emissions during the reporting period and their effect

Applicable  N/A

During the reporting period, the Company established an online work platform system, through which we cooperated with I-Yin Technology to conduct electronic printing sheet for contract seal, so that we eliminated the printing link and saved paper costs effectively. Meanwhile, through the SaaS cloud service operation model in the Company's ERP/CRM system, we achieved an 11% reduction in overall energy saving and emission reduction for the internal data center in terms of server energy consumption, storage service energy consumption, air conditioning energy and emission, and network energy consumption.

#### (V) New technologies, new products, and new services for carbon emission reduction

Applicable  N/A

The Company has always attached great importance to the research and development of environmental-friendly products, and is committed to providing customers with product solutions with environmental benefits. As of December 31, 2021, more than 25,000 sets of ALPD® laser projection solutions of CINEAPPO, a subsidiary of the Company, have been installed in total. The ALPD® laser projection solutions ran 188 million hours in total, saving a total of 338 million kWh power consumption, and reducing about 148 million cubic meters of carbon dioxide emissions arising from power generation.

## **(VI) Relevant information conducive to protecting ecology, preventing pollution and fulfilling environmental responsibilities**

√ Applicable □ N/A

The Company attaches importance to improving the efficiency of resource use and ensures the resources are used efficiently, so as to reduce the effect of production and operation to environment.

During the reporting period, , a controlled subsidiary of the Company, launched the “trade-in” function through its mini program, which may help improve the overall energy efficiency of home appliances, reduce environmental pollution, and use recyclable steel, non-ferrous metals, plastics and rubber in waste home appliances fully and effectively, thus promoting the development of recycling economy. This measure is conducive to improving the efficiency of energy resources utilization, reducing environmental pollution, and promoting energy conservation, emission reduction and recycling economy development.

### **III. Performance of social responsibilities**

#### **(I) Social contributions of the main business and industry key indicators**

The Company mainly engages in the research, development, production and sales of laser display core devices and complete machines based on ALPD® laser display technology and architecture. The Company created the ALPD® phosphor laser display technology in 2007, which can emit high-quality high-brightness light with a small volume. This technology is considered to be a core technology for next-generation mobile display technologies represented by AR, and therefore has great market potential. From the viewpoint of technology leadership, this technology has become the mainstream technology in the field of laser display, and as the underlying key architecture technology, has been cited more than 600 times by industry giants such as Philips of the Netherlands, Osram of Germany, Epson of Japan, and NEC etc.

At the national level, the laser display industry has always been one of the focuses of the state, from the 863 Program (National High-tech R&D Program) which included laser display in the 1980s, to the Development Plan for National Strategic Emerging Industry in the 12<sup>th</sup> Five-year Plan, to the New Display and Strategic Electronic Materials of the Ministry of Science and Technology and other key projects in the 14<sup>th</sup> Five-year Plan listing laser display, new display, and the third-generation in 2021, and the National Key Research and Development Programs of the Ministry of Science and Technology containing laser display for chips in 2021. The ALPD® laser display technology of the Company not only broke the monopoly of foreign enterprises, but also maintained the leading position of the Chinese technology throughout the world.

As a leader in the laser display industry, the Company took the lead in undertaking the “RGB Laser Display Machine Product Model Line” supported by the National Key R&D Program of China. On the basis of the ALPD® laser display technology, at the end of 2019, the laser phosphor digital cinema projector developed by the Company for the first time in China and certified according to the DCI standard - C5 was put into mass production, introducing the technology from China for the digital cinema industry.

The Company fully utilized its leading advantages to integrate the industry chain from the upstream to the downstream, and provides core devices or complete equipment to XGIMI, Dangbei, Anker, VAVA,

and many other enterprises to promote the development of the industry. As the only Chinese brand in the Laser Illuminated Projector Association (LIPA), the Company speaks for Chinese technologies. Moreover, the Company took lead in formulating multiple industrial standards for laser TVs, smart projection, etc. to promote the formulation and implementation of national standards for laser safety.

## (II) Types of and contributions for public charity activities

| Type                           | Quantity | Remark   |
|--------------------------------|----------|--|
| Rural revitalization           | /        | None   |
| Where: Funds (RMB 0'000)       | /        | None   |
| Value of materials (RMB 0'000) | 8        | Donated laser display devices to make contributions to the establishment of adolescent creative space which acts as a local service site for the young in Qianxi City, Guizhou Province, as to help revitalize rural talents |

### 1. Specific information about public charity activities

Applicable  N/A

With adherence to engage in social welfare deeply, the Company continues to promote the popularization of scientific knowledge, pay attention to social disadvantaged groups, and actively conveys love and warmth to the society, striving to realize the integration of corporate business value and social value to gives back to the society with practical actions.

During the reporting period, the Company supported Shenzhen government for the urban strategic construction of a “child-friendly city”, receiving 5 batches of 97 visitors from the Children’s Public Welfare Visit Project of the Children’s Science Alliance in Nanshan District, Shenzhen. The Company vigorously promote the traditional virtues of the Chinese nation, actively advocate all employees to offer care, help and condolence to the elderly, the disabled, the left-behind children and other special groups, so as to convey the public welfare concepts and actions of Appotronics.

### 2. Information on consolidation and expansion of the results of poverty alleviation, rural revitalization and other specific work

Applicable  N/A

To actively respond to the national policy of “culture-to-the countryside activity” and support the rural film projections, the Company develops two models of laser light source cinema projection equipment, which can realize mobile movie screening or fixed screening in vast rural areas, and helps the revitalization of rural culture using advanced laser display technology.

At the same time, the Company actively supports and guides young people to start their own businesses and create employment appropriately by virtue of its own industry resources and advantages, and makes contributions to the establishment of adolescent creative space which acts as a local service site for the young in Qianxi City, Guizhou Province, as to help revitalize rural talents.

## (III) Protection of the rights and interests of shareholders and creditors

During the reporting period, the Company continuously improved its corporate governance structure focusing on regulated operation of the Company in accordance with the requirements of laws and regulations, including the *Company Law* and the *Securities Law*. The Company has established a

diversified governance structure to fully mobilize the resources of all parties for coordination and continuously raise the level of corporate governance.

The Board of Directors of the Company is mainly responsible for formulating overall strategies and policies of the group, setting performance and management goals, assessing the performance of the businesses, and supervising the performance of the management. The Board of Directors has four special committees established under it, namely, the Strategy Committee, the Compensation and Performance Assessment Committee, the Nomination Committee, and the Audit Committee, which are responsible for monitoring specific tasks of the Company and assisting the Board of Directors in performing its duties, hence ensuring diligent and efficient decision-making of the Company.

#### **(IV) Protection of the rights and interests of employees**

We strictly abide by the *Labor Law of the People's Republic of China*, the *Contract Law of the People's Republic of China* and other laws and regulations, eliminate the employment of child labor and other forced labor, and combat harassment and abuse. With great attention to the employment of persons with disabilities, we actively create jobs to promote the employment of the disabled, and strive to build a diverse and inclusive talent team. With adherence to equal employment, we treat employees fairly regardless of nationalities, races, religions, genders and ages, and create a diverse, inclusive, fair and reasonable work environment for employees. We insist on equal pay for equal work and execute employment contracts with employees in accordance with the law.

During the reporting period, despite complicated impact from the COVID-19 epidemic, we actively responded to the national deployment of “stabilizing employment”. The total number of our employees reached 1,565, up nearly 34% over that of the previous year.

We attach great importance to the demands and opinions of employees, and continue to improve the channels and mechanisms for communication. At the company level, we establish a series of formal and informal communication methods such as trade union employee representative conference, quarterly employee communication conference, democratic life meeting, new employee colloquium, performance counseling and evaluation communication, so as to actively encourage our employees to participate in corporate management, and safeguard employees' rights to information and participation.

The Company places talent development at a strategic height. We evaluate and select talents by using scientific methods, cultivate talents in all aspects and at multiple levels, fully tap the potential of employees, improve the professional ability and leadership of employees at all levels, and build career development channels for employees, so as to promote the continuous growth of employees. During the reporting period, the Company launched two restricted share incentive plans.

With adherence to the employee-oriented concept, the Company cares for the work and life of every employee, pays attention to solving the problems that employees care about, and improves the working environment for employees. We actively carry out entertainment and leisure activities according to the employees' needs, and provide irregular condolences to employees in financial difficulties, so that employees can truly feel the warmth of “home”. We care about the health and safety of employees, and

take all measures to prevent occupational hazards, striving to create a safe and comfortable working environment for employees.

#### **Employee share ownership**

|   |          |
|---|----------|
| Number of employees owning shares (persons)                           | 228      |
| Ratio of employees owning shares to the total number of employees (%) | 14.57    |
| Number of shares owned by employees (0'000 shares)                    | 2,536.45 |
| Ratio of shares owned by employees to the total share capital (%)     | 5.6      |

#### **(V) Protection of the rights and interests of suppliers, customers and consumers**

The Company attaches great importance to cooperation with suppliers and strategic partners. We actively implement clean and responsible procurement, choose to purchase environmentally friendly raw materials, actively deploy core areas and links of the industrial chain and deem them as an important component of the Company's production and operation. By strengthening the management of suppliers' corporate responsibility and standardizing procurement transactions, we have improved sustainable competitiveness of the supply chain. We are working together with our suppliers to develop and build a responsible value chain.

The Company focuses on the authenticity and compliance of the Company's products and services, we strengthen comprehensive product training for publicity channel personnel, introduce product parameters and services in a true and objective manner, and specify in the contract that after-sales and similar terms are restricted and protected by laws and regulations, so as to ensure that the product and service information provided to the market and society is compliant, truthful and transparent.

#### **(VI) Product safety**

In order to provide the public with safer and more assured products with better quality, the Company has established a DQA laboratory with a safety testing laboratory in strict accordance with relevant international standards, which is fully responsible for product design quality assurance and safety assurance. The design quality and safety testing assurance capabilities of the DQA laboratory have been recognized by various world authoritative certification and testing organizations such as CNAS, UL, TUV, ITS, etc., demonstrating positive actions and effective practices made by Appotronics in building a safer, more reliable world under sustainable development. At the same time, Appotronics attaches great importance to the safe use of products by customers, and actively popularize product function and risk knowledge to domestic and foreign customers by carrying out knowledge lectures, special education and training, and other activities, so as to eliminate safety risks and raise product service levels.

#### **(VII) Other information about the performance of social responsibilities**

√ Applicable □ N/A

As an industry leader in the laser display industry, the Company actively carries out cross-border cooperation to build a wide range of cooperation platforms, and strives to cooperate sincerely with important cities, key enterprises, scientific research institutions, and financial institutions for mutual

benefits and common development, so as to support for the sustainable development of economy and society.

For cooperation with city governments, during the reporting period, the Company cooperated with Chongqing, Chengdu, Hangzhou, Xining and other cities to jointly explore more excellent light and shadow effects, energize and invigorate economic development of cities, and help create characteristic business cards.

For cooperation with universities, the Company funded the Photoelectric Design Competition of Shenzhen University in order to support college students to explore and research photoelectric science; moreover, the Company worked with cooperative universities and research institutes to further promote the integration of production, education, research and application.

For cooperation with other enterprises, the Company reached a strategic cooperation with Airbus, and demonstrated laser product prototypes that can be applied in the field of civil aviation display in Zhuhai Airshow for the first time. Giving full play to respective professional advantages, we have explored a more efficient, pragmatic and innovative cooperation model with relevant industry leading enterprises.

#### **IV. Other corporate governance**

##### **(I) Party building**

Applicable  N/A

The Party organization of the Company was established in September 2016, and was upgraded into a Party Committee in September 2020. As of the end of the reporting period, the Party Committee has 4 Party branches and 63 Party members.

In recent years, the Party Committee of the Company emphasized “three combinations”, that is, the combination of Party building efforts with the operating goals of the Company, with the corporate culture building, and with the practice of social responsibilities, so as to give full play to the role of Party members leading and setting a model and the safeguarding role of the Party organization. We insisted on the driving force based on innovation and substantial strength improvement by technologies, hence making our contributions as a private company in the independent technology development of the “Shenzhen team”, and illuminate the world with light from China.

At the beginning of 2021, the Party Committee of the Company called on employees who are Party members to actively practice corporate social responsibilities, and established the Appotronics Volunteer Association to join the Nanshan Volunteer Association for active participation in various public charity activities. In July 2021, at the 100<sup>th</sup> anniversary of the Communist Party of China, the Party Committee of Appotronics won the honor of “Advanced Grass-root Party Organization of Shenzhen” as an outstanding representative of innovative technology enterprises in Shenzhen.

Specific information about investor relation management and investor protection

Applicable  N/A

The Company is dedicated to establishing good investor relations by disclosing corporate information in a true, accurate, complete and timely manner, and establishing a sound mechanism for the protection of shareholders' rights and interests. We actively provided suggestions and communication services with regulatory agencies, and disclosed a total of 209 announcement documents in 2021. In 2021, we organized 2 performance briefing sessions, 4 online live broadcasts/Q&A activities, and more than 150 surveys and reverse roadshows, answered more than 480 calls, replied more than 70 questions on the SSE e-interactive platform, and held 3 public online investor reception day activities actively, so as to effectively respond to the expectations and suggestions of small and medium investors.

Explanation about communication with investors by other means

Applicable  N/A

The Company obtained in-depth coverage of 7 tier-1 securities companies including China Fund, Zhongtai Securities, China Merchants Securities, Guoxin Securities, etc. and released 7 in-depth research reports. Besides, the Company obtained seven seller-side securities companies, and released 13 research reports on the Company's semi-annual report, third quarter report, new product release, and other performance-related events or material events, to help investors better understand the Company's businesses.

### (III) Transparency of information disclosure

Applicable  N/A

In strict compliance with the provisions of the *Administrative Measures for Information Disclosure by the Listed Companies* and the *Management Regulations of Information Disclosure* of the Company, the Company discloses relevant information in a prompt and fair manner in accordance with laws, regulations, and the AOA to practice true, accurate, and complete information disclosure, and safeguard the legitimate rights and interests of the Company, investors, creditors, and other stakeholders.

### (IV) Protection of intellectual property rights and information security

Applicable  N/A

With great importance to intellectual property protection, the Company spares no effort to ensure that intellectual property management is in place. In compliance with the requirements of laws and regulations such as the *Trademark Law of the People's Republic of China*, the *Patent Law of the People's Republic of China*, and the *Anti-Unfair Competition Law of the People's Republic of China*, we have established a legal center consisting of an intellectual property department and a legal department, and formulated the

*Patent Management Regulations*, the *Patent Application Review Measures* and the *Trademark Management Regulations*, through which the intellectual property management system have been gradually established and improved to create high-value patents and widen the patent moat continuously. At the same time, with adherence to openness and cooperation attitudes, the Company steadily promote patent rights protection and safeguard legitimate rights and interests to protect intellectual property rights from infringement.

In 2021, the Company's patents filed and granted both increased compared with that of the previous year. As of December 31, 2021, Appotronics has been issued with 1,434 patents, and filed 774 domestic and oversea patent applications (of which 641 cases are invention applications) and 211 PCT patent applications, resulting in a total of 2,419 patents filed or granted cumulatively all over the world.

The Company continues to establish and improve the information security system, and comprehensively improves its capabilities on information confidentiality and data security, and on information leakage monitoring. In strict accordance with the *Personal Information Protection Law of the People's Republic of China*, , a subsidiary of Appotronics, has formulated different regulatory systems and process documents around FengOS user privacy protection such as *Information (Data) Management Process System of* , and *Information Security Management Code and Confidentiality System of* , and a new version of user privacy agreement to ensure that the user data is collected legally and compliantly. At the same time, actively carries out training on user personal information protection to continuously improve the awareness of information protection among employees.

**(V) Information about participation of institutional investors in corporate governance**

Applicable  N/A

During the reporting period, in one aspect, institutional investors of the Company actively participated in voting at the general meetings of the Company, and fully exercised their right of information, voting right, and other shareholder's rights provided in the *Company Law*, so as to enhance the supervision over and suggestions for corporate governance of the Company. In another aspect, with full awareness of the Company about the continuity and importance of institutional investors in promoting the governance capability of the Company, the Company keeps active mutual communication with institutional investors to present information about the Company to and receive suggestions about the development of the Company from institutional investors, assisting the management in making adjustment and decisions in a faster and more accurate manner and continuously improving corporate governance.

For example, considering the multiple applications for the Company's technologies, an institutional investor suggested the Company to break down businesses in the annual report with reference to the prospectus to keep consistency in the study of the Company. The management of the Company responded rapidly after learning such suggestion, and resumed to present the businesses in the same manner as in the prospectus. This helped investors better understand the operating performance of the Company, and was highly praised by investors, hence effectively optimizing the governance of the Company.

**(VI) Other corporate governance**

Applicable  N/A

As of December 31, 2021, a total of 15 invalidation petitions has been raised against the Company’s patent for invention ZL200880107739.5 (hereinafter referred to as the “7739”), and a total of 11 invalidation petitions has been raised against the Company’s patent for invention ZL200810065225.X (hereinafter referred to as “5225”). As of the end of the reporting period, among the invalidation petitions raised against 7739 and 5225, 25 cases have been decided by the National Intellectual Property Administration, with the patent sustained, or withdrawn by the petitioner, and only 1 case is in trial at the National Intellectual Property Administration. As of the end of the reporting period, 2 invalidation cases with the Company as the patentee have been decided by the National Intellectual Property Administration, where the National Intellectual Property Administration partially sustained the patent right in 1 case, and the other case is in trial at the National Intellectual Property Administration. In December 2021, the invalidation petitioners WANG Lihua and QIN Songli separately submitted invalidation petitions to the National Intellectual Property Administration against the design patent 202130075102.0 held by Beijing Fengmi, for which the case numbers are 6W120283 and 6W120359, respectively.

As of the end of the reporting period, there were 3 invalidation cases where the Company acted as a petitioner. The case is in trial at the National Intellectual Property Administration, and is related to the invalidation petition against patents held by Delta Electronics, Inc.

In July 2021, the Company signed the *Settlement Agreement* with GDC Cayman, under which GDC BVI shall increase the business of purchasing cinema hardware products from the Company. That is, GDC BVI shall purchase cinema hardware products over a certain quantity in 2021, 2022, 2023, and 2024. The Parties shall sign a specific purchase agreement within 60 days from the effectiveness of the *Settlement Agreement*.

The Parties have not reached a consensus on the *Purchase Agreement* by now, and GDC BVI has not purchased the foregoing hardware products from the Company.

At present, the Company is in dispute with relevant GDC parties concerning the protective provisions, such as the veto right held by the Company, which may affect the listing of GDC BVI, and the infringement of shareholder's rights, such as the protective provisions, of the Company by relevant GDC parties. The Parties are in the process of arbitration and counter arbitration, namely a key stage of commercial negotiation. The Company will take legal measures or communicate with relevant GDC parties to solve the existing main disputes between the Parties.

As a result, based on the communication between the Parties at present, the cooperation on the purchase business for cinema hardware products between the Company and GDC BVI is subject to uncertainty.

1. On March 18, 2022, the 9<sup>th</sup> meeting of the second Board of Directors and the 8<sup>th</sup> meeting of the second of Board of Supervisors reviewed the *Proposal on Postponing Some Investment Projects*, approving the Company to adjust the time for some investment projects to reach the working condition for its intended use. For details, please refer to the *Announcement on Postponing Some Investment Projects* disclosed on the website of Shanghai Stock Exchange (www.sse.com.cn) on March 21, 2022.

2. During the project, the total wealth management returns of RMB2.3950 million were realized from the special account of supplementary working capital, which have been put into use in the project (supplementary working capital). As of the date of approval for issue of this Report, the special account (Huaxia Bank Co., Ltd. Houhai Branch, account number: 10869000000251463) has been deregistered. The interest RMB1,418.11 incurred after the project has been paid to the basic account of the Company to be used as supplementary working capital.

**(III) Change in investment projects during the reporting period**

Applicable  N/A

**(IV) Other information about the use of offering proceeds during the reporting period**

## 1. Early investment and replacement of offering proceeds

√ Applicable □ N/A

On July 29, 2019, the *Proposal on Replacing Early Funds Invested with Offering Proceeds* was reviewed and passed at the 16<sup>th</sup> meeting of the first Board of Directors, approving the Company to replace the invested funds of RMB18.9584 million as of July 19, 2019 with the offering proceeds, and replace the offering expenses paid in the amount of RMB3.1056 million with the offering proceeds. The matters above have been assured by Pan-China Certified Public Accountants (Special General Partnership), which issued the *Assurance Report on Replacement of Funds with Offering Proceeds by Appotronics Corporation Limited* (Tian Jian Shen [2019] No. 7-393).

## 2. Supplement the working capital with idle offering proceeds

□ Applicable √ N/A

## 3. Cash management of idle offering proceeds, and investment in relevant products

√ Applicable □ N/A

On July 21, 2020, the *Proposal on Cash Management of Temporarily Idle Offering Proceeds* was reviewed and passed at the 23<sup>rd</sup> meeting of the first Board of Directors and the 11<sup>th</sup> meeting of the first Board of Supervisors. It was approved that, without affecting the normal implementation of the investment plan for offering proceeds, a maximum of RMB670 million temporarily idle offering proceeds may be put under cash management to purchase investment products featuring high security, good liquidity, and guarantee of the principal (including but not limited to structural deposits, agreement deposits, notice deposits, term deposits, large-amount deposit note, and return notes), where the total amount for purchasing return notes shall be no more than RMB200 million for no more than 12 months, which shall be effective within 12 months from the review and approval by the Board of Directors and Board of Supervisors.

On July 15, 2021, the *Proposal on Cash Management of Temporarily Idle Offering Proceeds* was reviewed and passed at the 32<sup>nd</sup> meeting of the first Board of Directors and the 19<sup>th</sup> meeting of the first Board of Supervisors. It was approved that, without affecting the normal implementation of the investment plan for offering proceeds, a maximum of RMB602 million temporarily idle offering proceeds may be put under cash management to purchase investment products featuring high security, good liquidity, and guarantee of the principal (including but not limited to structural deposits, agreement deposits, notice deposits, term deposits, large-amount deposit note, and return notes), where the total amount for purchasing return notes shall be no more than RMB200 million for no more than 12 months, which shall be effective within 12 months from the review and approval by the Board of Directors and Board of Supervisors.

## 4. Supplement working capital or repay bank loans with excess offering proceeds

□ Applicable √ N/A

## 5. Others

□ Applicable √ N/A

**XV. Explanation about other significant matters having significant influence on the value judgement and investment decision-making of investors**

#### Auditor's report

Tian Jian Shen (2022) No. 7-384

To all shareholders of Appotronics Corporation Limited:

#### I. Opinion

We have audited the financial statements of Appotronics Corporation Limited ("Appotronics"), which comprise the consolidated and the parent company's balance sheets as at December 31, 2021, and the consolidated and the parent company's income statements, the consolidated and the parent company's statements of cash flow and the consolidated and the parent company's statements of changes in owners' equity for the year then ended, and the notes to the relevant financial statements.

In our opinion, the accompanying financial statements of Appotronics are prepared and present fairly, in all material respects, the consolidated and the parent company's financial position as of December 31, 2021, and the consolidated and the parent company's results of operations and cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

#### II. Basis for opinion

We conducted our audit in accordance with Auditing Standards for Certified Public Accounts of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for Audit of Financial Statements section of our report. We are independent of Appotronics Corporation in accordance with the code of ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### III. Key audit items

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were

addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(I) Revenue recognition

1. Description

Details of relevant information are disclosed in V.38, V.42, VII.61, and XVI.6 of section X.

Appotronics Corporation is mainly engaged in research, development, production, sales and leasing of laser display core devices and complete equipment. In 2021, the operating income of Appotronics Corporation amounted to RMB 2,498,228,401.78, of which sales and other incomes were RMB 2,137,606,392.96, representing 85.56% of the total operating income, and lease incomes were RMB 360,622,008.82, representing 14.44% of the total operating income.

The specific methods for revenue recognition are as follows:

(1) Revenue from sales of goods

Revenue from sales of goods denotes contractual obligations to be performed at a time point. Our sales include sales to the domestic market and sales to foreign markets.

Goods sold to the domestic market: 1) Under the direct sale model and the distribution mode, the Company recognizes the revenue when the goods sent have been delivered to customers with customers' receipt given to the Company. For goods sold attached with return conditions, the Company recognizes the revenue when the validity period of goods return conditions expires, and recognizes liabilities to write off the revenue according to the expected amount to be refunded due to the return of goods; for goods required for installment and inspection after sales, the Company recognizes the revenue when such goods have been installed and inspected with customers' acceptance certificate given to the Company. If the Company shares profits from sales of products by a downstream end customer, the Company recognizes the revenue at the goods price agreed between the parties upon the delivery of goods to the customer and reconciliation, and recognizes shared revenue according to the share profit reconciliation statement when the profits from sales of goods are realized. 2) Under the commissioned sales mode, the Company recognizes the revenue when it receives the list of commissioned sales from the customer.

Goods exported to overseas markets: The Company mainly adopts FCA for export of goods. Under this mode, the Company recognizes revenue when it delivers goods at the designated location with export customs clearance procedures completed.

## (2) Other incomes

Other revenues of the Company denote contractual obligations to be performed at a time point/during a specific period of time. For installation services provided by the Company, the Company recognizes the revenue when it has completed the services and received customers' acceptance certificate; for repair and maintenance services provided by the Company, the Company recognizes the revenue when it has completed the services and received payments; for patrol inspection services provided by the Company, which are obligations to be performed during a specific period of time, the Company determines the service performance progress by using the output approach, and recognizes the revenue according to the performance progress; for patent license services provided by the Company, the Company recognizes the revenue when the patent license is delivered; for technology development services provided by the Company, the Company recognizes the revenue when it has completed the services or when the agreed time point of service acceptance is reached.

## (3) Lease incomes

In each period during the lease term, the Company recognizes lease payments as rental incomes by using the straight-line method/units of production method. The variable lease payments acquired by the Company that are related to operating leases and not recognized in lease payments are recognized in the profit or loss for the current period when they actually occur.

As the operating income is one of Appotronics Corporation's KPIs, there may be an inherent risk that the management of Appotronics Corporation (hereinafter referred to as "management") may recognize the revenue inappropriately to achieve specific objectives or expectations. Therefore, we identified revenue recognition as a key audit matter.

### 2. Description of how the key audit matter was addressed in the audit

For revenue recognition, our audit procedures include, inter alia:

(1) Understand the key internal controls related to revenue recognition, evaluate the design of those controls, determine whether they are implemented, and test the operational effectiveness of the relevant internal controls;

(2) Examine major sales contracts and lease contracts, understand the major provisions or conditions thereof, and evaluate whether revenue recognition methods are appropriate;

(3) Implement analysis procedures for operating income and gross margin by month, product, customer, etc., to identify whether there are significant or unusual fluctuations and to find out the causes of such fluctuations;

(4) For sales income, sample supporting documents related to revenue recognition, including sales contracts or orders, sales invoices, warehouse receipts, delivery notes, transport information, customer signature forms, export declarations and electronic port system information; for lease income, sample supporting documents including, among other things, lease contracts, orders, installation orders, unit lease price per hour, and number of hours consumed; for sales income, sample supporting documents including, among other things, sales contracts, customs declaration forms, and bills of lading;

(5) In conjunction with accounts receivable confirmation procedures, send confirmation to major customers to recognize the current incomes on a sample basis;

(6) Conduct the cut-off test on the operating incomes recognized on or after the balance sheet date to evaluate whether the operating incomes are recognized during the appropriate period;

(7) Obtain a record of sales returns after the balance sheet date to check if there is any instance that conditions for revenue recognition were not met at the balance sheet date;

(8) Check whether information relative to operating income is properly presented in the financial statements.

(II) Net realizable value of inventories

1. Description

Details of relevant information are disclosed in V.15 and VII.9 of Section X.

As of December 31, 2021, the carrying amount of inventories of Appotronics amounted to RMB 808,619,692.36, and provisions for decline in value of inventories amounted to RMB 38,998,559.36, hence the book value of inventories amounted to RMB 769,621,133.00.

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the net realizable value is below the cost of inventories, a provision for decline in value of inventories is made. In view of the purpose of holding inventories, the management determines the estimated selling price of inventories based on historical or actual selling prices, and the net realizable value of inventories in accordance with the balance of the estimated selling price less the sum of the estimated costs of completion and the estimated costs necessary to make the sale and relevant taxes. The amount of inventories is material and the determination of the net realizable value of inventories involves significant management judgment, therefore, we identified the determination of the net realizable value of inventories as a key audit matter.

2. Description of how the key audit matter was addressed in the audit

For the net realizable value of inventories, our audit procedures include, inter alia:

(1) Understand the key internal controls related to the net realizable value of inventories, evaluate the design of those controls, determine whether they are implemented, and test the operational effectiveness of the relevant internal controls;

(2) Review the management's forecast of the estimated selling price of inventories on a sample basis, comparing the estimated selling price with historical data and subsequent situations, etc.;

(3) Evaluate the appropriateness of the management's estimates on the estimated costs of completion of inventories and the estimated costs necessary to make the sale and relevant taxes;

(4) Test the accuracy of the management's calculation on the net realizable value of inventories;

(5) Evaluate the reasonableness of the management's estimates on the net realizable value of inventories by checking inventories recognized at the end of the period in terms of long age, obsolescence, changes in technology or market demand in conjunction with inventory monitoring;

(6) Check whether information relative to the net realizable value of inventories is properly presented in the financial statements.

#### **IV. Other information**

The management is responsible for other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **V. Responsibilities of the Management and governance with respect to the financial statements**

The management is responsible for the preparation and fair presentation of the financial statements in accordance with Accounting Standards for Business Enterprises, and designing, implementing and maintaining internal control that is necessary to enable the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing Appotronics' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate Appotronics or to cease operations, or has no realistic alternative but to do so.

Those charged with governance of Appotronics (hereinafter referred to as "Those Charged with Governance") are responsible for overseeing Appotronics' financial reporting process.

## **VI. Responsibilities of Certified Public Accountants with respect to the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with China Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

(I) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(II) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

(III) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

(IV) Conclude on the appropriateness of the management's use of the going concern basis of accounting. Meanwhile, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Appotronics Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required by audit standards to draw users' attention in our auditor's report to the related disclosures in the financial statements. If such disclosures are inadequate, we are supposed to express an unqualified opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Appotronics Corporation to cease to continue as a going concern.

(V) Evaluate the overall presentation, structure and content of the financial statements, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

(VI) Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within Appotronics Corporation to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in

our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Legal Representative: LI Yi Chief Accountant: WANG Yingxia Person in Charge of the Accounting Body: WANG Yingxia

### III. Company profile

#### 1. Profile

Applicable  N/A

Appotronics Corporation Limited (hereinafter referred to as “Company” or “the Company”), formally named as Shenzhen Appotronics Optoelectronics Technology Inc. (hereinafter referred to as “Appotronics Inc.”), was jointly invested and established by LI Yi and XU Yanzheng and registered in Nanshan Branch of Market Supervision and Regulation Bureau of Shenzhen on October 24, 2006 with the legal person business license numbered in 4403011245637. Upon establishment, the registered capital of Appotronics Inc. was RMB 100,000. On May 31, 2018, the benchmark date, Appotronics Inc was changed into a company limited by shares entirety. On July 20, 2018, the Company completed the registration in Nanshan Branch of Market Supervision and Regulation Bureau of Shenzhen and headquartered in Shenzhen City, Guangdong Province. The Company holds the business license bearing the credibility code 91440300795413991N. The Company’s registered capital is RMB 452,756,901.00 divided into 452,756,901 shares (RMB 1 Yuan per share), including 166,736,766 outstanding shares subject to sale restrictions and 286,020,135 outstanding shares not subject to sale restrictions. The Company’s shares were listed for trading on Shanghai Stock Exchange on July 22, 2019.

The Company can be classified into the computer, communication and other electronic equipment manufacturing industry. It mainly engages in research and development, production, sales and leasing of laser display core devices and whole machines, and can provide customers with technical research and development services and customized products. Its products mainly include laser business and education projectors, smart mini projectors, laser TV, laser large venue projector and laser digital cinema projector.

The financial statements have been approved by the Company’s 11<sup>th</sup> meeting of the second Board of Directors on April 25, 2022 for public disclosure.

#### 2. Scope of consolidated financial statements

Applicable  N/A

The Company has included 26 subsidiaries into the consolidated financial statements for the current period, including Beijing Orient Appotronics Technology Co., Ltd., Shenzhen Appotronics Laser Display Technology Co., Ltd., Qingda Appotronics (Xiamen) Technology Co., Ltd., Shenzhen Appotronics Laser Technology Co., Ltd., Appotronics Hong Kong Limited, Shenzhen Appotronics Software Technology Co., Ltd., Shenzhen City Appotronics Xiaoming Technology Co., Ltd., Fabulus Display (Beijing) Co., Ltd.,

Appotronics USA, Inc., Fabulus Technology Hong Kong Limited, JoveAI Limited, JoveAI Innovation, Inc., Appotronics Technology (Changzhou) Co., Ltd., Shenzhen Appotronics Display Device Co., Ltd., WEMAX LLC, JoveAI Asia Company Limited, Tianjin Bonian Film Partnership (LP), Fengmi (Beijing) Technology Co., Ltd., Shenzhen Appotronics Home Line Technology Co., Ltd., Technology Inc., (Chongqing) Innovative Technology Co., Ltd., Limited, Chongqing Guangbo Ecommerce Co., Ltd., Chongqing Ewei Ecommerce Co., Ltd., Shenzhen Orange Juice Energy Technology Co., Ltd., CINEAPPO Laser Cinema Technology (Beijing) Co., Ltd., and other subsidiaries. Refer to descriptions in VIII and IX of Section X for details.

#### **IV. Basis of preparation of financial statements**

##### **1. Basis of preparation**

The Company's financial statements are prepared on a going-concern basis.

##### **2. Going concern**

Applicable  N/A

The Company has detected no events or circumstances that may cast significant doubt upon its ability to continue as a going concern within 12 months from the reporting period.

#### **V. Significant accounting policies and accounting estimates**

Specific accounting policies and accounting estimates:

Applicable  N/A

Important note: The Company establishes the specific accounting policies and makes the specific accounting estimates with respect to the impairment of financial instruments, depreciation of fixed assets, depreciation of right-of-use assets, amortization of intangible assets, recognition of revenues and other transactions and events according to the actual production and operation characteristics of the Company.

##### **1. Statement of compliance with the Accounting Standards for Business Enterprises**

The financial statements prepared by the Company conform to the requirements of the Accounting Standards for Business Enterprises and truly and completely reflect the Company's financial position, operating results, changes in shareholders' equity, cash flows and other related information.

##### **2. Accounting period**

The Company's accounting year is from January 1 to December 31 of each calendar year.

##### **3. Operating cycle**

Applicable  N/A

The Company has a relatively short operating cycle, and determines the liquidity of assets and liabilities on the basis of 12 months.

#### **4. Functional currency**

The Company adopts RMB as its functional currency. The following overseas subsidiaries operate outside of China, and adopt the currency of their primary economic environment as the functional currency: Appotronics Hong Kong Limited, Appotronics USA, Inc., Fabulus Technology Hong Kong Limited, JoveAI Limited, JoveAI Innovation, Inc., WEMAX LLC, JoveAI Asia Company Limited, Technology Inc., Limited, etc.

#### **5. The accounting treatment of business combinations involving entities under common control and not involving entities under common control**

Applicable  N/A

##### **1. Accounting method for business combinations involving enterprises under common control**

Assets and liabilities acquired from a business combination by the Company are measured at the carrying amounts of the assets and liabilities of the acquiree in the consolidated financial statements of the ultimate controller at the date of combination. The Company made adjustment to capital reserves according to the differences between the shares in the owners' equity of the combined party on the consolidated financial statements of the ultimate controlling party and the book value of paid combination considerations or the face value of issued shares; In case the capital reserve is not sufficient to absorb the difference, the remaining balance is adjusted against the retained earnings.

##### **2. Accounting method for business combinations not involving enterprises under common control**

Where the cost of combination exceeds the Company's interest in the fair value of the acquiree's identifiable net assets, the difference is recognized as goodwill. Where the cost of combination is less than the Company's interest in the fair value of the acquiree's identifiable net assets, the Company firstly reassesses the fair values of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of combination. If after that reassessment, the cost of combination is still less than the Company's interest in the fair value of the acquiree's identifiable net assets, the acquirer recognizes the remaining difference immediately in profit or loss for the current period.

#### **6. Method of preparation of consolidated financial statements**

Applicable  N/A

The parent company includes all of its controlled subsidiaries in its consolidated financial statements. The consolidated financial statements are prepared by the parent company in accordance with the

Accounting Standards for Business Enterprises No. 33 -- Consolidated Financial Statements, on the basis of the respective financial statements of the parent company and its subsidiaries, by reference to other relevant data.

## **7. Classification of joint arrangements and accounting treatment of joint operations**

√ Applicable  N/A

1. Joint arrangements are classified into joint operations and joint ventures.

2. When the Company is a party to a joint operation, the Company recognizes the following items relating to its interest in the joint operation:

(1) the assets individually held by the Company, and the Company's share of the assets held jointly;

(2) the liabilities incurred individually by the Company, and the Company's share of the liabilities incurred jointly;

(3) the Company's revenue from the sale of its share of output of the joint operation;

(4) the Company's share of revenue from the sale of assets by the joint operation; and

(5) the expenses incurred individually by the Company, and the Company's share of the expenses incurred jointly.

## **8. Recognition of cash and cash equivalents**

Cash equivalents are the Group's short-term (generally due within 3 months from the acquisition date), highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## **9. Translation of transactions and financial statements denominated in foreign currencies**

√ Applicable  N/A

1. Transactions denominated in foreign currencies

A foreign currency transaction is recorded in RMB, on initial recognition, by applying the spot exchange rate on the date of the transaction. At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rates at the balance sheet date. Exchange differences arising from such translations are recognized in profit or loss for the current period, except for those attributable to foreign currency borrowings that have been taken out specifically for the acquisition or construction of qualifying assets and accrued interest. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the foreign exchange rates ruling at the

transaction dates, without adjusting the amounts in RMB. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rates prevailing at the dates when the fair value was determined, with exchange differences arising from such translations recognized in profit or loss for the current period or other comprehensive income.

#### 2. Translation of financial statements denominated in foreign currencies

Asset and liability items on the balance sheet are translated at the spot exchange rate prevailing at the balance sheet date; shareholders' equity items other than "undistributed profits" are translated at the spot exchange rates at the dates on which such items arose; income and expense items in the income statement are translated at the exchange rates that approximate the actual spot exchange rates on the dates of the transactions. Exchange differences arising from such translations are recognized in other comprehensive income.

### 10. Financial instruments

Applicable  N/A

#### 1. Classification of financial assets and financial liabilities

On initial recognition, the Company's financial assets are classified into three categories, including (1) financial assets at amortized cost; (2) financial assets at fair value through other comprehensive income; and (3) financial assets at fair value through profit or loss for the current period.

Upon initial recognition, the Company's financial liabilities are classified into four categories, including (1) financial liabilities at fair value through profit or loss for the current period; (2) financial liabilities arising as a result of the transfer of financial assets not meeting the criteria for derecognition or continuing involvement in the financial assets transferred; (3) financial guarantee contracts not falling under Clauses (1) and (2), and loan commitments not falling under Clause (1) and below market interest rate; and (4) financial liabilities at amortized cost.

#### 2. Recognition, measurement and derecognition of financial assets and financial liabilities

##### (1) Recognition and initial measurement of financial assets and financial liabilities

When the Company becomes a party to a financial instrument contract, a financial asset or liability is recognized. Financial assets and liabilities are initially measured at fair value. Transaction costs relating to financial assets or liabilities at fair value through profit or loss are directly recognized in profit or loss for the current period. Transaction costs relating to other kinds of financial assets or liabilities are included

in their initially recognized amount. However, the accounts receivable, if do not contain any significant financing component or are recognized by the Company without taking into consideration the financing components under the contracts with a term of less than one year upon initial recognition, are initially measured at transaction price defined in *Accounting Standards for Business Enterprises No.14 - Revenue*.

(2) Subsequent measurement of financial assets

1) Financial assets at amortized cost

Financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method. Gains or losses arising from financial assets at amortized cost that do not belong to any hedging relationship are recognized in profit or loss for the current period upon derecognition, reclassification, amortization using the effective interest method or recognition of impairment.

2) Investments in debt instruments at fair value through other comprehensive income

Investments in debt instruments at fair value through other comprehensive income are subsequently measured at fair value. Interest, impairment losses or gains and exchange gains or losses calculated using the effective interest method are recognized in profit or loss for the current period, and other gains or losses are recognized in other comprehensive income. Upon derecognition, the aggregate gains or losses previously recognized in other comprehensive income are transferred to profit or loss for the current period.

3) Investments in equity instruments at fair value through other comprehensive income

Investments in debt instruments at fair value through other comprehensive income are subsequently measured at fair value. Dividends received (other than those received as recovery of investment cost) are recognized in profit or loss for the current period, and other gains or losses are recognized in other comprehensive income. Upon derecognition, the accumulated gains or losses previously recognized in other comprehensive income are transferred to retained earnings.

4) Financial assets at fair value through profit or loss for the current period

Financial assets at fair value through profit or loss for the current period are subsequently measured at fair value, with gains or losses arising therefrom, including interest and dividend income, recognized in profit or loss for the current period, except the financial assets belonging to any hedging relationship.

(3) Subsequent measurement of financial liabilities

1) Financial liabilities at fair value through profit or loss for the current period

Financial liabilities at fair value through profit or loss for the current period include financial

liabilities held for trading (including derivatives classified as financial liabilities), and financial liabilities directly designated as at fair value through profit or loss for the current period. Such financial liabilities are subsequently measured at fair value. Changes in the fair value of financial liabilities designated as at fair value through profit or loss for the period arising out of changes in the Company's own credit risk are recognized in other comprehensive income, unless such treatment will result in or increase any accounting mismatch in profit or loss. Other gains or losses arising from such financial liabilities, including interest expenses and changes in fair value not arising out of changes in the Company's own credit risk, are recognized in profit or loss for the current period, except the financial liabilities belonging to any hedging relationship. Upon derecognition, the accumulated gains or losses previously recognized in other comprehensive income are transferred to retained earnings.

2) Financial liabilities arising as a result of the transfer of financial assets not meeting the criteria for derecognition or continuing involvement in the financial assets transferred

Such financial liabilities are measured in accordance with the *Accounting Standards for Business Enterprises No. 23 -- Transfer of Financial Assets*.

3) Financial guarantee contracts not falling under Clauses 1) and 2), and loan commitments not falling under Clause 1) and below market interest rate

Such financial liabilities are subsequently measured at the higher of □ provision for impairment losses determined according to the policy for impairment of financial instruments; and □ balance of the initially recognized amount after deduction of the accumulated amortization determined in accordance with the relevant provisions of the *Accounting Standards for Business Enterprises No.14 - Revenue*.

4) Financial liabilities at amortized cost

Financial liabilities at amortized cost are subsequently measured at amortized cost using the effective interest method. Gains or losses on financial liabilities at amortized cost that do not belong to any hedging relationship are recognized in profit or loss for the current period upon derecognition or amortization using the effective interest method.

(4) Derecognition of financial assets and financial liabilities

1) Financial assets are derecognized when:

① the contractual right to receive cash flows from the financial assets has expired; or

② the financial assets have been transferred and such transfer meets the criteria for derecognition of financial assets as set forth in the Accounting Standards for Business Enterprises No. 23 -- Transfer of Financial Assets.

2) A financial liability (or part thereof) is derecognized when all or part of the outstanding obligations thereon have been discharged.

### 3. Recognition and measurement of financial assets transferred

When a financial asset of the Company is transferred, if substantially all the risks and rewards incidental to the ownership of the financial asset have been transferred, the financial asset is derecognized, and the rights and obligations incurred or retained in such transfer are separately recognized as assets or liabilities (as the case may be); if substantially all the risks and rewards incidental to the ownership of the financial asset have been retained, the financial asset transferred continues to be recognized. If the Company neither transferred nor retained a substantial portion of all risks and rewards incidental to the ownership of the financial asset, then: (1) if the Company does not retain control over the financial asset, the financial asset is derecognized, and the rights and obligations incurred or retained in such transfer are separately recognized as assets or liabilities (as the case may be); and (2) if the Company retains control over the financial asset, the financial asset continues to be recognized to the extent of the Company's continuing involvement in the financial asset transferred, and a corresponding liability is recognized.

If an entire transfer of a financial asset meets the criteria for derecognition, the difference between (1) the carrying amount of the financial asset transferred at the date of derecognition; and (2) the sum of the consideration received from the transfer and the portion of the accumulated amount of changes in fair value directly recorded as other comprehensive income originally that corresponds to the part derecognized (where the financial asset transferred is an investment in debt instruments at fair value through other comprehensive income) is recognized in profit or loss for the current period. If part of a financial asset is transferred and the part transferred entirely meets the criteria for derecognition, the total carrying amount of the financial asset immediately prior to the transfer is allocated between the part derecognized and the part not derecognized in proportion to their relative fair value at the date of transfer, and the difference between (1) the carrying amount of the part derecognized; and (2) the sum of the consideration received from the transfer of the part derecognized and the portion of the accumulated amount of changes in fair value directly recorded as other comprehensive income originally that

corresponds to the part derecognized (where the financial asset transferred is an investment in debt instruments at fair value through other comprehensive income) is recognized in profit or loss for the current period.

#### 4. Determination of fair value of financial assets and financial liabilities

The Company adopts the valuation techniques applicable to the current situations and with sufficient data available and support of other information, to determine the fair value of financial assets and financial liabilities. The Company classifies the inputs used by the valuation techniques in the following levels and uses them in turn:

(1) Level 1 inputs: quoted market price (unadjusted) in an active market for an identical asset or liability available at the date of measurement;

(2) Level 2 inputs: inputs other than inputs included within Level 1 that are observable directly or indirectly. This category includes quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, observable inputs other than quoted prices (such as interest rate and yield curves observable during regular intervals of quotation), and inputs validated by the market;

(3) Level 3 inputs: inputs that are unobservable. This category includes interest rate or stock volatility that cannot be directly observed or validated by observable market data, future cash flows from retirement obligation incurred in business combinations, and financial forecasts made using own data.

#### 5. Impairment of financial instruments

##### (1) Measurement and accounting treatment of impairment of financial instruments

The Company determines the impairment and assesses provision for impairment losses of financial assets at amortized cost, investments in debt instruments at fair value through other comprehensive income, contract assets, lease receivable, loan commitments other than financial liabilities designated at fair value through profit or loss for the current period, and financial guarantee contracts other than financial liabilities designated at fair value through profit or loss for the current period and financial liabilities arising as a result of the transfer of financial assets not meeting the criteria for derecognition or continuing involvement in the financial assets transferred, on the basis of expected credit losses.

Expected credit loss is the weighted average of credit losses on financial instruments taking into account the possibility of default. Credit loss is the difference between all contractual cash flows receivable

under the contract and estimated future cash flows discounted at the original effective interest rate, i.e. the present value of all cash shortage, wherein the Company's purchased or originated financial assets that have become credit impaired are discounted at their credit-adjusted effective interest rate.

With respect to purchased or originated financial assets that have become credit impaired, at the balance sheet date, the Company recognizes a loss allowance equal to the accumulated amount of changes in lifetime expected credit losses since initial recognition.

With respect to lease receivable, accounts receivable and contract assets that are formed from transactions under the *Accounting Standards for Business Enterprises No. 14 - Revenue*, the Company uses the simple measurement method and recognizes a loss allowance equal to the lifetime expected credit loss.

With respect to financial assets not using the measurement methods stated above, at each balance sheet date, the Company assesses whether the credit risk has increased significantly since initial recognition, and recognizes a loss allowance equal to the lifetime expected credit loss if the credit risk has increased significantly since initial recognition, or to the expected credit losses within the next 12 months if the credit risk has not increased significantly since initial recognition.

The Company uses reasonable and supportable information, including forward-looking information, and compares the possibility of default at the balance sheet date with the possibility of default upon initial recognition, to determine whether the credit risk of the financial instruments has increased significantly since initial recognition.

At the balance sheet date, if the Company determines that a financial instrument only has low credit risk, the Company assumes that its credit risk has not increased significantly since initial recognition.

The Company assesses expected credit risk and measures expected credit losses of financial instruments individually or collectively. When assessing the financial instruments collectively, the Company includes the financial instruments in different groups according to their common risk characteristics.

At each balance sheet date, the Company re-assesses the expected credit losses, with the amount of increase in or reversal of loss allowance recognized in profit or loss for the current period as impairment losses or gains. With respect to a financial asset at amortized cost, its carrying amount recorded in the balance sheet is written off against the loss allowance. With respect to an investment in debt instruments

at fair value through other comprehensive income, the Company recognizes the loss allowance in other comprehensive income, without reducing its carrying amount.

(2) Financial instruments for which expected credit risk is assessed and expected credit losses are measured collectively

| Item  | Basis for determining a group                                  | Method for measuring expected credit losses  |
|---|--|--|
| Other receivables - group of deposit and security receivable                                | Nature of other receivables                                    | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, calculate the expected credit losses according to the default risk exposure and 12-month or rate of lifetime expected credit loss. |
| Other receivables - group of withholding receivable   |  |  |
| Other receivables - group of receivables from related parties in the scope of consolidation | Receivables from related parties in the scope of consolidation |  |
| Other receivables - grouping by aging   | Aging  |  |

(3) Accounts receivable for which expected credit losses are measured collectively and contract assets

1) Groups and method for measuring expected credit losses

| Item  | Basis for determining a group                                  | Method for measuring expected credit losses  |
|---|--|--|
| Bank acceptance bills receivable  | Type of notes  | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, calculate the expected credit losses according to the default risk |
| Commercial acceptance bills receivable  |  |  |
| Accounts receivable - group of receivables from related parties in the scope of consolidation | Receivables from related parties in the scope of consolidation |  |

|   |  |   |
|---|--|---|
|   |  | exposure and rate of lifetime expected credit loss.   |
| Accounts receivable - grouping by aging   | Aging  | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, prepare a comparison table of the aging of accounts receivable and rate of lifetime expected credit loss, and calculate the expected credit losses.   |
| Contract assets - group of receivables from related parties in the scope of consolidation | Receivables from related parties in the scope of consolidation | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, calculate the expected credit losses according to the default risk exposure and rate of lifetime expected credit loss.                                |
| Contract assets - group of aging  | Aging  | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, prepare a comparison table of the aging of contract assets and rate of lifetime expected credit loss, and calculate the expected credit losses.       |
| Long-term receivables - grouping by aging   | Aging  | By reference to historic credit loss experience, and taking into account the current situations and prediction of future economic conditions, prepare a comparison table of the aging of long-term receivables and rate of lifetime expected credit loss, and calculate the expected credit losses. |

2) Accounts receivable - comparison table of the age of accounts receivable and rate of lifetime

expected credit loss

| Aging                                     | Accounts receivable<br>Rate of expected credit loss for accounts<br>receivable (%) |
|---|--|
| Within 1 year (including, the same below) | 5.00   |
| 1-2 years                                 | 25.00  |
| 2-3 years                                 | 50.00  |
| Over 3 years                              | 100.00   |

#### 6. Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are presented in the balance sheet separately, without offsetting each other. However, the Company may represent the financial assets and financial liabilities on a net basis in the balance sheet only if: (1) the Company has a legal right that is currently enforceable to set off the recognized financial assets and financial liabilities, and (2) the Company intends either to settle on a net basis, or to realize the financial asset and settle the financial liability simultaneously.

With respect to the transfer of financial assets not meeting the criteria for derecognition, the Company does not offset the financial assets transferred against the relevant liabilities.

#### 11. Notes receivable

##### Method for recognition of expected credit losses of notes receivable and relevant accounting treatments

Applicable  N/A

The Company's method for recognition of expected credit losses of notes receivable and relevant accounting treatments are disclosed in V.10 of Section X in details.

#### 12. Accounts receivable

##### Method for recognition of expected credit losses of accounts receivable and relevant accounting treatments

Applicable  N/A

The Company's method for recognition of expected credit losses of accounts receivable and relevant accounting treatments are disclosed in V.10 of Section X in details.

#### 13. Receivables financing

Applicable  N/A

The Company's accounting policies on receivables financing are disclosed in V.10 of Section X in details.

#### **14. Other receivables**

##### **Method for recognition of expected credit losses of other receivables and relevant accounting treatments**

Applicable  N/A

The Company's method for recognition of expected credit losses of other receivables and relevant accounting treatments are disclosed in V.10 of Section X in details.

#### **15. Inventories**

Applicable  N/A

##### 1. Categories of inventories

Inventories mainly include finished goods or commodities held for sale in the ordinary course of businesses, work in progress in the process of production or materials and supplies consumed in the process of production or rendering service.

##### 2. Costing method of inventories transferred out

The actual cost of inventories upon delivery is calculated using the moving weighted average method.

##### 3. Basis for determining net realizable value of inventories

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the net realizable value is below the cost of inventories, a provision for decline in value of inventories is made. For inventories directly used for sale, the net realizable value is determined as the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale and relevant taxes. For inventories required for processing, the net realizable value is determined as the estimated selling price of finished goods in the ordinary course of business less the estimated costs of completion, and the estimated costs necessary to make the sale and relevant taxes. As at the balance sheet date, if in the same item of inventories, some are agreed with contractual prices while the others are not, the net realizable value for such inventories is determined separately, and compared with the costs of the two parts of inventories distinctively, as to determine the provisions or reversal of provisions for decline in value of inventories separately.

##### 4. Inventory counting system

The perpetual inventory system is maintained for stock system.

##### 5. Amortization method for low cost and short-lived consumable items and packaging materials

###### (1) Low cost and short-lived consumable items

Low cost and short-lived consumable items are amortized using the immediate write-off method.

(2) Packaging materials

Low cost and short-lived consumable items are amortized using the immediate write-off method.

(XII) Contract costs

Assets related to contract costs include contract acquisition costs and contract performance costs.

If costs incurred by the Company for acquiring a contract are expected to be recovered, such costs are recognized as an asset as contract acquisition costs.

The costs incurred by the Company for performing a contract are recognized as an asset of contract performance costs if they do not fall within the scope of other relevant standards, like inventories, fixed assets, or intangible assets, and meet all the following conditions:

1. The cost is directly related to a present or expected contract, including direct labor, direct materials, manufacturing expenses (or similar expenses), costs explicitly to be borne by customers, and other costs arising from the contract;

2. The cost leads to the increase in resources of the Company for fulfilling its performance obligations in the future; and

3. The cost is expected to be recovered.

Assets related to contract costs are amortized on the same basis as recognizing incomes from goods related to assets, and are recognized in the profit or loss for the current period.

If the book value of the assets related to contract costs is greater than the consideration expected to be acquired by transferring the goods or services related to such assets less the costs expected to be incurred, the Company makes provision for impairment for the exceeding portion and recognizes impairment loss of assets. In the event of a change in the factors causing impairment in a prior period, so that the consideration expected to be acquired by transferring the goods or services related to such assets less the costs expected to be incurred is greater than the book value of such assets, the provision for impairment made for such assets is reversed and recognized in the profit or loss for the current period; provided, however, that the reversed book value of such assets shall not exceed the book value of such assets at the reversal data on the assumption that no provision for impairment has been made.

**16. Contract assets**

**(1). Recognition method and criteria of contract assets**

Applicable  N/A

The Company presents contract assets or contract liabilities in the balance sheet according to the

relationship between the performance of contractual obligations and payment by customers. Contract assets and contract liabilities under a same contract are presented at the net amount after offsetting each other.

Rights owned by the Company for unconditionally collecting the consideration from customers (that is, depending only on the time) are presented as receivables, and rights for collecting the consideration for goods that have been transferred to customers (depending on other factors than the time) are presented as contract assets.

**(2). Method for recognition of expected credit losses of contract assets and relevant accounting treatments**

Applicable  N/A

The method for recognition of expected credit losses of contract assets and relevant accounting treatments are disclosed in V.10 of Section X in details.

**17. Held-for-sale assets**

Applicable  N/A

**18. Debt investments**

**(1). Method for recognition of expected credit losses of debt investments and relevant accounting treatments**

Applicable  N/A

**19. Other debt investments**

**(1). Method for recognition of expected credit losses of other debt investments and relevant accounting treatments**

Applicable  N/A

**20. Long-term receivables**

**(1). Method for recognition of expected credit losses of long-term receivables and relevant accounting treatments**

Applicable  N/A

The method for recognition of expected credit losses of long-term receivables and relevant accounting treatments are disclosed in V.10 of Section X in details.

**21. Long-term equity investments**

Applicable  N/A

1. Judgments on joint control and significant influence

Joint control is the contractually agreed sharing of control of an arrangement, which exists only when

decisions about the relevant activities of such arrangement require unanimous consent of the parties sharing control. Significant influence is the power to participate in the financial and operating policy making of an entity, but does not control or jointly control over those policies.

## 2. Determination of investment cost

(1) In case of an equity investment acquired through a business combination involving entities under common control, if the acquirer pays consideration for the business combination by cash, transfer of non-monetary assets, assumption of liabilities or issuance of equity securities, the initial investment cost of the long-term equity investment is the Company's share of the carrying amount of the owners' equity of the acquiree in the consolidated financial statements of the ultimate controller at the date of combination. The difference between: (i) the initial investment cost of the long-term equity investment; and (ii) the carrying amount of the consideration paid for the combination or the total par value of the shares issued is treated as an adjustment to the capital reserve. In case the capital reserve is not sufficient to absorb the difference, the remaining balance is adjusted against the retained earnings.

For a long-term equity investment acquired through business combination involving enterprises under common control that is achieved through multiple transactions by steps, the Company shall judge whether such transactions constitute a package deal. If such transactions constitute a package deal, the Company accounts for such transactions as one transaction to acquire control. If such transactions do not constitute a package deal, the initial investment cost is the Company's share of the carrying amount of the owners' equity of the acquiree in the consolidated financial statements of the ultimate controller at the date of combination. The difference between: (i) the initial investment cost of the long-term equity investment at the date of combination; and (ii) the sum of the carrying amount of long-term equity investment before the combination and the carrying amount of the consideration paid for acquisition of the additional shares at the date of combination is adjusted against the capital reserve. In case the capital reserve is not sufficient to absorb the difference, the remaining balance is adjusted against the retained earnings.

(2) In case of an equity investment acquired through a business combination not involving entities under common control, the initial investment cost is the fair value of the carrying amount of the consideration paid for the combination at the date of acquisition.

For a long-term equity investment acquired through a business combination not involving entities under common control and achieved through multiple transactions by steps, the accounting treatment

thereof in the separate financial statements is different from that in the consolidated financial statements as stated below:

1) In the separate financial statements, the sum of the carrying amount of the equity investment originally held in the acquiree and the additional investment cost incurred is recorded as the initial investment cost of the equity investment changed into the cost method.

2) In the consolidated financial statements, it is required to judge whether such transactions constitute a package deal. If such transactions constitute a package deal, the Company accounts for such transactions as one transaction to acquire control. If such transactions do not constitute a package deal, the Company re-measures the fair value of the equity held in the acquiree prior to the date of acquisition, and records the difference between the fair value and the carrying amount as investment income for the current period; if the equity held in the acquiree prior to the date of acquisition involves other comprehensive income under equity method, such other comprehensive income is transferred to the income of the period in which the date of acquisition falls, except for other comprehensive income arising from re-measurement of changes in net liabilities or net assets of defined benefit plans.

(3) In the event of no business combination: The initial investment cost is the purchase price actually paid if it is acquired by cash, or the fair value of the equity securities issued if it is acquired through issuance of equity securities, or determined in accordance with the *Accounting Standards for Business Enterprises No. 12 -- Debt Restructuring* if it is acquired through debt restructuring, or determined in accordance with the *Accounting Standards for Business Enterprises No. 7 -- Exchange of Non-monetary Assets* if it is acquired through exchange of non-monetary assets.

### 3. Subsequent measurement and recognition of profit or loss

Long-term equity investments in investees are measured using the cost method. Long-term equity investments in associates and joint ventures are measured using the equity method.

## 22. Investment properties

N/A

## 23. Fixed assets

### (1). Criteria for recognition

Applicable  N/A

Fixed assets are tangible assets held for production of goods, rendering of service, lease or operation and management with a useful life of more than one accounting year. A fixed asset is recognized if the

economic benefits relating to it are very likely to flow to the Company and its cost can be reliably measured.

## (2). Method of depreciation

Applicable  N/A

| Category                        | Depreciation         | Depreciation period (years) | Residual value rate (%) | Annual depreciation rate (%) |
|---------------------------------|----------------------|-----------------------------|-------------------------|------------------------------|
| Machinery and equipment         | Straight line method | 5                           | 5.00                    | 19.00                        |
| Transportation equipment        | Straight line method | 5                           | 5.00                    | 19.00                        |
| Electronic equipment and others | Straight line method | 3-5                         | 5.00                    | 19.00-31.67                  |
| Operating leased equipment      | Straight line method | 3, 7                        | 5.00                    | 31.67, 13.57                 |

## (3). Identification basis, valuation method and depreciation method for fixed assets acquired under finance leases

Applicable  N/A

## 24. Construction in progress

Applicable  N/A

1. A construction in progress is recognized if the economic benefits relating to it are very likely to flow to the Company and its cost can be reliably measured. A construction in progress is measured at the actual cost incurred before it is completed and ready for intended use.

2. When a construction in progress is ready for intended use, it is transferred to fixed assets at its actual construction cost. A construction in progress that is ready for intended use but the final settlement of which has not yet been completed is transferred to fixed assets at estimated value first, and after the completion of final settlement, the estimated value is adjusted according to the actual cost, but the accrued depreciation is not adjusted.

## 25. Borrowing costs

Applicable  N/A

### 1. Recognition for capitalization of borrowing costs

Borrowing costs incurred by the Company that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other

borrowing costs are recognized as expenses and charged to the current profit and loss.

## 2. Capitalization period of borrowing costs

(1) Borrowing expenses are capitalized when all of the following conditions are met: 1) capital expenditure has been incurred; 2) borrowing expenses have been incurred; and 3) activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced.

(2) Where acquisition and construction or production of a qualified asset is interrupted abnormally and the interruption period lasts for more than 3 months, the capitalization of the borrowing costs shall be suspended. The borrowing expenses incurred during these periods shall be recognized as expenses for the current period until the acquisition, construction or production of a qualifying asset is resumed.

(3) Capitalization of borrowing expenses shall be ceased when acquisition, construction or production of the qualifying asset has prepared for its intended use or sale.

## 3. Capitalization rate and capitalization amount of borrowing expenses

As for the specific borrowings for the acquisition and construction or production of assets qualifying for capitalization, the to-be-capitalized amount of interests shall be determined in light of the actual cost incurred on the current specific borrowings (including the amortization of discounts or premiums determined using the effective interest method) minus the income of interests earned from the unused borrowings by depositing it in the bank or investment income from such borrowing by making it as a temporary investment; where a general borrowing is used for the acquisition and construction or production assets qualifying for capitalization, the Company shall calculate and determine the to-be-capitalized amount of interests on the general borrowing by multiplying the weighted average value of the accumulative expenditures to asset minus the specific borrowing by the capitalization rate of the general borrowing used.

## 26. Biological assets

Applicable  N/A

## 27. Oil and gas assets

Applicable  N/A

**28. Right-of-use assets**√ Applicable  N/A

Right-of-use assets are initially measured at cost; the cost includes: 1) initial measurement amount of lease liabilities; 2) lease payments made on or before the commencement date of the lease term, where relevant acquired amount related to lease incentives is excluded if there are lease incentives; 3) initial direct expenses incurred by the lessee; and 4) costs expected to be incurred by the lessee for dismantling and removing the leased assets, restoring the place of the leased assets, or restoring the leased assets to the state provided under lease provisions.

The Company depreciates right-of-use assets by using the straight-line method. If there is reasonable certainty that the lessee will obtain ownership of the leased asset by the end of the lease term, the Company depreciates the leased asset over its useful life. If there is no reasonable certainty that the lessee will obtain ownership of the leased asset by the end of the lease term, the Company depreciates the leased asset over the shorter of the lease term and its remaining useful life.

**29. Intangible assets****(1). Measurement, service life and impairment test**√ Applicable  N/A

1. Intangible assets include land use rights, patents, and software etc. and are measured at cost initially.

2. An intangible asset with a finite useful life is amortized over its useful life in a systematic and rational expected realization of economic benefits relative to the intangible asset, or is amortized using the straight-line method if it is impossible to determine expected realization reliably. The specific years are as follows:

| Item            | Amortization period (years) |
|-----------------|-----------------------------|
| Land use rights | 30                          |
| Patents         | 10                          |
| Software        | 3-5                         |

**(2). Accounting policy on internal research and development expenditures** Applicable  N/A

**30. Impairment of long-term assets**√ Applicable  N/A

For long-term equity investments, fixed assets, construction in progress, right-of-use assets, intangible assets with a finite useful life and other long-term assets, if there's an indication of impairment at the balance sheet date, the Company assesses their recoverable amount. Goodwill arising from business combinations and intangible assets with an infinite useful life are tested for impairment every year regardless of whether there's an indication of impairment. Goodwill is tested for impairment together with the relevant groups of assets or combinations of groups of assets.

If the recoverable amount of a long-term asset is less than its carrying amount, the difference is measured as impairment loss of the asset and recognized in profit or loss for the current period.

**31. Long-term prepaid expenses**√ Applicable  N/A

Long-term prepaid expenses are expenses that have already been incurred but should be amortized over a period of more than one year (excluding one year). Long-term prepaid expenses are stated as the amount actually incurred and shall be amortized evenly by stages within the benefit period or specified period. If an item of long-term prepaid expenses will not benefit the subsequent periods, the amortized value of the item that has not yet been amortized is wholly transferred to profit or loss for the current period.

**32. Contract liabilities****(1). Recognition method for contract liabilities**√ Applicable  N/A

The Company presents contract assets or contract liabilities in the balance sheet according to the relationship between the performance of contractual obligations and payment by customers. Contract assets and contract liabilities under a same contract are presented at the net amount after offsetting each other.

The obligations of the Company for transferring goods to customers corresponding to considerations that have been received or receivable are presented as contract liabilities.

**33. Employee benefits****(1). Accounting treatment of short-term employee benefits**√ Applicable  N/A

1. Employee benefits include short-term benefits, post-employment benefits, termination benefits and other long-term employee benefits.

2. Accounting treatment of short-term employee benefits

The short-term employee benefits actually incurred are recognized as liabilities in the accounting period during which employee services are rendered, and included in profit or loss for the current period or the cost of related assets.

**(2). Accounting treatment of post-employment benefits**

Applicable  N/A

Post-employment benefits are classified into defined contribution plans and defined benefit plans.

(1) In the accounting period during which employee services are rendered, the amount in contribution as calculated according to the defined contribution plan is recognized as liabilities and included in profit or loss for the current period or the cost of related assets.

(2) The accounting treatment of a defined benefit plan generally involves the following steps:

1) According to the projected unit credit method, use the unbiased and consistent actuarial assumptions to estimate demographic variables and financial variables, measure the obligation arising from the defined benefit plan and determine the period to which the relevant obligation belongs. Meanwhile, discount the obligation arising from the defined benefit plan, in order to determine the present value of the defined benefit plan obligation and the current service cost;

2) If the defined benefit plan has assets, the deficit or surplus resulting after reducing the present value of the defined benefit plan obligation by the fair value of the defined benefit plan is recognized as a net liability or asset of the defined benefit plan. If the defined benefit plan has a surplus, the net assets of the defined benefit plan are measured at the lower of surplus in the defined benefit plan and asset ceiling;

3) At the end of the reporting period, the cost of employee benefits arising from the defined benefit plan is recorded as service cost, net interest on the net liabilities or net assets of the defined benefit plan, and changes arising from re-measurement of the net liabilities or net assets of the defined benefit plan, wherein the service cost and the net interest on the net liabilities or net assets of the defined benefit plan are included in profit or loss for the current period or the cost of related assets, and the changes arising from re-measurement of the net liabilities or net assets of the defined benefit plan are included in other comprehensive income, which will not be reserved to profit or loss in subsequent periods, but may be transferred within the scope of equity.

**(3). Accounting treatment of termination benefits**√ Applicable  N/A

If dismissal benefits are provided to employees, the liabilities of employee benefits from the dismissal benefits are recognized at the earlier of the following and are recognized in the profit or loss for the current period: (1) when the Company cannot unilaterally withdraw the dismissal benefits provided due to the cancellation of the labor relationship or lay-off suggestions; (2) when the Company recognizes costs or expenses in connection with restructuring involving dismissal benefits.

**(4). Accounting treatment of other long-term employee benefits**√ Applicable  N/A

Other long-term employee benefits are accounted for in accordance with the provisions applicable to defined contribution plans if they are qualified as defined contribution plans, otherwise, are accounted for in accordance with the provisions applicable to defined benefit plans. In order to simplify the accounting treatment, the total net amount of the cost of employee benefits arising from the defined benefit plans that is recorded as service cost, net interest on the net liabilities or net assets of other long-term employee benefits, changes arising from re-measurement of the net liabilities or net assets of other long-term employee benefits and other components is included in profit or loss for the current period or the cost of related assets.

**34. Leasing liabilities**√ Applicable  N/A

On the lease inception date, the Company recognizes the present value of lease payments not paid as lease liabilities. The interest rate implicit in the lease is used as the discount rate for calculating the present value of the lease payments; if the interest rate implicit in the lease cannot be determined, the incremental borrowing interest rate of the Company is used as the discount rate. The difference between the lease payments and the present value thereof is considered as unrecognized finance charges; in each period during the lease term, interest expenses are recognized in the profit or loss for the current period according to the discount rate of the present value of recognized lease payments. Variable lease payments not included in measurement of lease liabilities are recognized in the profit or loss for the current period when they actually arise.

Where, after the lease inception date, there are changes in the substantial fixed payment, the payables

expected on the basis of the residual value of the guarantee, the index or ratio used for determining the lease payment, the evaluation results or actual exercising of purchase option, renewal option or lease termination option, the Company re-measures the lease liability as per the present value of the lease payment after change, and adjust the book value of the use right assets accordingly. Where the book value of the use right asset has been reduced to zero, but the lease liability still needs to be further reduced, the Company includes the residual amount in the current profit or loss.

### **35. Provisions**

√ Applicable □ N/A

1. An obligation arising from any external guarantee, instigation, product quality warranty, onerous contract or other contingencies is recognized as a provision if it is a present obligation assumed by the Company, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably measured.

2. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation. The carrying amount of provisions is reviewed at the balance sheet date.

### **36. Share-based payments**

√ Applicable □ N/A

#### 1. Categories of share-based payments

Share-based payments include equity-settled share-based payments and cash-settled share-based payments

#### 2. Accounting treatment for implementation, modification and termination of share-based payment plan

##### (1) Equity-settled share-based payments

Equity-settled share-based payments in exchange for services rendered by employees that can be executed immediately upon being granted, are measured at the fair value of the equity instruments at the grant date, and recognized as related costs or expenses with a corresponding adjustment to capital reserve. At each balance sheet date during the vesting period, equity-settled share-based payments in exchange for services rendered by employees that cannot be executed until services in the vesting period are completed or required performance conditions are satisfied, are measured at the fair value of the equity instruments

at the grant date based on the best estimate of exercisable numbers of equity instruments, and recognized as related costs or expenses with a corresponding adjustment to capital reserve.

For equity-settled share-based payments in exchange for services rendered by other parties, if the fair value of services from other parties can be measured reliably, they are measured at the fair value of services from other parties at the date when such services are received. If the fair value of services from other parties cannot be measured reliably but the fair value of the equity instruments can be measured reliably, they are measured at the fair value of the equity instruments at the date when such services are received. The fair value of the equity instruments are recognized as related costs or expenses, with a corresponding increase in owners' equity.

(2) Cash-settled share-based payments

Cash-settled share-based payments in exchange for services rendered by employees that can be executed immediately upon being granted, are recognized as related costs or expenses based on the fair value of liabilities assumed by the Company at the grant date, with a corresponding increase in liability. At each balance sheet date during the vesting period, cash-settled share-based payments in exchange for services rendered by employees that cannot be executed until services in the vesting period are completed or required performance conditions are satisfied, are measured at the fair value of liabilities assumed by the Company based on the best estimate of exercisable conditions, and recognized as related costs or expenses and relevant liabilities.

(3) Modification and termination of share-based payment plan

In case the Company modifies a share-based payment plan, if the modification increases the fair value of the equity instruments granted, the Company will include the incremental fair value of the equity instruments granted in the measurement of the amount recognized for services received. If the modification increases the number of the equity instruments granted, the Company will include the fair value of additional equity instruments granted in the measurement of the amount recognized for services received. If the Company modifies the exercisable conditions of the share-based payment plan in a manner beneficial to the employee, the Company will consider the modified exercisable conditions when dealing with exercisable conditions.

If the modification decreases the fair value of the equity instruments granted, the Company will continue to measure the amount recognized for services received at the fair value of the equity instruments

at the grant date without including the decremental fair value of the equity instruments. If the modification decreases the number of the equity instruments granted, the Company will treat the decreased number as the cancelled number of equity instruments granted. If the Company modifies the exercisable conditions in a manner unbeneficial to the employee, the Company will not consider the modified exercisable conditions when dealing with exercisable conditions.

If cancellation or settlement of the equity instruments granted occurs (not due to unsatisfaction of exercisable conditions) during the vesting period, the Company will account for the cancellation or settlement of the equity instruments granted as an acceleration of vesting, and recognize immediately the amount that otherwise would have been recognized over the remainder of the vesting period.

### **37. Preferred shares, perpetual bonds and other financial instruments**

Applicable  N/A

### **38. Revenue**

#### **(1). Accounting policies adopted for income recognition and measurement**

Applicable  N/A

##### **1. Principles for revenue recognition**

At the beginning date of a contract, the Company assesses the contract to identify individual performance obligations contained in the contract and determine whether individual obligations are to be performed during a period of time or at a specific time point.

An obligation meeting one of the following conditions is one to be performed within a period of time, and the remaining are obligations to be performed at a specific time point: (1) the customer receives and consumes the economic benefits from the performance of the Company when the Company performs its obligations; (2) the customer can control the goods in progress during the performance of the Company; or (3) the goods generated during the performance process of the Company have irreplaceable uses, and the Company is entitled to payment for the portion completed during the entire contract term.

The Company recognizes revenue according to the performance progress during the period of time for obligations to be performed during a period of time. If the performance progress cannot be determined reasonably, and the Company is expected to be paid based on the costs incurred, the Company recognizes revenue according to the amount of costs incurred until the performance progress can be determined reasonably. For obligations to be performed at a specific time point, the Company recognizes revenue

when the customer receives the control over the relevant goods or services. The following will be considered when determining whether the customer has obtained the control over the goods: (1) the Company has the present rights of receiving payments for such goods, that is, the customer has the present obligation of making payment for the goods; (2) the Company has transferred the legal title in the goods to the customer, that is, the customer has acquired the legal title in the goods; (3) the Company has transferred the physical goods to the customer, that is, the customer is in possession of the physical goods; (4) the Company has transferred major risks and rewards of the legal title in the goods to the customer, that is, the customer has acquired the major risks and rewards of the legal title in the goods; (5) the customer has accepted the goods; and (6) there are other signs indicating that the customer has acquired the control over the goods.

## 2. Principles of revenue measurement

(1) The Company measures the revenue according to the transaction price allocated to individual performance obligations. The transaction price refers to the amount of the consideration expected to be received by the Company on the basis of transferring goods or providing services to the customer, excluding amounts collected on behalf of a third party and amounts expected to be refunded to the customer.

(2) If a contract contains a variable consideration, the Company determines the best estimate of the variable consideration according to the expected value or the most likely amount; however, the transaction price containing the variable consideration does not exceed the amount for which no material reversal of recognized revenue is highly probable when relevant uncertainty is eliminated.

(3) If a contract contains a major financing portion, the Company determines the transaction price as the amount payable in cash when the customer obtains the control over the goods or services. The difference between the transaction price and contract consideration is amortized using the effective interest method during the term of the contract. If the Company expects that the interval between the acquisition of the goods or services by the customer and the payment of prices by the customer will not exceed one year from the commencement date of the contract, no significant financing factor is considered.

(4) If a contract contains two or more performance obligations, at the beginning date of the contract, the Company allocates the transaction price to individual performance obligations according to the relative

proportion of the individual sale prices of the goods promised under such individual performance obligations.

### 3. Specific methods for revenue recognition

#### (1) Revenue from sales of goods

Revenue from sales of goods denotes contractual obligations to be performed at a time point. Our sales include sales to the domestic market and sales to foreign markets.

Goods sold to the domestic market: 1) Under the direct sale model and the distribution mode, the Company recognizes the revenue when the goods sent have been delivered to customers with customers' receipt given to the Company. For goods sold attached with return conditions, the Company recognizes the revenue according to the amount of the consideration expected to be received by the Company on the basis of transferring goods to the customer, and recognizes liabilities to write off the revenue according to the expected amount to be refunded due to the return of goods; for goods required for installment and inspection after sales, the Company recognizes the revenue when such goods have been installed and inspected with customers' acceptance certificate given to the Company. If the Company shares profits from sales of product to downstream end customers, the Company recognizes the revenue at the goods price agreed between the parties upon the delivery of goods to the customer and reconciliation, and recognizes shared revenue according to the share profit reconciliation statement when the profits from sales of goods are realized. 2) Under the commissioned sales mode, the Company recognizes the revenue when it receives the list of commissioned sales from the customer.

Goods exported to overseas markets: The Company mainly adopts FCA for export of goods. Under this mode, the Company recognizes revenue when it delivers goods at the designated location with export customs clearance procedures completed.

#### (2) Other incomes

Other revenues denote contractual obligations to be performed at a time point/during a specific period of time. For installation services provided by the Company, the Company recognizes the revenue when it has completed the services and received customers' acceptance certificate; for repair and maintenance services provided by the Company, the Company recognizes the revenue when it has completed the services and received payments; for patrol inspection services provided by the Company, the Company determines the service performance progress by using the output approach, and recognizes the revenue

according to the performance progress; for patent license services provided by the Company, the Company recognizes the revenue when the patent license is delivered; for technology development services provided by the Company, the Company recognizes the revenue when it has completed the services or when the agreed time point of service acceptance is reached.

**(2). Description of differences in the accounting policies in revenue recognition due to different operating modes adopted for the same business type**

Applicable  N/A

**39. Contract costs**

Applicable  N/A

Assets related to contract costs include contract acquisition costs and contract performance costs.

If costs incurred by the Company for acquiring a contract are expected to be recovered, such costs are recognized as an asset as contract acquisition costs.

The costs incurred by the Company for performing a contract are recognized as an asset of contract performance costs if they do not fall within the scope of other relevant standards, like inventories, fixed assets, or intangible assets, and meet all the following conditions:

1. The cost is directly related to a present or expected contract, including direct labor, direct materials, manufacturing expenses (or similar expenses), costs explicitly to be borne by customers, and other costs arising from the contract;

2. The cost leads to the increase in resources of the Company for fulfilling its performance obligations in the future; and

3. The cost is expected to be recovered.

Assets related to contract costs are amortized on the same basis as recognizing incomes from goods related to assets, and are recognized in the profit or loss for the current period.

If the book value of the assets related to contract costs is greater than the consideration expected to be acquired by transferring the goods or services related to such assets less the costs expected to be incurred, the Company makes provision for impairment for the exceeding portion and recognizes impairment loss of assets. In the event of a change in the factors causing impairment in a prior period, so that the consideration expected to be acquired by transferring the goods or services related to such assets

less the costs expected to be incurred is greater than the book value of such assets, the provision for impairment made for such assets is reversed and recognized in the profit or loss for the current period; provided, however, that the reversed book value of such assets shall not exceed the book value of such assets at the reversal date on the assumption that no provision for impairment has been made.

#### **40. Government grants**

√ Applicable  N/A

1. Government grants are recognized if (1) the Company meets the conditions attaching to the government grants; and (2) the Company will receive the government grants. Government grants in the form of monetary assets are measured at the amount received or receivable. Government grants in the form of non-monetary assets are measured at fair value, or if their fair value is unavailable, at nominal amount.

##### 2. Determination and accounting treatment of government grants related to assets

Government grants related to assets are government grants which are offered for purchasing, constructing or otherwise acquiring long-term assets as provided by the applicable government documents. In the absence of such express provision in the applicable government documents, government grants related to assets are those with a primary condition that the Company should purchase, construct or otherwise acquire long-term assets. Government grants related to assets are offset against the carrying amount of the relevant assets or recognized as deferred. Government grants related to assets recognized as deferred shall be included in profit or loss over the service life of the relevant assets on a reasonable and systemic basis. Government grants measured at nominal amount are directly recognized in profit or loss for the current period. In case of sale, transfer, retirement or damage of the relevant assets before the end of intended service life, the balance of the unallocated deferred is transferred to profit or loss for the period in which the assets are disposed of.

##### 3. Determination and accounting treatment of government grants related to income

Government grants related to income are government grants other than those related to assets. Government grants related to both assets and income in which it is difficult to make a distinction between the portion related to assets and the portion related to income are wholly classified as government grants related to income. Government grants related to income as compensation for expenses or losses to be

incurred in subsequent periods are recognized as deferred and in the period for recognizing the relevant costs, expenses or losses, included in profit or loss for the current period or offset against the relevant costs. Government grants related to income as compensation for expenses or losses already incurred are directly included in profit or loss for the current period or offset against the relevant costs.

4. Government grants related to daily operations of the Company are recognized in other income or offset against the relevant costs and expenses depending on the nature of economic business. Government grants not related to daily operations of the Company are recognized in non-operating income or expenses.

5. Accounting treatment of policy preferential loans and interest subsidies

(1) If the Ministry of Finance appropriates the interest subsidies to the lending bank, who then grants the loan to the Company at the policy preferential rate, the loan is stated as the amount actually received, and the borrowing cost is calculated according to the principal of the loan and the policy preferential rate.

(2) If the Ministry of Finance directly appropriates the interest subsidies to the Company, the interest subsidies are offset against the borrowing cost.

#### **41. Deferred tax assets and deferred tax liabilities**

√ Applicable □ N/A

1. The difference between the tax base of an asset or liability and its carrying amount (or in case of an item not recognized as asset or liability whose tax base can be determined according to the applicable tax law, the difference between its tax base and carrying amount) is recognized as a deferred tax asset or deferred tax liability according to the tax rate applicable to the period in which the asset or liability is expected to be recovered or settled.

2. Deferred tax assets are recognized to the extent of the amount of income tax payable that will be available in future periods against which deductible temporary differences are deductible. At the balance sheet date, deferred tax assets not recognized in prior periods are recognized if there's conclusive evidence that it is probable that sufficient taxable income will be available in future periods against which the deductible temporary differences are deductible.

3. At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced to the extent that it is no longer probable that sufficient taxable income will be available in future periods to allow the benefit of the deferred tax assets to be utilized. If it is probable that sufficient taxable income will be available, the reduced amount is reversed.

4. The income taxes and deferred taxes are included in profit or loss for the current period as income

tax expenses or gains, except the income taxes arising from any: (1) business combination; or (2) transaction or event directly recognized in owners' equity.

### **(2). Accounting treatment of finance leases**

Applicable  N/A

### **(3). Method for determination and accounting treatments of lease under the New Lease Standard**

Applicable  N/A

#### 1. The Company as the lessee

On the lease inception date, the Company recognizes a lease with a lease term of not more than 12 months and not containing an option as a short-term lease; and recognizes a low-value assets lease for a lease in which individually leased assets have a low value when they are new. If the Company subleases or expects to sublease the leased asset, the original lease is not recognized as a low-value assets lease.

For short-term leases and low-value assets leases, the Company recognizes lease payment in the costs of relevant assets or the profit or loss for the current period by using the straight-line method in each period during the lease term.

Except for short-term leases and low-value assets leases subject to simplified treatment above, on the lease inception date, the Company recognizes right-of-use assets and lease liabilities for leases.

#### (1) Right-of-use assets

Right-of-use assets are initially measured at cost; the cost includes: 1) initial measurement amount of lease liabilities; 2) lease payments made on or before the commencement date of the lease term, where relevant acquired amount related to lease incentives is excluded if there are lease incentives; 3) initial direct expenses incurred by the lessee; and 4) costs expected to be incurred by the lessee for dismantling and removing the leased assets, restoring the place of the leased assets, or restoring the leased assets to the state provided under lease provisions.

The Company depreciates right-of-use assets by using the straight-line method. If there is reasonable certainty that the lessee will obtain ownership of the leased asset by the end of the lease term, the Company depreciates the leased asset over its useful life. If there is no reasonable certainty that the lessee will obtain

ownership of the leased asset by the end of the lease term, the Company depreciates the leased asset over the shorter of the lease term and its remaining useful life.

## (2) Leasing liabilities

On the lease inception date, the Company recognizes the present value of lease payments not paid as lease liabilities. The interest rate implicit in the lease is used as the discount rate for calculating the present value of the lease payments; if the interest rate implicit in the lease cannot be determined, the incremental borrowing interest rate of the Company is used as the discount rate. The difference between the lease payments and the present value thereof is considered as unrecognized finance charges; in each period during the lease term, interest expenses are recognized in the profit or loss for the current period according to the discount rate of the present value of recognized lease payments. Variable lease payments not included in measurement of lease liabilities are recognized in the profit or loss for the current period when they actually arise.

Where, after the lease inception date, there are changes in the substantial fixed payment, the payables expected on the basis of the residual value of the guarantee, the index or ratio used for determining the lease payment, the evaluation results or actual exercising of purchase option, renewal option or lease termination option, the Company re-measures the lease liability as per the present value of the lease payment after change, and adjust the book value of the use right assets accordingly. Where the book value of the use right asset has been reduced to zero, but the lease liability still needs to be further reduced, the Company includes the residual amount in the current profit or loss.

## 2. The Company as the lessor

On the lease inception date, the Company classifies a lease in which almost all the risks and rewards related to the ownership of the leased asset have been substantially transferred as a finance lease, and recognizes all other leases as operating leases.

### (1) Operating lease

In each period during the lease term, the Company recognizes lease payments as rental incomes by using the straight-line method/units of production method; initial direct expenses incurred are capitalized, and amortized on the same basis for recognizing lease incomes for recognizing in the profit or loss for each period. The variable lease payments acquired by the Company that are related to operating leases and not recognized in lease payments are recognized in the profit or loss for the current period when they

actually occur.

#### 43. Other significant accounting policies and accounting estimates

Applicable  N/A

#### 44. Changes in significant accounting policies and accounting estimates

##### (1). Changes in significant accounting policies

Applicable  N/A

| Changes in accounting policies and associated reasons                                     | Approval procedures        | Remarks (name and amount of line items in financial statements that have been materially affected) |
|---|----------------------------|--|
| Implement the amended <i>Accounting Standard for Business Enterprises No. 21 - Leases</i> | Approved by the management | Refer to the table below for details   |

##### Other information

(1) The Company implements the amended *Accounting Standard for Business Enterprises No. 21 - Lease* (hereinafter referred to as the New Lease Standard) from January 1, 2021 (hereinafter referred to as the Date of Initial Application).

1) For contracts existing prior to the Date of Initial Application, the Company opts not to assess whether such contracts are leases or contain leases.

2) For lease contracts in which the Company is the lessee, the Company adjusts the amounts of the initial retained earnings of the current reporting period and other relevant items in the financial statements according to the cumulative effects between the application of the New Lease Standard and the original standard on the Date of Initial Application, but makes no adjustment to comparable periods. The specific treatment is as follows:

For an operating lease prior to the Date of Initial Application, on the Date of Initial Application, the Company measures lease liabilities according to the present value of the remaining lease payments discounted at the Company's incremental borrowing interest rate on the Date of Initial Application, and measures right-of-use assets according to the book value on the assumption that the New Lease Standard has been adopted from the lease inception date (the discount rate is the Company's incremental borrowing interest rate on the Date of Initial Application).

On the Date of Initial Application, the Company performed impairment test on the right-of-use assets and implemented corresponding accounting treatment in accordance with the provisions in V.44 of section X.

□ The New Lease Standard mainly caused the following effects on the Company's financial statements as at January 1, 2021:

| Item  | Balance sheet     |   |                  |
|---|-------------------|---|------------------|
|   | December 31, 2020 | Adjustment effect of the New Lease Standard | January 1, 2021  |
| Prepayments   | 47,447,601.43     | 1,727,030.09                                | 49,174,631.52    |
| Right-of-use assets                                       |                   | 39,368,070.17                               | 39,368,070.17    |
| Deferred tax assets                                       | 96,132,114.02     | 323,676.36                                  | 96,455,790.38    |
| Other payables  | 59,848,053.83     | -1,026,101.82                               | 58,821,952.01    |
| Non-current liabilities due within one year               | 181,417,412.46    | 18,607,011.39                               | 200,024,423.85   |
| Leasing liabilities                                       |                   | 23,804,845.36                               | 23,804,845.36    |
| Surplus reserve   | 35,242,179.57     | 34,923.77                                   | 35,277,103.34    |
| Undistributed profit                                      | 357,793,891.96    | 9,346.56                                    | 357,803,238.52   |
| Total equity attributable to owners of the parent company | 2,091,599,671.75  | 44,270.33                                   | 2,091,643,942.08 |
| Minority interests  | 93,812,755.26     | -11,248.64                                  | 93,801,506.62    |

□ The weighted average of the Company's incremental borrowing interest rate adopted for the lease liabilities recognized in the balance sheets on the Date of Initial Application is 4.45%.

3) For operating lease contracts of low-value assets existing prior to the Date of Initial Application, the Company adopts the simplified approach, and instead of recognizing right-of-use assets and lease liabilities, implement accounting treatment in accordance with the New Lease Standard from the Date of Initial Application.

4) For lease contracts in which the Company is the lessor, the Company implements accounting treatment in accordance with the New Lease Standard from the Date of Initial Application.

(2) The Company has implemented the *Interpretation of the Accounting Standards for Business Enterprises No. 14* released on January 26, 2021 by the Ministry of Finance since 2021. This change in

the accounting policy has no effect on the financial statements of the Company.

(3) The Company has implemented the provisions on “presentation of centralized funds management” in the *Interpretation of the Accounting Standards for Business Enterprises No. 15* since December 31, 2021. This change in the accounting policy has no effect on the financial statements of the Company.

**(2). Changes in significant accounting estimates**

5. TECHNOLOGY INC, as domiciled in the United States, applies the federal enterprise income tax rate of 21%.

6. JoveAI Asia Company Limited, as domiciled in Vietnam, applies the enterprise income tax rate of 20%.

7. WEMAX LLC, as domiciled in the United States, applies the federal enterprise income tax rate of 21%.

8. Limited, as domiciled in Hong Kong, applies the income tax rate of 16.50%.

## 2. Tax incentives

Applicable  N/A

1. Enterprise income tax

(1) On December 9, 2019, the Company obtained the High-tech Enterprise Certificate (Certificate No.: GR201944204257) jointly issued by Shenzhen Science and Technology Innovation Commission, Shenzhen Finance Bureau and Shenzhen Tax Service of State Taxation Administration with a valid term of three years. Therefore, the Company paid the enterprise income tax at a rate of 15% in 2021.

(2) On December 17, 2021, Fengmi (Beijing) Technology Co., Ltd. obtained the High-tech Enterprise Certificate (Certificate No.: GR202111004001) jointly issued by Beijing Municipal Science and Technology Commission, Beijing Finance Bureau and Beijing Tax Service of State Taxation Administration with a valid term of three years. It paid the enterprise income tax at a rate of 15% in 2021.

(3) On October 15, 2019, CINEAPPO Laser Cinema Technology (Beijing) Co., Ltd. obtained the High-tech Enterprise Certificate (Certificate No.: GR201911002720) jointly issued by Beijing Municipal Science and Technology Commission, Beijing Finance Bureau and Beijing Tax Service of State Taxation Administration with a valid term of three years. It paid the enterprise income tax at a rate of 15% in 2021.

(4) In accordance with the *Notice of the Ministry of Finance and the State Taxation Administration on Implementing the Inclusive Tax Deduction and Exemption Policies for Micro and Small Enterprises* (Cai Shui [2019] No. 13), and the *Announcement of the Ministry of Finance and the State Taxation Administration on Implementing Preferential Income Tax Policies for Micro and Small Enterprises and Individually-owned Businesses* (Announcement No. 12 in 2021 of the Ministry of Finance and the State Taxation Administration), the annual taxable income of a small low-profit enterprise that is not more than RMB 1 million shall be levied with the enterprise income tax rate at a discount of 12.5%, namely, for which the applicable enterprise income tax rate is 20%; for the annual taxable income more than RMB 1 million but no more than RMB 3 million, the taxable income shall be calculated at a discount of 50%, namely, for which the applicable enterprise income tax rate is 20%. The following companies are qualified for enjoying such tax incentives: Beijing Orient Appotronics Technology Co., Ltd., Shenzhen Appotronics Display Device Co., Ltd., Appotronics Technology (Changzhou) Co., Ltd., Fabulus Display (Beijing) Co., Ltd., Qingda Appotronics (Xiamen) Technology Co., Ltd., Shenzhen Appotronics Home Line Technology Co., Ltd., Shenzhen Appotronics Laser Technology Co., Ltd., Shenzhen City Appotronics Xiaoming Technology Co., Ltd., Chongqing Ewei Ecommerce Co., Ltd., Chongqing Guangbo Ecommerce Co., Ltd., and Shenzhen Orange Juice Energy Technology Co., Ltd.

## 2. Value-added tax (VAT)

(1) In accordance with the *Notice of the Ministry of Finance and the State Administration of Taxation on Value-added Tax Policies for Software Products* (Cai Shui [2011] No. 100), for self-developed and produced software products sold by general VAT taxpayers, the tax-refund-upon-collection policy is applicable to the part of their actual VAT burden in excess of 3% after the VAT has been collected at a tax rate of 17%. Fengmi (Beijing) Technology Co., Ltd. and Shenzhen Appotronics Software Technology Co., Ltd. are qualified for enjoying such tax incentives.

(2) In accordance with Article 1 (26) of Annex 3 of the *Notice of the Ministry of Finance and the State Administration of Taxation on Implementing the Pilot Program of Replacing Business Tax with Value-Added Tax in an All-round Manner* (Cai Shui [2016] No. 36), taxpayers are exempted from VAT if they provide technology transfer, technology development, and technology consultation and services in connection therewith. The Company is qualified for enjoying such tax incentives.

Applicable  N/A

Notes receivable which are undue as at the balance sheet date but endorsed or discounted by the Company at the end of the period

| Item                  | Amount derecognized at the end of the period | Amount not derecognized at the end of the period |
|-----------------------|--|--|
| Bank acceptance bills | 220,000.00                                   |  |
| Subtotal              | 220,000.00                                   |  |

The acceptors of bank acceptance bills are large-sized commercial banks with high credit ratings and listed joint-stock commercial banks. Because they always have high credit ratings, it is less probable that bank acceptance bills will not get paid upon maturity; therefore, the Company has derecognized endorsed or discounted bank acceptance bills accepted by banks with high credit ratings. However, if such notes are unable to be paid at maturity, the Company will still be jointly and severally liable to the note holders pursuant to the Negotiable Instruments Law.

The proportion of intangible assets generated by the Company's internal research and development to the balance of intangible assets at the end of the period is 0.

The other changes in the original book value of patent use rights were caused because the patent use rights acquired in previous years can no longer generate cash inflow for the Company due to technology iteration; as a result, the Company decided not to make further payment in accordance with the agreement. Instead, the original book value was used to write off the long-term payables provided in previous years, the original book value of intangible assets was assessed on a temporary basis, and such patent use rights were fully impaired.

Other description, including changes in the current period and reasons for changes:

1) On March 5, 2021, the Company entered into the *Share Transfer Agreement on (Chongqing) Innovative Technology Co., Ltd.* with Suzhou Industrial Park Shunwei Technology Venture Capital Partnership (Limited Partnership), Tianjin Jinmi Investment Partnership (Limited Partnership), and Shenzhen Fengye Investment Consulting Limited Partnership (Limited Partnership), under which the Company transferred 45% equity interests in its wholly-owned subsidiary Foremovie at the transfer price of RMB 1, respectively; after receiving the transfer price, the Company recognized the capital reserve (other capital reserve) of RMB 3.

2) On March 23, 2021, the Company's subsidiary Foremovie entered into the *Investment Agreement of (Chongqing) Innovative Technology Co., Ltd.* with Shenzhen Pengfeng No. 1 Venture Capital Partnership (Limited Partnership), Shenzhen Pengfeng No. 3 Venture Capital Partnership (Limited Partnership), Chongqing Liangjiang New Area Chengwei Equity Investment Fund Partnership (Limited Partnership), and LAI Yongsai, under which Chongqing Liangjiang New Area Chengwei Equity Investment Fund Partnership (Limited Partnership), Shenzhen Pengfeng No. 1 Venture Capital Partnership (Limited Partnership), Shenzhen Pengfeng No. 3 Venture Capital Partnership (Limited Partnership), and LAI Yongsai made the total investment of RMB 200,000,000.00 in Foremovie, including RMB 17,543,860.00 recognized in Foremovie's paid-in capital, and the remaining RMB 182,456,140.00 recognized in Foremovie's capital reserve. The Company recognized capital reserve (other capital reserve) at the difference of RMB 92,622,244.75 between the identifiable net assets of the subsidiary according to its shareholding ratio before and after the capital increase.

3) On October 14, 2019, the Company held the eighteenth session of the first Board of Directors and the eighth session of the first Board of supervisors, in which resolutions on matters related to the 2019 Restricted Stock Incentive Plan were discussed and approved; as the Company's implementation of this incentive plan was approved in the general meeting of shareholders, it was determined that 4.4 million shares of restricted shares were granted to 169 incentive participants who met the grant conditions at a grant price of RMB 17.5 per share on the grant date of October 14, 2019. On October 13, 2020, the Company held the 27<sup>th</sup> meeting of the first Board of Directors and the 14<sup>th</sup> meeting of the first Board of Supervisors, at which the *Proposal on Adjusting the Grant Price of Restricted Shares under the 2019 Restricted Share Incentive Plan* and the *Proposal on Granting Reserved Restricted Shares to Grantees of Share Incentives under the 2019 Restricted Share Incentive Plan* were reviewed and passed, approving to

adjust the grant price of restricted shares from RMB 17.5 per share to RMB 17.425 per share. As the Company's implementation of this incentive plan was approved in the general meeting of shareholders, it was determined that 1.10 million shares of restricted shares were granted to 38 grantees of share incentives who met the grant conditions at a grant price of RMB 17.425 per share on the grant date of October 13, 2020. On May 14, 2021, at the 2020 annual general meeting of shareholders, the *Proposal on Preliminary Plan on Profit Distribution for 2020* was reviewed and passed, approving to adjust the grant price of restricted shares from RMB 17.425 per share to RMB 17.37 per share due to the ex-rights effect of profit distribution. The total expense of equity-settled share-based payments amounted to RMB 7,796,726.37, in which RMB 6,987,470.10 was recognized in the capital reserve (other capital reserve) and RMB 809,256.27 was charged to the amount attributable to minority interests.

4) On January 1, 2021, the Company granted restricted shares to senior officers of the subsidiary CINEAPPO with shares of its shareholding platform with the grant waiting period of 24 months, for which it's determined that the grant date shall be January 1, 2021 at the grant price of RMB 4.00 per share. The total expense of equity-settled share-based payments amounted to RMB 4,206,150.00, in which RMB 2,658,286.80 was recognized in the capital reserve (other capital reserve) and RMB 1,547,863.20 was charged to the amount attributable to minority interests.

5) On April 22, 2021, the Company held the 31<sup>st</sup> meeting of the first Board of Directors and the 18<sup>th</sup> meeting of the first Board of Supervisors, at which the *Proposal on Initial Granting Restricted Shares to Grantees* was reviewed and passed; as the Company's implementation of this incentive plan was approved in the general meeting of shareholders, it was determined that 17.1000 million shares of restricted shares were granted to 220 incentive participants who met the grant conditions at a grant price of RMB 21.00 per share, RMB 17.50 per share, and RMB 18.50 per share, respectively, on the grant date of April 22, 2021. The total expense of equity-settled share-based payments amounted to RMB 38,356,472.38, in which RMB 35,909,218.95 was recognized in the capital reserve (other capital reserve) and RMB 2,447,253.43 was charged to the amount attributable to minority interests.

6) On December 7, 2021, the Company held the 6<sup>th</sup> meeting of the second Board of Directors and the 6<sup>th</sup> meeting of the second Board of Supervisors, at which the *Proposal on Initial Granting Restricted Shares to Grantees* was reviewed and passed; as the Company's implementation of this incentive plan was approved in the general meeting of shareholders, it was determined that 8.4000 million shares of restricted

shares were granted to 55 incentive participants who met the grant conditions at a grant price of RMB 20.00 per share and RMB 23.00 per share, respectively, on the grant date of December 7, 2021. The total expense of equity-settled share-based payments amounted to RMB 2,602,214.14, in which RMB 2,593,206.52 was recognized in the capital reserve (other capital reserve) and RMB 9,007.62 was charged to the amount attributable to minority interests.

7) On December 31, 2021, Shenzhen Fengye Investment Consulting Limited Partnership (Limited Partnership), the employee shareholding platform for the Company's subsidiary Foremovie, reviewed and passed the *Resolution on Granting Equity Shares of Shenzhen Fengye Investment Consulting Limited Partnership (Limited Partnership)*, under which it was determined that 1.5505 million shares were granted to 36 incentive participants who met the grant conditions at a grant price of RMB 1 per share (each share corresponding to RMB 1 of Foremovie's registered capital), where 1.0000 million shares were granted on a one-off basis, while 0.5505 million shares were subject to restriction provisions and allocated over the period of service. At the time of granting the share-based payment above, the fair value of Foremovie's equity interests was RMB 11.40 per registered capital; correspondingly, the Company recognized the capital reserve (other capital reserve) of RMB 4,077,125.62 and the minority interests of RMB 6,326,358.98.

8) On December 31, 2021, with respect to the temporary difference by which the fair value at the end of period of restricted shares is greater than the fair value at the grant date, the Company recognized the deferred tax assets of RMB 7,138,424.39, the capital reserve (other capital reserve) of RMB 6,736,589.76, and the minority interests of RMB 401,834.63.

Description of the difference between the proportion of shareholding and the proportion of voting rights in a subsidiary:

Fengmi (Beijing) Technology Co., Ltd., Technology Inc., Limited, Chongqing Ewei Ecommerce Co., Ltd., and Chongqing Guangbo Ecommerce Co., Ltd. are wholly-owned subsidiaries of (Chongqing) Innovative Technology Co., Ltd.; Shenzhen Orange Juice Energy Technology Co., Ltd. is a controlled subsidiary of (Chongqing) Innovative Technology Co., Ltd.

The Company and Shenzhen Fengye Investment Consulting Limited Partnership (Limited Partnership), a party acting in concert with the Company, hold a total of 53.6250% voting rights in (Chongqing) Innovative Technology Co., Ltd., for which the voting rights are exercised according to the

opinions of the Company. Since the voting rights are sufficient to exercise significant influence on the resolution of the general meeting, the Company becomes the controlling shareholder of (Chongqing) Innovative Technology Co., Ltd.

Basis for holding half of the voting rights or below but still controlling the investee, and holding over half voting rights but having no control over the investee:

Fengmi (Beijing) Technology Co., Ltd., Technology Inc., Limited, Chongqing Ewei Ecommerce Co., Ltd., and Chongqing Guangbo Ecommerce Co., Ltd. are wholly-owned subsidiaries of (Chongqing) Innovative Technology Co., Ltd.; Shenzhen Orange Juice Energy Technology Co., Ltd. is a controlled subsidiary of (Chongqing) Innovative Technology Co., Ltd.

The Company and Shenzhen Fengye Investment Consulting Limited Partnership (Limited Partnership), a party acting in concert with the Company, hold a total of 53.6250% voting rights in (Chongqing) Innovative Technology Co., Ltd., for which the voting rights are exercised according to the opinions of the Company. Since the voting rights are sufficient to exercise significant influence on the resolution of the general meeting, the Company becomes the controlling shareholder of (Chongqing) Innovative Technology Co., Ltd.

Basis for controls over significant structured entities included in consolidation scope:

None

Description of structured entities that are not included in consolidated financial statements:

Applicable  N/A

**6. Others**

Applicable  N/A

**X. Risks associated with financial instruments**

Applicable  N/A

The Company's risk management objectives are to achieve a proper balance between risks and yield, minimize the adverse impacts of risks on the Company's operation performance, and maximize the benefits of the shareholders and other stakeholders. Based on these risk management objectives, the Company's basic risk management strategy is to identify and analyze its exposure to various risks, establish an appropriate minimum tolerance to risk, implement risk management, and monitor regularly and effectively these exposures to ensure the risks are monitored at a certain level.

The Company is exposed to various risks associated with financial instruments in its daily routines, primarily including credit risk, liquidity risk and market risk. The management has reviewed and approved policies to manage these risks, summarized as below.

**(I) Credit risk**

Credit risk refers to the risk that a party of the financial instrument will default on its obligations resulting in financial loss to the counterparty.

**1. Management of credit risk****(1) Evaluation of credit risk**

The Company assesses at each balance sheet date whether the credit risk of the underlying financial instruments has increased significantly since initial recognition. In determining whether the credit risk has increased significantly since initial recognition, the Company considers reasonable and supportable information that is available without undue cost or effort, including quantitative and qualitative analysis based on historical data, ranking of external credit risks and forward-looking information. The Company compares the risk of a default occurring on a financial instrument as at the balance sheet date with the risk of a default occurring on the financial instrument as at the date of initial recognition based on individual financial instrument or a group of financial instruments with similar credit risk characteristics, to determine the change of the risk of a default occurring on a financial instrument over the expected life.

The Company considers the credit risk of financial instruments has increased significantly when one or more of the following quantitative and qualitative criteria are met:

1) The quantitative criterion primarily refers to a certain percentage of increase in the probability of default over the remaining life of the financial instruments as of the balance sheet date when comparing with that at initial recognition of the financial instruments;

2) The qualitative criterion includes, inter alia, adverse material changes in business or financial conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations, and an actual or expected significant adverse change in the technological, market, economic, or legal environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

(2) Definition of defaulted or credit-impaired assets

A financial asset is defined as defaulted when the financial instrument meets one or more conditions stated as below, and the criterion of defining defaulted asset is consistent with that of defining credit-impaired asset:

- 1) significant financial difficulty of the debtor;
- 2) a breach of contract terms with binding force by the debtor;
- 3) it is becoming probable that the debtor will enter bankruptcy or other financial reorganization;
- 4) the creditor of the debtor, for economic or contractual reasons relating to the debtor's financial difficulty, has granted to the debtor a concession(s) that the creditor would not otherwise consider.

2. Measurement of ECL

Key parameters to measure ECL include the probability of default, loss given default and the exposure at default. The Company established models of the probability of default, loss given default and the exposure at default on the basis of quantitative analysis on historical statistical data (such as counterparty ranking, guarantee methods, collateral category, and repayment way) and forward-looking information.

3. The reconciliation of the opening balance and the closing balance of the provision for impairment of financial instruments is described in detail in VII.4, VII.5, VII.6, VII.8, VII.10, and VII.16 of Section X.

4. Credit risk exposure and credit risk concentration

The Company's credit risk is primarily from cash and bank balances and receivables. In order to control the risks associated with aforementioned items, the Company has taken the following measures.

(1) Cash and bank balances

The credit risk of the Company is limited because the Company has deposited bank deposits and other monetary funds in banks with high credit ratings.

(2) Receivables

The Company regularly evaluates the creditworthiness of its customers with deals on credit, and selects to deal with approved and creditworthy customers subject to the results of the credit assessment

with monitoring the balance of its receivables, so as to ensure that the Company is not exposed to significant risk of bad debt.

No collaterals are required since the Company only deals with third parties that are approved and creditworthy. The concentrated credit risks are managed by customers. As of December 31, 2021, the Company is exposed to certain concentration of credit risks, as the Company's accounts receivable from top 5 customers have accounted for 67.07% of the total balance of accounts receivable (December 31, 2020: 86.37%). The Company held no collateral or other credit ranking measures for the balance of accounts receivable.

The maximum exposure to the Company is the carrying amount of each financial asset in the balance sheet.

#### (II) Liquidity risk

Liquidity risk refers to the risk that the Company is in shortage of funds in performing obligations that are settled by delivering cash or another financial asset. Liquidity risk may arise from an inability to sell a financial asset at fair value as soon as possible, a counterparty's inability to pay its contractual liabilities, the accelerated maturity of liabilities, or an inability to generate expected cash flows.

In order to control this risk, the Company balances the continuity and flexibility of financing by using various financing measures such as notes settlement and bank loans comprehensively and adopting both long-term and short-term financing methods to optimize the financing structure. The Company has received credit facilities from a number of commercial banks to satisfy its working capital requirements and capital expenditures.

## (III) Market risk

Market risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk mainly includes interest rate risk and currency risk.

## 1. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to the risk of fair value interest rate due to financial instruments with a fixed interest rate and to the risk of cash flow interest rate due to financial instruments with a floating interest rate. The Company determines the proportion between the fixed-rate financial instruments and the floating-rate financial instruments based on market conditions, and maintains appropriate portfolios of financial instruments through regular review and monitoring. The cash flow interest rate risk exposed to the Company relates primarily to the Company's floating-rate interest-bearing bank borrowings.

As at December 31, 2021, the principal of the Company's floating-rate interest-bearing bank borrowings amounted to RMB 509,637,141.27 (December 31, 2020: RMB 334,317,535.43). On the basis of the assumption that the interest rate has changed 50 basic points, where all other variables are held constant, it will bring no material impacts on the Company's total profits and shareholders' equity.

## 2. Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the currency risk is primarily associated with the Company's monetary assets and liabilities dominated in foreign currencies. If the monetary assets and liabilities dominated in foreign currencies are imbalanced in a short time, the Company will purchase and sell foreign currencies at the market exchange rate to keep the net risk exposure acceptable.

The closing balance of the Company's monetary assets and liabilities dominated in foreign currencies is disclosed in VII.82 of Section X in details.

**XI. Disclosure of fair value****1. The closing balance of the fair value of assets and liabilities measured at fair value**

Applicable  N/A

**(4). Other information** Applicable  N/A**7. Other significant transactions and matters having an impact on the decisions of investors** Applicable  N/A**8. Others** Applicable  N/A

1. The Company as the lessee

(1) Right-of-use assets are described in detail in VII.25 of Section X;

(2) The accounting policies of the Company with respect to short-term leases and low-value assets leases are described in detail in V.42 of Section X. The table below shows the amounts of expenses related to short-term leases and expenses related to low-value assets leases that are recognized in the profit or loss for the current period:

| Item   | Amount of the current period | Amount of the prior period |
|--|------------------------------|----------------------------|
| Expenses related to short-term leases                                      | 8,445,152.88                 |                            |
| Expenses related to low-value assets leases (except for short-term leases) | 390,717.29                   |                            |
| Total  | 8,835,870.17                 |                            |

(3) Profit or loss and cash flow for the current period related to leases

| Item                                   | Amount of the current period | Amount of the prior period |
|--|------------------------------|----------------------------|
| Interest expenses of lease liabilities | 1,670,889.26                 |                            |
| Total cash outflow for leases          | 32,622,777.04                | 23,680,875.05              |

(4) For the maturity analysis of lease liabilities and corresponding liquidity risk management, refer to the description in X.(II) of Section X.

(5) Nature of leasing activities

| Categories of leased assets | Number | Lease Term      | With option for renewal of lease or not |
|-----------------------------|--------|-----------------|---|
| Property                    | 35     | Within 5 years  | No                                      |
| Computer                    | 426    | Within one year | No                                      |

2. The Company as the lessor

(1) Operating lease

1) Lease incomes

| Item  | Amount of the current period | Amount of the prior period |
|---|------------------------------|----------------------------|
| Income from projection services   | 360,622,008.82               | 171,732,614.66             |
| Where: Income related to variable lease payments not recognized as lease payments |                              |                            |

2) Assets of operating leases

| Item         | Closing balance | Closing of last year |
|--------------|-----------------|----------------------|
| Fixed assets | 367,726,844.90  | 364,423,283.10       |
| Subtotal     | 367,726,844.90  | 364,423,283.10       |

Fixed assets leased out under operating leases are described in detail in VII.21 of Section X.

3) According to the lease contract with the lessee, undiscounted lease payments that will be received in the future for irrevocable leases

| Remaining period | Closing balance |
|------------------|-----------------|
| Within 1 year    | 10,144,456.99   |
| Total            | 10,144,456.99   |

(3) Other information

Nature of leasing activities

| Category of assets leased out | Number | Lease Term | With option for renewal of lease or not |
|-------------------------------|--------|------------|---|
| Light source and device       | 20,584 | N/A        | No                                      |
